

AGENDA

LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY ("AUTHORITY")

BOARD OF DIRECTORS MEETING

Thursday, June 6, 2024, • 9:00 a.m.

County of Los Angeles Sheriff's Department (LASD)
Community College Bureau
1055 Corporate Center Drive
Monterey Park, CA 91754

Microsoft Teams Meeting Link for the Public: [Join the meeting now](#)

Call-in Number for the Public:

Public may submit a Public Comment during the meeting to the Board by accessing the Microsoft Teams Meeting Link above or by the Call-In Telephone Number below.

Telephone Number: (323) 886-6924

Conference ID: 757 446 107#

AGENDA POSTED: May 30, 2024

Complete agendas are available on the Authority's website at <http://www.la-rics.org>.

MEMBERS		ALTERNATES	
1.	Fesia Davenport , CEO County of Los Angeles Chief Executive Office	1.	Brian Hoffman , Principal Analyst, Office of Emergency Management County of Los Angeles Chief Executive Office
2.	Anthony Marrone (Vice-Chair) , Fire Chief County of Los Angeles Fire Department	2.	Michael Inman , Deputy Fire Chief County of Los Angeles Fire Department
3.	Robert Luna (Chair) , Sheriff County of Los Angeles Sheriff's Department	3.	Brian Yanagi , Chief County of Los Angeles Sheriff's Department
4.	Richard Tadeo , Director, EMS Agency County of Los Angeles Department of Health Services	4.	Jacqueline Rifenburg , Assistant Director, EMS Agency County of Los Angeles Department of Health Services
5.	Vincent Capelle , Fire Chief (West Covina) Los Angeles Area Fire Chiefs Association	5.	Phil Ambrose , Battalion Chief (West Covina) Los Angeles Area Fire Chiefs Association
6.	Scott Wiese , Police Chief (Monterey Park) Los Angeles County Police Chief's Association	6.	Gustavo Jimenez, Captain (Monterey Park) Los Angeles County Police Chief's Association
7.	Joshua Nelson , City Manager (City of Industry) California Contract Cities Association	7.	Marcel Rodarte , Executive Director California Contract Cities Association
8.	David Povero , Police Chief At-Large Seat #3 (City of Covina Police Department)	8.	Ric Walczak , Captain At-Large Seat #3 (City of Covina Police Department)
9.	Mark Fronterotta , Police Chief At-Large Seat #2 (City of Inglewood Police Department)	9.	Cardell Hurt , Captain At-Large Seat #2 (City of Inglewood Police Department)
10.	Chris Nigg , Fire Chief At-Large Seat #4 (City of La Verne Fire Department)	10.	Brandon Coatney, Deputy Fire Chief At-Large Seat #4 (City of La Verne Fire Department)

OFFICERS
Scott Edson , LA-RICS Executive Director
Ronald Watson , LA-RICS Deputy Executive Director
Oscar Valdez , County of Los Angeles, Auditor-Controller
Elizabeth Buenrostro Ginsberg , County of Los Angeles, Interim Treasurer and Tax Collector
Beatriz Cojulun , LA-RICS Board Secretary

NOTE: ACTION MAY BE TAKEN ON ANY ITEM IDENTIFIED ON THE AGENDA

I. CALL TO ORDER

II. ANNOUNCE QUORUM – ROLL CALL

III. APPROVAL OF MINUTES – (A)

A. May 2, 2024 – Regular Minutes

Agenda Item A

IV. PUBLIC COMMENTS –

V. CONSENT CALENDAR – NONE

VI. REPORTS (B – E)

B. Director’s Report – Scott Edson

Agenda Item B

C. Project Manager’s Report – Brian Smyth

Agenda Item C

D. Joint Operations and Technical Committee Chair’s Report – Lt. Robert Weber

E. Finance Committee Chair’s Report – Brian Hoffman

VII. DISCUSSION ITEMS (F –G)

F. Land Mobile Radio Network Operations Status and Issues – Ted Pao

Agenda Item F

G. Outreach Update – Lt. Robert Weber

Agenda Item G

VIII. ADMINISTRATIVE MATTERS (H – K)

H. REVIEW AND RECOMMEND APPROVAL OF THE DRAFT REVISED FUNDING PLAN

1. Review and discuss the attached draft Revised Funding Plan;
2. Adopt the draft Revised Funding Plan; and
3. Delegate authority to the Executive Director, or his designee, to notify Authority Members pursuant to Section 5.01 (Adoption of Funding Plan) of the LA-RICS Joint Powers Agreement, of adoption of the Revised Funding Plan, and provide a copy of the same by no later than June 11, 2024.

Agenda Item H

I. REVIEW AND RECOMMEND APPROVAL OF THE DRAFT PROPOSED FISCAL-YEAR 2024-25 OPERATING BUDGET

It is requested that your Board adopt the Enclosed Fiscal-Year 2024-25 Recommended Operating Budget of \$44,547,000 to be utilized for the continued operation of the Authority.

Agenda Item I

J. DELEGATE AUTHORITY TO THE EXECUTIVE DIRECTOR TO ENTER INTO NEGOTIATIONS FOR A SOLE SOURCE AGREEMENT WITH THE COUNTY OF LOS ANGELES INTERNAL SERVICES DEPARTMENT (ISD) FOR CERTAIN ENGINEERING, MAINTENANCE, AND ANCILLARY SERVICES

It is recommended that your Board delegate authority to the Executive Director to enter into negotiations for a sole source agreement with ISD for engineering, maintenance, and ancillary services necessary for the continued operation of the LMR System beyond the Warranty Period. Upon completion of negotiations, Authority staff will return to your Board for consideration of a proposed agreement, corresponding scope, terms and conditions, and costs for engineering, maintenance, and ancillary services.

Agenda Item J

K. INCREASE THE NOT-TO-EXCEED AMOUNT CORRESPONDING TO THE AUTHORITY DELEGATED TO THE EXECUTIVE DIRECTOR TO ENLIST THE ASSISTANCE OF THE COUNTY OF LOS ANGELES AND OTHER GOVERNMENTAL AGENCIES FOR VARIOUS SERVICES AT LAND MOBILE RADIO SYSTEM SITES

It is recommended that your Board:

1. Increase the budget authority previously delegated to the Executive Director corresponding to services from the County and other governmental agencies to perform various services in-house, via competitive bid, or via emergency processes managed by the County or the governmental agency via issuance of a written request for services that may be needed by the Authority at LMR System sites through completion of the Warranty period from \$325,000 to \$882,000 total aggregate not-to-exceed amount.
2. Require the Executive Director to continue to report quarterly to your Board regarding what costs, if any, were incurred for services required at LMR System sites, and the remaining balance of the total aggregate not-to-exceed budgeted amount of \$882,000.

Agenda Item K

IX. MISCELLANEOUS

X. ITEMS FOR FUTURE DISCUSSION AND/OR ACTION BY THE BOARD

XI. CLOSED SESSION REPORT - NONE

1. CONFERENCE WITH LEGAL COUNSEL –Anticipated Litigation (subdivision (d) of Government Code Section 54956.9) (1 case).

XII. ADJOURNMENT AND NEXT MEETING

The next Regular Board Meeting will be held on Thursday, July 11, 2024, at 9:00 a.m., at the County of Los Angeles Sheriff's Department (LASD), Community College Bureau, 1055 Corporate Center Drive, Monterey Park, CA 91754.

BOARD MEETING INFORMATION

Members of the public may also address the Board on any matter within the subject matter jurisdiction of the Board. The Board will entertain such comments during the Public Comment period. Public Comment will be limited to three (3) minutes per individual for each item addressed, unless there are more than ten (10) requests for each item, in which case the Public Comment will be limited to one (1) minute per individual. The aforementioned limitation may be waived by the Board's Chair.

(NOTE: Pursuant to Government Code Section 54954.3(b) the legislative body of a local agency may adopt reasonable regulations, including, but not limited to, regulations limiting the total amount of time allocated for public testimony on particular issues and for each individual speaker.)

It is requested that individuals who require the services of a translator contact the Board Secretary no later than the day preceding the meeting. Whenever possible, a translator will be provided. Sign language interpreters, assistive listening devices, or other auxiliary aids and/or services may be provided upon request. To ensure availability, you are advised to make your request as soon as possible. (323) 881-8291 or (323) 881-8295.

SI REQUIERE SERVICIOS DE TRADUCCIÓN, FAVOR DE NOTIFICAR LA OFICINA LO MAS PRONTO POSIBLE. (323) 881-8291 o (323) 881-8295.

The meeting is recorded, and the recording is kept for 30 days.

BOARD OF DIRECTORS REGULAR MEETING MINUTES

LOS ANGELES REGIONAL
INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY

Thursday, May 2, 2024, ■ 9:00 a.m.

BOARD MEMBERS PRESENT

Vincent Capelle, Fire Chief, Los Angeles Area Fire Chiefs Association

Joshua Nelson, City Manager, California Contract Cities Association

David Povero, Police Chief, City of Covina Police Department

Chris Nigg, Fire Chief, City of La Verne Fire Department

ALTERNATES FOR BOARD MEMBERS PRESENT

Nicholas Berkuta, Battalion Chief, County of Los Angeles Fire Department

Brian Yanagi, Alternate Chair, Chief, County of Los Angeles Sheriff's Department

Jacqueline Rifenburg, Assistant Director, County of Los Angeles Health Services Department

Cardell Hurt, Captain, City of Inglewood Police Department

OFFICERS PRESENT

Scott Edson, LA-RICS Executive Director

Beatriz Cojulun, LA-RICS, Board Secretary

BOARD MEMBERS ABSENT / VACANT

Fesia Davenport, Chief Executive Officer, County of Los Angeles Chief Executive Office

Scott Wiese, Chief of Police, Los Angeles County Police Chief's Association

NOTE: ACTION MAY BE TAKEN ON ANY ITEM IDENTIFIED ON THE AGENDA

I. CALL TO ORDER

Alternate Chair Brian Yanagi welcomed attendees and called the May 2, 2024, Regular Board meeting to order at 9:01 a.m.

II. ANNOUNCE QUORUM – ROLL CALL

LA-RICS Team Member Marissa Bosque took the roll and acknowledged a quorum was present.

III. APPROVAL OF MINUTES – (A)

A. April 4, 2024 – Regular Minutes

Agenda Item A

Alternate Chair Brian Yanagi asked the Board if there were any comments or corrections to the Regular Meeting Minutes for April 4, 2024. There were no questions or corrections, therefore, he asked for a motion to approve the minutes.

Board Member Chris Nigg motioned first, seconded by Board Member David Povero.

AYES (6): Nelson, Povero, Nigg, Berkuta, Yanagi, Rifenberg

Board Member Vincent Capelle and Alternate Board Member Cardell Hurt arrived after the Minutes had been carried into motion.

MOTION APPROVED.

IV. PUBLIC COMMENTS – NONE

There was no public comment.

V. CONSENT CALENDAR – NONE

There were no reports on the Regular Meeting Agenda.

VI. REPORTS (B – E)

B. Director's Report – Scott Edson

Executive Director Scott Edson greeted the Board and went on to report that April posed significant challenges to LA-RICS' operations, particularly in terms of site security and the internal door alarm notification process. Site Baldwin Hills (BHS) fell prey to copper theft, with perpetrators breaching LA-RICS' security measures on the night of April 25, 2024. Executive Director Edson further reported the perpetrators accessed the locked switchgear cabinet outside the shelter, as well as the equipment shelter itself, cutting the main power cables that were crucial for the site's operation, as these cables connected utility power to the site and from the generator to the automatic transfer switch. Executive Director Edson went on to say, consequently, the generator switched to backup mode, but was unable to provide power to the equipment but, thankfully, the backup batteries sustained the Land Mobile Radio (LMR) equipment without any major disruption to the end users. Executive Director Edson expressed LA-RICS grasped the gravity of the situation, and the teams sprang into action, swiftly restored utility power, and reached out to the County of Los Angeles (County) Internal Services Department (ISD) for assistance. Executive Director Edson further expressed that ISD promptly dispatched their team members for evaluation and restoration work and that upon completion of the assessment, ISD transported the necessary materials to the site and commenced restoration efforts. Executive Director Edson mentioned, initially, ISD focused on recharging the batteries and powering auxiliary equipment such as the air conditioner to manage equipment and room temperate. Subsequently, ISD fully reinstated connections to utility power. Executive Director Edson further mentioned that during the restoration process, LA-RICS kept potentially impacted agencies informed about the potential operational impact on the site going offline and discussed fallback plans and potential service disruptions, ensuring agencies could swiftly assess the situation and make informed decisions. Executive Director Edson went on to say, fortunately, power restoration happened quicker than anticipated, minimizing operational impact for field users.

Executive Director Edson reported on April 30, 2024, another security incident occurred at the Palmdale Sheriff Station where LA-RICS' redundant core is located. Executive Director Edson shared that a momentary outage of the redundant core or connection between the two cores caused the resetting of the console subsystems interface connection to LASD and LACoFD console systems and that while communications among field units remained unaffected, the Zetron dispatch positions experienced temporary inoperability. Executive Director Edson further shared LA-RICS was investigating the cause of the security incident, noting the presence of an AT&T technician in the secured equipment room. Executive Director Edson mentioned these incidents prompted significant changes to LA-RICS' notification protocols, operation processes, and security measures, and that LA-RICS has been proactive in addressing copper theft and vandalism issues, with plans for surveillance and access controls already in motion before these incidents occur.

Executive Director Edson stated Agenda Item “L” was for a sole source negotiation with the company providing the security and alarm surveillance system. Executive Director Edson further stated, as for regional interoperability, progress continued in establishing regional interoperability Standard Operating Procedures (SOP) within the Joint Operations-Technical Ad Hoc Interoperability Work Group, which meets every two (2) weeks. Executive Director Edson went on to say that many of the scenarios discussed in the meetings and prepared for have been validated by actual events, such as car pursuits, the active sniper incident in Marina del Rey, CA, and the civil unrest at the University of Southern California and the University of California, Los Angeles (UCLA). Executive Director Edson reported the goal was for consensus on SOPs, outlining procedures for dispatch centers and field personnel to implement in similar scenarios, ensuring seamless coordination communication by all in the region. Executive Director Edson further reported, unfortunately, outside agencies were struggling with programming of radios to include the sixteen (16) regional Talkgroups and the sharing of radio IDs with LASD, and that LA-RICS was working closely with Interagency Communications Interoperability (ICI) for resolution, however, there were some technical constraints that need to be overcome. Executive Director mentioned LA-RICS was planning to work one on one with agencies ready to move forward. Executive Director Edson further mentioned they planned to meet with law enforcement board members in the near future to see how LA-RICS might overcome these obstacles with interoperability.

Executive Director Edson reported, regarding budget and fiscal matters, as the close of the fiscal year approaches, LA-RICS was preparing to present the Revised Funding Plan and Fiscal Year (FY) 24-25 budget for the Finance Committee and Board’s approval in June 2024. Executive Director Edson further reported negotiations with Motorola Solutions, Inc. (MSI) on their System Upgrade Agreement (SUA) was the final piece pending for the presentation of these financial documents. Executive Director Edson stated MSI informed LA-RICS of a fifteen million dollar (\$15M) increase to the SUA, with MSI stating they were moving to a virtualized prime solution, and that all systems in the region should expect to have to pay extra for this change, in addition to what they had already contracted for under their current SUA. Executive Director Edson further stated LA-RICS found this unacceptable, and after much discussion with MSI, MSI removed the \$15M extra charge, indicating they would defer the upgrade for future SUAs in 2029. Executive Director Edson mentioned it was not clear to LA-RICS on what the new solution would cost the other regional systems, or even if they knew about it.

Executive Director Edson reported the budget in FY2024-25 would include final remaining funds from LA-RICS’ Business Agreement with AT&T, which would be approximately three hundred fifty thousand dollars (\$350,000) that would carry over into the new fiscal year for planned operating uses. Executive Director Edson

**BOARD OF DIRECTORS REGULAR MEETING MINUTES
LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM**

further reported Agenda Item “H” provided the Board with the quarterly report on that funds’ uses, and LA-RICS would continue to report on its uses to the Board.

Executive Director Edson stated Agenda Item “I”, was a quarterly report on services received from governmental agencies for services such as generator re-fueling and repair, weed abatement, etc. Executive Director Edson further stated he planned to bring a request to the Board to increase the delegated authority for this item for to comply with Air Quality Management District (AQMD) permitting requirements, emergent issues such as that at site BHS, weed abatement prior to fire season and other services that MSI declined to perform under the Warranty Plan. Executive Director Edson expressed, in order to ensure emergent as well as planned maintenance activities were realized through completion of the Warranty period, LA-RICS would request a supplemented amount to carry LA-RICS through commencement of the first year of Maintenance, and that would be an action item before the Board in June 2024.

Executive Director Edson further expressed the Auditor Controller’s single auditor was also present at the meeting to present the single audit for year ending June 30, 2023, under Agenda Item “J”. Executive Director Edson went on to inform the Board the auditors’ report was in line with years’ past with compliance demonstrated for each major program, in accordance with accounting principles, and no findings. Executive Director Edson congratulated the fiscal team for their diligence and attention to detail.

Under the topic of grants, Executive Director Edson reported LA-RICS continued to spend what was left of grants on the Warranty Period work, as well as items requiring completion during the Warranty Period. Executive Director Edson further reported that LA-RICS continued to move forward with projects, such as security camera system installation, which would be addressed in an action item in the Agenda. Executive Director Edson shared Agenda Item “K” would be presented to the Board, which was the UASI 2023 Subrecipient Agreement, for approval to accept UASI 2023 funds. Executive Director Edson went on to say some would recall that UASI 2023 was the final UASI award earmarked for the deployment of the Land Mobile Radio (LMR) System, and the UASI 2024 award, which was committed but not yet awarded (expected next year) would fund operations and maintenance activities as well as regional interconnections required for the system of systems model the UASI region voted to deploy.

Executive Director Edson shared the grant administrator at the City of Los Angeles (City) Mayor’s Office requested project updates from each of the interoperable communications systems, including LA-RICS, ICI, City Police Department (LAPD), Port of Los Angeles, Los Angeles Airport (LAX), and Long Beach. Executive Director Edson stated those updates were shared with Cal OES and the Federal Emergency Management Agency (FEMA), and he hoped to share those updates with the Board as LA-RICS embarked on the UASI 2025 grant season, however,

the Mayor's staff declined to share these updates, citing they would prefer to share with all once the UASI Approval Authority meeting was calendared, expected later this month. Executive Director Edson further stated he hoped members of the Board join in LA-RICS' request for transparency and collaboration with the understanding that interoperable communications continue to be the goal of all agencies involved and should be the focus when deciding on fair and equitable funding distribution, especially for projects that serve many.

Executive Director Edson commented as mentioned by LA-RICS Lead Engineer and Operations Lieutenant, site security continued to be a top priority for LA-RICS, and that Agenda Item "L" would provide LA-RICS with the elevated level of security needed to ensure the LMR sites operate safely during weather, fires, adjacent tower collapse and other loss such as theft & burglary. Executive Director Edson further mentioned the Board's approval would allow the Executive Director to enter into negotiations with the vendor who provided LA-RICS with the existing Site Monitoring and Management System (SMMS). Executive Director Edson went on to inform the Board they would notice LA-RICS has sole source requests with the Board, as the LMR network was built with specific parts, components, and systems, which upon successful receipt of grant awards allows LA-RICS to move forward with applying the final bells and whistles that would maintain LA-RICS' cutting edge and state of the art system in top order. Executive Director Edson stated it would have been ideal to purchase this upgrade/expansion at the time of original contract execution, however, the funding was not available at the time, and the funding was now before the Board along with LA-RICS' request for this sole source negotiation.

Executive Director Edson expressed, regarding system maintenance, in order to address emergent issues that required immediate action via a Change Order, LA-RICS requests the Board to delegate authority to the Executive Director to issue Proceed Orders that can be carried out on the field, as long as they were determined to be appropriate in cost and scope by the Project Management Team and memorialized after the work was completed via a formal Amendment. Executive Director Edson further expressed additional details would be shared under Agenda Item "M".

Executive Director Edson reported an Amendment under ten thousand dollars (\$10,000) to the MSI Agreement was before the Board as Agenda Item "N" for certain Fire Suppressions System (FSS) inspection and Heating, Ventilation, and Air Conditioner (HVAC) Preventative Maintenance (PM) work, not included in the MSI Warranty scope but required for site functionality.

Director Edson concluded the month of April was exciting and challenging with much to do to ensure first responders have the tools they need, and the public is well served. There was no further discussion.

C. Project Manager's Report – Brian Smyth

Program Director Brian Smyth greeted the Board and presented Agenda Item C.

Updates

Program Director Smyth reported that a meeting with the City Department of Water and Power (LADWP) for site Green Mountain (GRM) was scheduled to coordinate replacement of the existing power pole, and that issues regarding the Right of Entry (ROE) for LADWP were being resolved. Program Director Smyth further reported that California State Parks would accept either an ROE from LA-RICS and LADWP together or separately.

Program Director Smyth shared the original plan to bring commercial power to the site was for LA-RICS to install their own transformer and connect to Southern California Edison (SCE) power directly. Program Director Smyth further shared that SCE offered a solution, where LA-RICS would trench further than originally anticipated, however, LA-RICS would connect to SCE's transformer instead of purchasing a separate transformer. Program Director Smyth went on to say the path to connect to SCE's transformer fell within the boundary set forth in the Environmental Impact Report, and that design documentation would be available in time for LA-RICS to receive the necessary approvals for LA-RICS' portion of the work. Program Director Smyth stated commercial power would be installed by December 2024.

Program Director Smyth reported that issues with site access road conditions continued and provided updates on road repair work for several sites; Magic Mountain Link (MML) and Whitaker Middle Peak (WMP), which remain on hold pending resolution of design and budget issues; Portal Ridge (PRG) and Grass Mountain (GMT) had recently been reported as having issues; Burnt Peak (BUR1) was bladed by the United States Forestry Service (USFS); and the access road to site Frost Peak (FRP) was blocked by snow. Program Director Smyth further reported there was no critical preventative maintenance work that needed to be performed at this time at FRP, and the next steps would be to plow a portion of the road for access if the snow does not melt soon.

Program Director Smyth stated that migration work at site Castro Peak (CPK) was accelerated to finish in May 2024, and an Invitation for Bid (IFB) was being prepared with an anticipated award by July/August 2024.

Maintenance Activities

Program Director Smyth shared the repairs for damages at site Tejon Peak resulting from the tower collapse were completed after receiving financial coverage from the insurance company. Program Director Smyth further shared the Jacobs Project Management (PM) Team encountered some sites with significant fuel

quality issues. Program Director Smyth went on to say this may be a result of cold weather or by the ratio of biodiesel to petroleum diesel, and the PM Team was looking for evidence of patterns so fuel polishing frequency can be adjusted to individual site needs.

Program Director Smyth mentioned there have been instances of increased rodent infestation and that a two-pronged mitigation plan is in place that involves preventative measures and extermination services where necessary.

Program Director Smyth shared that in response to the felony burglary at BHS the shelter door lock was changed, and that locks would be changed on several remote sites in the near-term while a plan is being worked on to rekey all shelter doors. Program Director Smyth further shared that process improvements were in place to prevent felony burglary / theft situations such as that which occurred at site BHS, and some of these improvements were for door alarms, elevated notification and response protocols and procedures, a more automated notification process, training for staff, and distribution of site address/coordinates. Program Director Smyth went on to say additional process improvements will follow.

This concluded the report on Agenda Item C by Project Director Smyth. There was no further discussion.

D. Joint Operations and Technical Committee Chair's Report – Operations Lead Lieutenant Robert Weber

Operations Lead Lt. Robert Weber greeted the Board and presented Agenda Item D.

Operations Lead Lt. Weber shared the Joint Operations and Technical Committees meeting was held on April 16, 2024, was chaired by Operations Lead Lt. Weber; having quorum present; the Minutes were approved; the Joint Committee received an update on the Land Mobile Radio (LMR) System by Project Director Smyth; a Regional Interoperability Update with a brief discussion on different areas of interoperability that were being worked on, including the Ad-Hoc Committee work; LMR Network Operations Status and Issues Update were both presented by Technical Lead Ted Pao; efforts were ongoing for Ad-Hoc meetings and UASI coordination meetings for Interoperability, as well as significant coordination between ICI for the regional and shared IDs; SmartConnect presentation by Motorola, a feature which allows for connectivity via Wi-Fi in fixed locations, which in summary Smart Connect does have relative costs, however it does allow in fixed locations to have connectivity similar to bi-directional amplifier but through Wi-Fi systems which is of interest to certain public safety partners that need in-building coverage in locations that have existing Wi-Fi infrastructure. Operations Lead Lt. Weber reported with no further items and no comments, the meeting concluded.

Operations Lead Lt. Weber was asked about the civil disturbance incident at UCLA and said that LA-RICS responded, Sgt. Alvaro Sierra and Mr. Dana Gower responded and assisted the LASD's Emergency Operations Bureau with coordination. Operations Lead Lt. Weber shared that UCLA has operational channels that were set-up for them during the testing and demonstration period of LA-RICS, however the incident did run into a bit of challenges as far what California Highway Patrol (CHP) can use and what other local agencies that responded to the incident had. UCLA and LASD worked well however there were some operational issues with CHP as well as LAPD. Operations Lead Lt. Weber stated LA-RICS is continuing to work closely with LAPD which will be addressed in the outreach report with much work to be done to ensure all entities could talk to each other during these multi-agency efforts. Executive Director Scott Edson offered LRTCS includes the statewide channels, and no reason state agencies did not go to statewide channels despite the opportunities presented by LA-RICS. There is some training that still needs to occur.

This concluded the report on Agenda Item D by Operations Lead Lt. Weber.

E. Finance Committee Chair's Report – None

VII. DISCUSSION ITEMS (F – J)

F. Land Mobile Radio Network Operations Status and Issues – Ted Pao

Technical Lead Ted Pao greeted the Board and presented Agenda Item F.

Technical Lead Pao reported, other than Executive Director Edson's report regarding security incidents, the network performed without any other major incidents in April 2024 and that service-related issues were still an ongoing focal point with MSI service team. Technical Lead Pao further reported transitional issues on the new MSI Customer Hub portal were ongoing, and MSI acknowledged the issues and were working on resolution.

Technical Lead Pao expressed MSI's service teams were addressing the MML tower foundation issue and were working through MSI's internal contract and procurement process to hire the necessary subject matter experts to address the repair.

Technical Lead Pao provided a brief overview of the Analog Conventional Voice Radio system (ACVRS) channels per Board Member Vincent Capelle's request in the April 2024 Board of Directors Meeting. LACoFD and the City Fire Department were two (2) notable agencies in the region that were still operating on analog systems. Technical Lead Pao shared the high-level channel layout for each ACVRS cell and the sites and coverage maps for each cell.

Technical Lead Pao shared the Narrowband Mobile Data Network (NMDN) statistics for April 2024, in which the outbound message counts were trending around six thousand seven hundred (6,700) messages and up to thirteen thousand (13,000) messages. Technical Lead Pao further shared the inbound messages were lower in counts, but largely followed the trend, from the high two thousand and up to five thousand and six hundred (5,600) messages, with a one-day peak at seven thousand three hundred and eighteen (7,318). Technical Lead Pao went on to say monthly message counts from January 2024 to April 2024 were close in range. Technical Lead Pao showed statistics for call time in each cell in minutes for ACVRS as well as the top ten (10) channels. Technical Lead Pao did note, however, IPD7 was not part of ACVRS, as it was the legacy Inglewood Police Department (IGPD) channel the system tracked from IGPD's console. Technical Lead Pao shared statistics of Digital Trunked Radio Subsystem (DTVRS) usage, call counts for the top fifteen (15) cells (i.e., how many calls each cell processed in April 2024); expansion of call count for all cells and sites (the system processed just over two (2) million calls in April 2024); Talkgroup time in minutes for the top fifteen (15) cells. Technical Lead Pao stated Men's Central Jail was the top Talkgroup at twenty-six thousand five hundred and twenty-four (26,524), LASD North-1 was at twenty-three thousand and seventy-nine (23,079) and IGPD was under twenty-three thousand (23,000) minutes. Technical Lead Pao expressed LASD, IGPD, and LACoFD were the top three (3) agencies in Talkgroup time in minutes.

Board Member Vincent Capelle thanked Technical Lead Pao for sharing the ACVRS data he requested.

This concluded the update on Agenda Item F. There was no further discussion.

G. Outreach Update – Lieutenant Robert Weber

Operations Lead Lieutenant (Lt.) Robert Weber greeted Board members and referenced the detailed Outreach Summary document for the month of April included in the Agenda Packet for review and information.

Operations Lead Lt. Weber reported during the month of April 2024, Authority staff continued with subscriber and affiliate outreach efforts and were coordinating and moving forward with the affiliate radio ID effort with ICI. Operations Lead Lt. Weber further reported Authority staff was working closely with the LASD Communications and Fleet Management Bureau regarding the Los Angeles Regional Tactical Communication system (LARTCS) and regional Interoperability. Operations Lead Lt. Weber went on to say Authority staff facilitated and attended several Interoperability meetings in April 2024, and on April 18, 2024, the Authority staff attended the UASI Interoperability working group, during which they discussed the active shooter incident in Marina del Rey, CA that occurred in the prior weekend. Operations Lead Lt. Weber reported the incident highlighted the current

communications gaps between systems in the region and the need for implementation of proposed solutions sooner rather than later. Operations Lead Lt. Weber further reported, on April 23, 2024, the Authority staff facilitated a meeting between LAPD communications managers and LASD communications managers, and the meeting was productive and should lead to communications between the departments.

Operations Lead Lt. Weber reported two (2) Ad-Hoc meetings were held in April 2024, and Authority staff continued to collect Interoperability requests forms.

Operations Lead Lt. Weber shared the Authority staff conducted outreach and coordination with the Rancho Palos Verdes Estates Police Department, City of Rancho Palos Verdes, California State, Long Beach Police Department and the University of California, Los Angeles Police Department and additional outreach and coordination was conducted with USFS, California State University, Dominguez Hills Police Department, and the Cerritos College Police Department, as they evaluate their needs and the possibility of moving to the LA-RICS system.

Operations Lead Lt. Weber further shared the Authority staff worked closely with these Agencies to ensure their needs were met and maintained close contact with state and federal partners to ensure Interoperability in major events.

Operations Lead Lt. Weber stated, regarding security, there were ongoing conversations with LASD to continually evaluate security of the LA-RICS sites and discuss security process improvements.

Executive Director Edson further stated LA-RICS received a great response from Deputy Chief McMahon from LAPD, who dedicated a captain to LA-RICS' Ad-Hoc working group, and LA-RICS was in a good place to have intimate discussions with LAPD on getting interconnectivity with LAPD now while in parallel work with them to ensure long-term connectivity once they complete deployment of their system in about 2 years. Executive Director was asked about LAFD, LA-RICS was pending an update at the next UASI meeting. Executive Director Edson shared LA-RICS believed they were in the process of changing or upgrading their system, and it would be connected to the new LAPD system, therefore, once LA-RICS has connection with the LAPD once they have completed their system 2 years from now, City of Los Angeles Fire Department would be included in that connection. Executive Director Edson mentioned LA-RICS hopes to receive clarification or an update in the May 2024 UASI meeting.

This concluded the update on Agenda Item G. There was no further discussion.

H. STATEMENT OF RECEIPTS & DISBURSEMENTS FOR AT&T BUSINESS AGREEMENT FUND FOR PUBLIC SAFETY BROADBAND NETWORK (PBSN)

Executive Director Edson presented Agenda Item H, providing the Board with a quarterly update on the expenditures recorded to the AT&T Business Agreement funds for period ending March 31, 2024. Executive Director Edson stated the report was received from the County of Los Angeles Auditor Controller on April 11, 2024, and shared with the Board, as promised, when LA-RICS entered into the AT&T Business Agreement.

Executive Director Edson reminded new Board Members the broadband system which was built years ago on Band 14 and AT&T ultimately received the contract to manage Band 14 via the National PSBN. Executive Director Edson expressed AT&T provided funding to keep LA-RICS sites, and therefore, this was the remaining funding from that business agreement.

I. QUARTERLY REPORT GOVERNMENTAL SERVICES USES

Executive Director Edson presented Agenda Item “I”, which provided the Board with a quarterly report on uses of the Board’s prior delegation to enlist assistance from the County of Los Angeles and other governmental agencies to perform various services needed at LMR sites that the vendor, MSI, declined to perform.

Executive Director Edson stated this quarterly report captured expenses incurred through March 31, 2024, totaling two hundred ninety-three thousand eight hundred and fifty-five dollars (\$293,855), for services provided by ISD for work which included rental of roll up generator, refueling of generator, etc.

Chief Edson further stated staff would be back before the Board in June 2024 to supplement the delegated authority for other services LA-RICS anticipated during the remainder of the warranty period.

J. FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS REORT FOR THE FISCAL YEAR ENDING JUNE 30, 2023 – BCA Watson Rice LLP

Helen Chu introduced herself as an assurance partner with auditing firm, BCA Watson Rice, LLP, as well as an engagement partner who conducted the financial single audit of LA-RICS for fiscal year ending June 30, 2023, and would be presenting the results of the audit.

Ms. Helen Chu stated the responsibilities of the management of the Authority and the auditors in which the Authority was responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States. Ms. Helen Chu further stated it is the management of the Authority’s responsibility to stay within compliance of the Office of Management and Budget (OMB) for the Authority’s federal programs.

Ms. Helen Chu reported BCA Watson Rice LLP's responsibilities as auditors were to obtain reasonable assurance, not absolute, on whether LA-RICS' financial statements as a whole were fairly stated. Ms. Helen Chu further reported on the results of the financial statements of their audit and issued an unmodified (clean opinion) on LA-RICS' financial statements. Ms. Helen Chu stated no deficiencies or material weaknesses were identified in their audits and that LA-RICS was within compliance with each federal program as the Authority complied with the OMB compliance supplement. Ms. Helen Chu also shared financial highlights and that no audit adjustments or correction of statements occurred. Ms. Helen Chu went on to share there was no disagreement with management nor were auditors aware of any complications management had with other accountants regarding accounting or auditing matters. Ms. Helen Chu reported no significant issues were discussed with management nor were there any difficulties encountered in performing the audit. Ms. Helen Chu further reported they obtained certain representation from management that is included in the Management Representation Letter, stating that management had disclosed and provided all information requested during the audit. Ms. Helen Chu stated during the course of the audit sometimes the auditors issue a separate management letter for any processes that require improvements, or internal controls that are recommended however in this case, there was no management letter comments.

Alternate Board Member Yanagi confirmed Receipt and Filing of the auditor's report, thanked auditors and staff for a job well done.

This concluded the update on Agenda Item J. There was no further discussion.

VIII. ADMINISTRATIVE MATTERS (K – N)

K. ACCEPT 2023 URBAN AREAS SECURITY INITIATIVE (UASI) FUNDS

Executive Director Edson presented Agenda Item "K", requesting the Board's approval to accept three point three million dollars (\$3.3M) in grant funds from the UASI 2023 grant award, which was distributed through CalOES, and would authorize the Executive Director to execute the enclosed UASI 2023 Sub-recipient Agreement between the City of Los Angeles and LA-RICS and delegate authority to the Executive Director to execute any subsequent amendments that do not change the grant award.

Executive Director Edson reported the UASI voted to award fifteen million dollars (\$15M) to LA-RICS over the course of three (3) grant years (UASI 22,23, and 24) and given LA-RICS Final System Acceptance was accepted in late 2023, the funds were needed sooner rather than later. Executive Director Edson further reported because of assistance from LACoFD and LASD, LA-RICS was able to swap workbooks, allowing LA-RICS to receive approximately eleven point seven million

dollars (\$11.7M) in UASI 22 and the remaining three point three million dollars (\$3.3M) in the UASI 23 award.

Alternate Board Chair Yanagi asked for a motion to approve. Alternate Board Member Cardell Hurt motioned first, seconded by Board Member Joshua Nelson.

Ayes (8): Nelson, Povero, Nigg, Berkuta, Yanagi, Rifenberg, Hurt, Capelle

MOTION APPROVED.

L. DELEGATE AUTHORITY TO THE EXECUTIVE DIRECTOR TO ENTER INTO NEGOTIATIONS FOR A SOLE SOURCE AGREEMENT WITH DPS TELECOM FOR A SECURITY ALARMNG AND SURVEILLANCE SYSTEM FOR ALL LAND MOBILE RADIO (LMR) SYSTEM SITES

Executive Director Edson presented Agenda Item “L”, requesting the Board to provide the Executive Director with authorization to enter into sole source negotiations with DPS Telecom for a security system for LMR system sites to ensure these sites were properly secured.

Executive Director Edson reported the LMR System was comprised of several sites located throughout the County with certain sites located in remote areas and at present, the sites were monitored strictly from an alarming perspective contained within the Site Monitoring and Management System (SMMS) made up from the DPS Telecom company, which formed part of the LMR System network infrastructure.

Executive Director Edson further reported the DPS Telecom equipment currently installed at the LMR sites allowed for the expansion of the SMMS to include a security system by leveraging the existing DPS software and hardware infrastructure. Executive Director Edson went on to say expanding the SMMS to include the dedicated video surveillance and remote access by way of proxy card readers, electronically operated door handles, door sensors, and motion sensors was far more cost effective, as opposed to purchasing an entirely new security alarming and surveillance system which would require the purchase of new equipment and extensive integration into the existing framework of the LMR Systems’ current SMMS.

Executive Director Edson stated it was for these reasons mentioned that he was seeking the Board’s approval to commence negotiations with DPS Telecom for a proposed Security System agreement.

Executive Director Edson further stated the SMMS was already in place by DPS for door alarming and now LA-RICS seeks to add cameras and door locks – all of which

are DPS' equipment - as it would be more cost effective to achieve this through sole source.

Alternate Board Member Luke inquired as to who was monitoring the system. Executive Director Edson responded by stating the system was being monitored by the Network Operations Center (NOC) and the LASD communication center. Executive Director Edson further stated MSI notifies LASD communication center. Alternate Board Member Luke asked if this project was a result of recent site security issues to which Director Edson responded this project had been planned for quite some time however the funding was not yet available.

Alternate-Chair Yanagi asked for a motion to approve. Board Member Povero motioned first, seconded by Alternate Board Member Hurt.

Ayes (9): Nelson, Povero, Berkuta, Yanagi, Rifenberg, Hurt, Nigg, Capelle

MOTION APPROVED.

M. REQUEST TO ADD TO THE EXECUTIVE DIRECTOR'S EXISTING DELEGATED AUTHORITY ON AGREEMENT NO. LA-RICS 007 FOR LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM LAND MOBILE RADIO SYSTEM

Executive Director Edson presented Agenda Item M, requesting the Board's approval to add to his existing delegated authority under the LMR Agreement to issue Proceed Orders for an aggregate not-to-exceed amount of seventy-eight thousand and eight hundred dollars (\$78, 800) for changes in work when time precluded following the standard change order process to have MSI perform work on the LMR System.

The current process to review and approve Change Orders, followed by execution of an Amendment, does not allow for immediate work to be performed under critical and time sensitive conditions. Executive Director Edson shared, in contrast, Section 2.3.5 (Proceed Order) of the LMR Agreement allows the Board or its representatives to issue Proceed Orders when it was the Authority's best interest to do so, and when there was insufficient time to process a Change Order and Amendment. Executive Director Edson further shared such Proceed Orders may be comprised of HVAC repairs, FSS repairs, Automatic Transfer Switch repairs, miscellaneous electric or shelter repairs, etc.

Executive Director Edson expressed if the Agenda Item was Board approved, that he would report back to the Board on a quarterly basis regarding any Proceed Orders issued and associated costs and balance to the approved aggregate not-to-exceed amount. Executive Director Edson further expressed any Proceed Order

work anticipated beyond seventy-eight thousand and eight hundred dollars \$78,800 would be reported to the Board as well.

Executive Director Edson reported there was no fiscal impact at the time and if approved, any Proceed Order work will not exceed \$78,800, which would be funded by the UASI 2022 grant or the California State Budget Act fund of 2022.

Alternate Chair Yanagi asked for a motion to approve. Nigg motioned first, seconded by Alternate Chair Yanagi.

Ayes (8): Nigg, Povero, Nelson, Berkuta, Yanagi, Rifenburg, Hurt, Capelle

MOTION APPROVED.

N. APPROVE AMENDMENT NO. 121 TO LA-RICS 007 NO. LA-RICS 007 FOR LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM LAND MOBILE RADIO SYSTEM

Executive Director Edson presented Agenda Item N, requesting the Board's approval to Execute Amendment No. 121 with Motorola Solutions to include six (6) Change Orders for work related to Transient Voltage Suppression Systems (TVSS) replacement work; Fire Suppression System (FSS) inspection work; and Heating, Ventilation, and Air Conditioning (HVAC) system preventative maintenance work at various sites for a cost increase in the amount of nine thousand six hundred and thirty seven dollars (\$9,637).

Executive Director Edson reported these Change Orders are needed to ensure LMR sites remained functional, annual, and semi-annual fire related inspections were performed to ensure compliance with fire codes, and to ensure HVAC bi-annual services were performed to remain in compliance.

Executive Director Edson requested the Board make California Environmental Quality Act findings set forth in the Board Letter in connection with the recommended actions.

In addition, Executive Director Edson requested the Board to provide delegated authority to Executive Director Edson to execute Amendment No. 121, in substantially similar form to the enclosed Amendment, and issue one or more Notices to Proceed (NTP) for this work. Funding will be from UASI or California State Budget Act of 2022 funds.

Alternate-Chair Yanagi asked for a motion to approve. Alternate Board Member Hurt motioned first, seconded by Alternate Board Member Berkuta.

**BOARD OF DIRECTORS REGULAR MEETING MINUTES
LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM**

Ayes (8): Hurt, Berkuta, Nelson, Povero, Yanagi, Rifenburg, Capelle, Nigg

MOTION APPROVED.

IX. ADMINISTRATIVE MATTERS – NONE

X. MISCELLANEOUS – NONE

XI. ITEMS FOR FUTURE DISCUSSION AND/OR ACTION BY THE BOARD –

AGENDA ITEM C

GENERAL UPDATES

Operations/Governance

- LA-RICS Operations holds regular meetings to focus on the following:
 1. Manage network migration for onboarding new entities as well as third party colocation requests
 2. Develop and implement policies as determined by the operations contributors
 3. Discuss network incident trends and maintenance needs
 4. Permit compliance
 5. Asset management
 6. Site access road maintenance and repairs
 7. Procurement of services for maintenance and construction

LMR UPDATES

Site/Civil

- BUR1 and GRM are still running on diesel generators.
 - GRM – LADWP has determined that the existing pole is not structurally sound and needs to be replaced. Additionally, LA-RICS has reached out to the Mayor's office for assistance in resolving the issue of whether LADWP will go under LA-RICS' Right of Entry (ROE) or obtain their own ROE. The next meeting with LADWP is scheduled for May 31, 2024.
 - BUR1 – LA-RICS sent a proposed timeline to SCE, and SCE confirmed their timeline works with LA-RICS' timeline. In addition, SCE has agreed to implement into the design consideration for LA-RICS' CEQA EIR boundary. This is to be accomplished by trenching to the nearby existing transformer saving LA-RICS the cost of a new transformer. The project will be complete at the end of December 2024 as previously forecasted.
- Brandow & Johnston Engineers is finishing the design package for the generator replacement and additional ATS unit at MCI. LACoFD has submitted a Purchase Requisition for a Purchase Order to be issued by ISD. The bid process for installation will begin in October 2024 or sooner if the delivery time for the generators improves.
- Tower demolition at TWR was completed on March 28, 2024. A mandatory bid walk occurred on May 21, 2024. An IFB has been issued for tower demolition at CPK which will be complete by the 4th Quarter of 2025.
- On April 25, 2024, a felony burglary-theft occurred at BHS. The site was restored by ISD technicians by the end of the day on April 26, 2024. In response to this incident, several policies and procedures have been updated: 1) Door alarms have been elevated to P1 status, 2) Site keys have been moved from lock boxes to a less conspicuous location, 3) BHS was rekeyed and other critical sites will be rekeyed, 4) Temporary cameras have been installed at BHS.

Warranty Services / Maintenance Oversight

- MSI presented a schedule to conduct fuel polishing at 34 sites, and they were able to cover 33 of 34 with the exception of the WMP site because the road is inaccessible.
- **Routine Maintenance Activities scheduled in May 2024:** Fuel Polishing, Fire Suppression, DC Power, RF Annual PM, Cummins Generator PM, HVAC, Pest Control, Generator Refueling
- MSI is working this month to remediate the list of LA-RICS supplied punch items for the water intrusion corrections that were done in 2023.
- Cracks in the tower foundation were discovered at MML, and a full report was conducted by a third-party vendor. Remediations are currently underway.

LMR System Maintenance Plan

- MSI formally submitted their proposed LMR System Maintenance Plan which will cover the Authority's requirement of fifteen (15) years of maintenance services as required by the LMR Agreement. The Authority will approve each year of the warranty plan through a unilateral option as permitted by the LMR Agreement.
- The Authority and MSI have met multiple times during the months of April and May to negotiate details of this plan and confirm it meets LMR Agreement requirements.

OUTREACH UPDATE

The purpose of this discussion item is to update your Board on the status of outreach activities pertaining to the LA-RICS Land Mobile Radio (LMR) project. The below meetings occurred since our last report to you:

MUNICIPALITY	MEETING DATE
LA-RICS Board of Directors Meeting	05/02/24
Paramedic Radio System Meeting	05/09/24
LA-RICS Joint Operations and Technical Ad Hoc Committees	05/09/24
Monthly LA-RICS/MOPS/Cal OES/FEMA Conference	05/14/24
International Association of Chiefs of Police (IACP) Information Technology Conference	May 19 – 22, 2024
LA-RICS Joint Operations and Technical Committee Meeting	05/21/24
MTA Outreach and Coordination	05/22/24
Inland Interoperability Meeting	05/22/24
LA-RICS Joint Operations and Technical Ad Hoc Committees (In-Person SOP Review)	05/24/24
LA-RICS Finance Committee Meeting	05/23/24
Topanga State Park Outreach	05/30/24

AGENDA ITEM G

The Executive Director attended several association meetings related to technology, communications, and public safety.

During the month of May the Authority staff continued with our Subscriber and Affiliate outreach efforts. We are also coordinating and moving forward with the affiliate radio ID effort with the Interagency Communications Interoperability (ICI) system. Authority staff is working closely with the Sheriff's Department's Communications and Fleet Management Bureau (CFMB) regarding overall regional interoperability.

The Authority Staff facilitated and attended several interoperability meetings in the month of May. Our Ad-Hoc Committee meetings are progressing well, and we should have the first draft of a regional interoperability standard operating procedure very soon. Authority staff continued our coordination between the City of Los Angeles Police Department (LAPD) communications managers and the County Los Angeles Sheriff's Department (LASD) Communications Managers. These efforts have been productive as we move toward our interoperability goals. The Authority Staff attended the Inland Interoperability group meeting on May 22, 2024. The meeting discussed and highlighted the need for communications planning for the coming World Cup Soccer Games. The Authority staff has also been coordinating with officials from the Metropolitan Transportation Authority regarding their new command center that will be critical during the World Cup Soccer Games and the 2028 Olympics.

We are continuing to collect interoperability requests via the forms that were sent out last year. At this point we have twenty-eight (28) agencies requesting interoperability with the Sheriff's Department. Seventeen (17) agencies have indicated that they have programed the regional interoperability talk groups. We will continue to work with our partners to further this effort. We are pleased to announce that the Monterey Park Police Department has successfully programed the regional channels and shared radio ID's. This will allow coordination on local LASD Station Talkgroups for emergencies and on a day-to-day basis.

Authority Staff continued our coordination with Palos Verdes Estates Police Department, the City of Claremont Police Department, and the UCLA Police Department. Authority staff will work closely with these agencies to ensure their needs are met.

Authority staff members have continued close contact with our State and Federal partners to ensure interoperability during major events and to continue collaboration on regional public safety communication.

SCOTT EDSON
EXECUTIVE DIRECTOR

June 6, 2024

Board of Directors
Los Angeles Regional Interoperable Communications System ("LA-RICS") Authority
(the "Authority")

Dear Directors:

ADOPTION OF REVISED FUNDING PLAN

SUBJECT

Staff is requesting your Board adopt the enclosed Revised Funding Plan which replaces the current formula for the funding of the LA-RICS Land Mobile Radio System's operations and maintenance with a grant and subscriber revenue offset model. The Authority's Finance Committee has reviewed the Revised Funding Plan and recommends adoption.

RECOMMENDATION

1. Review and discuss the attached draft Revised Funding Plan;
2. Adopt the draft Revised Funding Plan; and
3. Delegate authority to the Executive Director, or his designee, to notify Authority Members pursuant to Section 5.01 (Adoption of Funding Plan) of the LA-RICS Joint Powers Agreement, of adoption of the Revised Funding Plan, and provide a copy of the same by no later than June 11, 2024.

BACKGROUND

Per the LA-RICS' Joint Powers Agreement ("Agreement"), the Authority was required to develop and adopt a Funding Plan before it committed resources to constructing the LMR System. The LA-RICS Joint Powers Agreement Section 2.05(b)(2) notes that it is the responsibility of the Board of Directors to "develop and implement a funding plan (the 'Funding Plan') for the construction and ongoing operation of a shared voice and data

system.” Section 5.01 Adoption of Funding Plan, provides additional clarity for this responsibility:

It is a critical goal of the Authority to develop a Funding Plan that identifies funding sources and mechanisms, including a development schedule and phasing plan, which will permit the maximum feasible participation by Members. The Funding Plan shall be descriptive as to the contributions required from Members.

Prior to committing resources for the construction of the System, a proposed Funding Plan as designated in Section 2.05(b)(2) shall be developed.

The LA-RICS Board adopted the current Funding Plan on May 28, 2014. The Adopted Funding Plan was intended to apply during construction, implementation and deployment of the LMR System, with certain unknown cost factors such as Operations and Maintenance and other system upgrades requiring a revision to the Adopted Funding Plan at a later date. Now that the LMR system has been implemented and is entering the operations and maintenance phase, the existing Funding Plan should be revised to account for the proposed subscription rate per device as well as grant and other revenue sources. This subscription rate per device model establishes a current subscription rate of \$20 per device on the LMR System network for Subscribers. "Subscribers" are those agencies who desire to utilize the LMR System for their primary radio communications, while "Affiliates" desire to utilize the LMR System only for mutual or automatic aid and will not be charged.

LA-RICS included in its Agreement with Motorola, Solutions, Inc. (Agreement No. LA-RICS 007) an option Term for LMR System Maintenance and Warranty for certain O&M work. Additionally, LA-RICS received delegated authority to enter into sole-source negotiations with Motorola Solutions for a System Upgrade Agreement (SUA) on February 1, 2024, costs that were unknown and not included in the current Adopted Funding Plan from 2014.

Estimated costs for maintaining the LA-RICS communications sites and facilities have been obtained and the LA-RICS organization, its project team, subject matter experts and support staff have reviewed to adjust and align those services along with the Authority administration, technical and operations costs with the O&M phase of the project. With negotiations on these costs progressing and with the LA-RICS Board's approval of the User Agreement, we are able to present a draft Revised Funding Plan for your review and consideration.

If a Revised Funding Plan is adopted by your Board, the joint powers authority agreement does provide for an additional withdrawal period for member agencies if there is an increase in financial obligations:

If the Funding Plan is revised in a manner which will substantially increase the financial obligations of the Members, then any Member so affected will have a further right to withdraw within a period designated by the Board, which shall be not less than 45 days after the adoption of the Revised Funding Plan. There will be no costs for any Member that withdraws from the Authority within this time period, except for obligations incurred prior to the adoption of the Revised Funding Plan.

The Authority staff does not believe the draft Revised Funding Plan substantially increases the financial obligations of its Members because it sets the rate at \$20 per Subscriber device.

FISCAL IMPACT / FINANCING

Year 1 of the LMR System's Operations and Maintenance is scheduled to commence upon conclusion of the one-year warranty period in November of 2024. Costs associated with the first year of maintenance will be offset by subscriber and grant revenue, as proposed in the Revised Funding Plan. Fiscal Year 2024-2025 Budget will include applicable O&M costs in its Operating Budget and brought before your Board for approval.

FACTS AND PROVISIONS / LEGAL REQUIREMENTS

The Authority's Finance Committee met on May 29, 2024 and unanimously recommended adoption of the Revised Funding Plan. The Authority's counsel has reviewed the recommended actions and approved as to form.

Respectfully submitted,

SCOTT EDSON
EXECUTIVE DIRECTOR

Executive Summary

The Land Mobile Radio System ("LMR System") of the Los Angeles Regional Interoperable Communication System Authority ("Authority") is a modern, integrated wireless voice communication system designed to serve law enforcement, fire service, and health service professionals throughout Los Angeles County. The Authority is a California joint powers authority with 24 Member agencies including the County of Los Angeles, 21 cities, one school district, and the University of California, Los Angeles (each, a "Member").

Per the Joint Powers Agreement ("Agreement"), the Authority was required to develop and adopt a Funding Plan before it committed resources to constructing the LMR System (Ref. Art. V, Sec. 5.01 of Appendix 1). The LA-RICS Board adopted the Funding Plan on May 28, 2014 (hereinafter, "Adopted Funding Plan") (Appendix 2) and permitted an extended 180-day opt-out period for Members as approved by the LA-RICS Board (Appendix 3). The Adopted Funding Plan was intended to apply during deployment of the LMR System, with certain unknown cost factors such as Operations and Maintenance and other system upgrades requiring a revision to the Adopted Funding Plan at a later date.

While the LMR System was built substantially with federal grant and California state funds, the Adopted Funding Plan required Members to provide the revenue source for certain administrative costs not covered by grants as well as the operations and maintenance (O&M) and capital costs with apportionment of costs based on 50% population and 50% geography of each member agency. Further, these costs would change for each Member if another opted out of LA-RICS. Despite member concern regarding a variable fee and strong preference for a fixed fee that is not tied to the number of Members in LA-RICS, the LA-RICS Board adopted the Funding Plan which then started the Member opt-out period. Given concerns of a variable rate lacking predictability, many agencies opted out of LA-RICS.

To mitigate Member, opt-outs, the County of Los Angeles provided revenue required to sustain 100% of "Member Costs" from 2014 – 2018. This contribution was identified as a loan in each of LA-RICS' annual Adopted Operating Budgets and audits. The goal was to ensure Member participation through the LMR System deployment while allowing agencies time to fully realize their existent capital investment in their respective communication systems.

The LMR System completed deployment and was accepted on November 17, 2023. With the network having been completed and draft costs for its ongoing O&M identified, a revision to the Adopted Funding Plan is now appropriate.

Draft costs for ongoing operations and maintenance of the LMR System have been obtained and, upon LA-RICS Board approval, execution of corresponding agreements are planned for 2024. With the LMR System accepted, the process of onboarding users began with User Agreements for Subscribers and Affiliates that were finalized and adopted by the LA-RICS Board on December 7, 2023, and January 4, 2024, respectively, (Appendices 4 & 5) establishing a subscription rate for each device on the LMR System network. Per these User Agreements, "Subscribers" are those

agencies who desire to utilize the LMR System for their primary radio communications, while "Affiliates" desire to utilize the LMR System only for mutual or automatic aid.

DRAFT

Introduction

The Land Mobile Radio System ("LMR System") of Los Angeles Regional Interoperable Communication System Authority ("Authority") is a modern, integrated wireless voice system designed to serve law enforcement, fire service, and health service professionals throughout Los Angeles County. The Authority is a California joint powers authority with 24 Members including the County of Los Angeles, 21 cities, one school district, and the University of California, Los Angeles.

System Description

Description of the LMR System

The LMR System is an integrated, regional, public safety wireless communications system operating primarily on UHF T-Band and 700 MHz channels. This Association of Public Safety Communications Officials (APCO) Project 25 Phase II capable wireless communications system will provide public safety first responders with mission critical voice and data communications supporting day-to-day operable communications, mutual aid, and regional interoperability. It will provide immediate and coordinated assistance in times of emergency, minimizing loss of life and property within the greater Los Angeles Region.

Furthermore, the LMR System will provide enhanced communications through the following Subsystems:

- **Digital Trunked Voice Radio Subsystem (DTVRS):** This DTVRS subsystem is considered the primary subsystem. It incorporates Project 25 Phase II equipment operating a voice communications network on both UHF "T-Band" and 700 MHz channels. Intra-subsystem communications between users on the two frequency bands is transparent.
- **Analog Conventional Voice Radio Subsystem (ACVRS):** The ACVRS subsystem uses narrow-band analog UHF channels and interfaces with the DTVRS subsystem. ACVRS consists of 35 Los Angeles County Fire Department (LACoFD) channels that have been deployed regionally to support operational service areas in Los Angeles County. There are an additional six ACVRS channels managed by Los Angeles County Sheriff's Department for law enforcement operations.
- **Narrowband Mobile Data Network (NMDN):** The NMDN Subsystem is available to all member agencies. This subsystem's data network operates on the UHF channels and provides reliable Computer-Aided Dispatch (CAD) connectivity.
- **Los Angeles Regional Tactical Communications Subsystem (LARTCS):** The LARTCS Subsystem supports public safety operations on VHF Low-Band, VHF High-Band, UHF and 800 MHz. This subsystem provides DTVRS and ACVRS users interoperability with legacy public safety systems users that would not normally operate on LA-RICS' primary subsystems.
- **Microwave Network:** The LA-RICS microwave network provides the necessary connectivity to support all voice and data subsystems and all system alarm monitoring functions. The

microwave backhaul is designed with high-speed connectivity in a ring configuration to allow fast rerouting when a link is out of order, thus avoiding operational impact on the LMR subsystems.

Where possible, the LARTCS Subsystem radio system attempts to logically share common infrastructure components.

System Capabilities and Advantages

The LMR System will facilitate and support Authority stakeholders' day-to-day public safety voice and low-speed data communications needs, providing instantaneous mutual aid in the event of a man-made or natural disaster. As such, the LMR System provides communications surge capability and resiliency. It provides generous allowances for disaster recovery and future system growth.

Funding

The LMR System provides day-to-day communications within agencies and allows seamless interagency communications for responding to routine, emergency, and catastrophic events. Although a significant portion of the LMR System deployments costs were covered through Federal grant and California state funding, non-grant-funded O&M costs needed to be distributed among its Members and users. The County of Los Angeles provided a loan to cover Member costs from 2014 – 2018, with an Asset Transfer Agreement assigning the LA-RICS Public Safety Broadband Network to FirstNet/AT&T via a federally-approved Agreement with a corresponding Business Agreement providing the revenue required to operate the LA-RICS JPA from 2018 through present day (Appendix 6). The revenue from the AT&T Business Agreement is expected to be fully expended by the end of 2024.

During the development of the initial LA-RICS Funding Plan, there were various methods for cost apportionment considered. The Authority received feedback on the methods via Member outreach efforts and stakeholder workshops. The feedback indicated a strong preference for a fixed rate based on usage vs. other variable cost factors. There was a strong concern voiced by Members that, for every member that chooses not to participate, the withdrawing Member's annual share of the cost would be apportioned to the remaining Members. This was perceived as a resulting significant risk to Members that choose to remain in the Authority. Consequently, a large number of the Members chose to opt-out of the Authority. To move the effort forward, the County offered bridge financing as a "loan" until User revenues could be collected. Additionally, the successful negotiation of the agreement to transfer of PSBN assets to FirstNet/AT&T allowed revenue generated from the agreement to cover 100% of Member obligations from 2018 – 2024. With completion of the LMR System, revisions to the Adopted Funding Plan are needed that will address the concerns expressed by Members at the Funding Plan's original adoption in 2014.

Section 1. Revised Funding Plan Overview

Requirements

The LA-RICS Joint Powers Agreement Section 2.05(b)(2) notes that it is the responsibility of the Board of Directors to “develop and implement a funding plan (the ‘Funding Plan’) for the construction and ongoing operation of a shared voice and data system.” Section 5.01 Adoption of Funding Plan, provides additional clarity for this responsibility:

It is a critical goal of the Authority to develop a Funding Plan that identifies funding sources and mechanisms, including a development schedule and phasing plan, which will permit the maximum feasible participation by Members. The Funding Plan shall be descriptive as to the contributions required from Members.

Prior to committing resources for the construction of the System, a proposed Funding Plan as designated in Section 2.05(b)(2) shall be developed.

Adoption of the Funding Plan on May 28, 2014, satisfied this requirement of the JPA. However, now that the LMR system has been implemented and is entering the operations and maintenance phase, the following language applies:

After the Funding Plan has been adopted, and until contracts are awarded to design and/or construct the System, if the Funding Plan is revised in a manner which will substantially increase the financial obligations of the Members, then any Member so affected will have a further right to withdraw within a period designated by the Board, which shall be not less than 45 days after the adoption of the Revised Funding Plan. There will be no costs for any Member that withdraws from the Authority within this time period, except for obligations incurred prior to the adoption of the Revised Funding Plan.

LA-RICS included in its Agreement with Motorola, Solutions, Inc. (Agreement No. LA-RICS 007) an option Term for LMR System Maintenance and Warranty (Appendix 9) for certain O&M work. Additionally, LA-RICS received delegated authority to enter into sole-source negotiations with Motorola Solutions for a System Upgrade Agreement (SUA) on February 1, 2024, costs that were unknown and excluded in the current Adopted Funding Plan from 2014.

Estimated costs for maintaining the LA-RICS communications sites and facilities has been obtained from the County’s Internal Services Department and the LA-RICS organization, its project team, subject matter experts and support staff have reviewed to adjust and align those services along with the Authority administration, technical and operations costs with the O&M phase of the project. With negotiations on these costs nearing conclusion, we are able to present a draft revised Funding Plan (hereinafter, "Revised Funding Plan") for your review and consideration.

Revised Funding Plan Components and Goals

To date, the Authority has been the recipient of significant grant funding for the deployment of the LMR System. These grant funds covered a substantial portion of the costs associated with construction of the physical infrastructure that makes up the LMR System. Additionally, LA-RICS is scheduled to receive funding commencing with the Urban Areas Security Initiative 2024 grant totaling one million (\$1,000,000) annually for certain O&M costs. The Revised Funding Plan is responsible for proposing an allocation of the costs not covered by grant funding, including LMR Operations & Maintenance (O&M), an SUA for the LMR System, LMR lifecycle capital replacement, facilities maintenance, and the Authority's Administration (**Section 2** provides more detail about Revised Funding Plan costs).

The methodology for the distribution of ongoing costs among Member agencies and Users is aligned with prior received feedback to have one fixed, competitive cost for each radio on the LMR System. Revision of the Adopted Funding Plan to a subscriber-based model will allow for alignment with costs for agreements supporting the ongoing O&M of the LMR System while providing a higher degree of predictability for Members / users.

The Revised Funding Plan identifies the total costs to operate and maintain the LMR System and proposes funding these costs via monthly fees paid by Subscriber users.

Variable Measurement

In order to mitigate variable measurement of cost factor, the LA-RICS Board-approved User Agreement identifies the cost-trigger as a piece of equipment with transmitting capability operating on the LMR System. The method by which agencies will be billed by device on the LMR System network is detailed in Section 3 of the Subscriber User Agreement (Appendix 4).

Section 2. Cost Allocation Method

This section details the cost allocation methodology for the Revised Funding Plan. The cost allocation simplifies the previously complex formula to pay for the ongoing O&M costs through Subscriber Agreements charging users a per device/equipment cost for transmitting on the LA-RICS LMR System network. Devices, equipment and radios programmed on the LA-RICS "LMR System will trigger billing with quarterly audits ensuring accurate cost allocation. The Revised Funding Plan considers the components of the ongoing O&M of the LMR System to the extent that they are known or can be estimated.

The objective of this section is to 1) detail costs of the ongoing O&M of the LA-RICS LMR System; and 2) highlight certain policy questions in financing the O&M of the LMR System that need to be addressed before a final Revised Funding Plan is submitted for review and approval by the LA-RICS Authority Board of Directors.

Cost Components of LA-RICS Land Mobile Radio System

The projected O&M costs assume execution of agreements for:

1. Maintenance and Warranty Options set forth in Agreement No. 007 with Motorola Solutions, Inc. ("MSI") for certain O&M scope – (Appendix 7 - 15 option years)
2. System Upgrade Agreement (SUA) with Motorola Solutions (Appendix 8 - 6 years)
3. Facilities maintenance services for certain O&M scope (Appendix 9 - term to be determined)
4. LA-RICS Authority Administration and Project Team (Appendix 10 – Adopted via annual operating budget process)

1. Maintenance and Warranty with Motorola Solutions (15 One-year Options)

Components of LMR System cost include MSI-provided system maintenance costs (Phase 5) totaling approximately \$56 million for the 15 one year contract option periods contained in Agreement No. 007 (Appendix 7).¹ The Agreement with MSI provides the maintenance scope of services detailed in the attached Appendix 7.

2. System Upgrade Agreement (SUA) with Motorola Solutions (6 one-year options)

Components of LMR System cost in the current Adopted Funding Plan included an infrastructure component to account for replacement and technological upgrade and/or obsolescence. This infrastructure component, or capital replacement, was called the “Life Cycle Cost.” The Life Cycle Cost estimate was approximately \$55 million as determined by the LA-RICS engineering consultant. The current Adopted Funding Plan took those capital replacement costs and spread them evenly over a 15-year period at approximately \$5 million annually.

MSI now offers a System Upgrade Agreement that provides system software upgrades and replacement of obsolete equipment as needed to keep the LMR System current with and maintain optimal performance. At the time of Agreement No. 007 award and execution with MSI, as well as the adoption of the initial Funding Plan, this type of service agreement was not available and thus the Life Cycle Cost was included in its place. The System Upgrade Agreement provides scope and pricing over six (6) years totaling \$22.5 million, annualized from \$3.6M in year 1 to \$3.9 million in year 6 (Appendix 8). Components of LMR System cost in the Revised Funding Plan include these projected costs pending final contract negotiations.

¹ Please refer to Appendix 7, Exhibit C.6 – Schedule of Payments LMR System Maintenance – LA-RICS LMR Agreement with Motorola. The payments vary from year to year.

3. Facilities Maintenance Agreement

Components of LMR System cost in the Revised Funding Plan include facilities and maintenance costs associated with services that were excluded from the MSI maintenance scope of work as well as excluded from the Adopted Funding Plan. The scope and corresponding cost are estimated at \$6.7 million annually for items that include annual site inspections, generator refueling and maintenance, energy management, road maintenance, shelter maintenance, site weed abatement and pest control, and utilities (Appendix 9).

4. LA-RICS Authority Administration and Technical & Operations Costs

The Adopted Funding Plan included Administrative Costs that were divided into three areas, JPA Operational Cost, LMR Administration and LTE Administration totaling \$2.6 million with annual 2% escalator to account for cost of living / salary increases. Unfortunately, there were no Technical and Operations costs included in the Adopted Funding Plan.

Components of LMR cost in the Revised Funding Plan include an amount for Authority administration, technical and operations branches of the project team. Similar to the Adopted Funding Plan, the Administrative costs include Executive Director and administrative staff over contracts, grants, budget and fiscal operations. The Administrative Costs also include the costs for County Counsel, the County Auditor Controller, services and supplies (S&S), travel and training, LA-RICS insurance and LA-RICS lease cost. LA-RICS administrative costs total approximately \$3.2 million with 2% annual escalation.

Excluded from the Adopted Funding Plan are the Technical and Operations costs which in the Revised Funding Plan include six full-time engineering positions, as-needed tower and line workers, electronic communications technicians, mechanics and seven full-time public safety sworn positions. Additionally, Technical and Operations costs include various licenses required to operate and maintain the system such as cyber security monitoring software, document editing / document sharing licenses, and the license corresponding to the LA-RICS asset management system. Technical and Operations costs as well as Administrative Costs are detailed in Appendix 10.

Table 1

COST COMPONENTS			
Adopted Funding Plan	Cost Component	Annual Cost	Total
LMR System	Operations	\$3,700,000	\$11,100,000
	System Refresh	\$4,800,000	
	Administrative/JPA Operations	\$2,600,000	

Table 2

COST COMPONENTS			
Revised Funding Plan	Cost Component	Annual Cost	Total
LMR System	MSI O&M	\$3,400,000	\$22,000,000
	MSI SUA	\$3,700,000	
	Administrative Costs	\$3,200,000	
	Technical & Operations Costs	\$5,000,000	
	Facilities Maintenance	\$6,700,000	

THE REVISED FUNDING PLAN DOES NOT COVER COSTS OF SUBSCRIBER UNITS

The Adopted Funding Plan and Revised Funding Plan both maintain that Members and Users (either as Affiliates and Subscribers) are still fully responsible for the costs of their LMR Subscriber units including the costs of buying, maintaining, operating and replacing the following:

- Portable radios
- Mobile radios
- Base stations
- Dispatch consoles

Cost Apportionment – Adopted Funding Plan

The Adopted Funding Plan apportioning of costs to the Members was based on the following method and assumptions:

- Joint Powers Authority Administration: Distribution of 40% of Authority staff and operating costs based on Authority Members' proportional share of countywide population and geography equally split 50%/50% (effective FY 2014/2015).
- LMR System Operating Costs:
 - No costs will be allocated or collected for the LMR System from Members until such time as the system is operational (projected FY 2017/18), unless the Authority Board adopts a revised Funding Plan, including to account for any loss or shortage of grant funds.
 - Additionally, the Authority's Board will issue an amendment to the Funding Plan to reflect projected operational and maintenance costs prior to the operation of the LMR System.

- The cost of operation during the first year of operation (projected FY 2017/18) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
- The cost of operation during the second and third years of operation (projected FY 2018/19) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs and the full cost of LMR System maintenance based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
- The cost of operation during the fourth and subsequent years of operation (projected FY 2020/21) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs and the full cost of LMR System maintenance based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - b. LMR System refresh based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.

Cost Apportionment – Revised Funding Plan

The Revised Funding Plan proposes simplification of cost apportionment whereby costs would be offset by revenue collected by Subscriber users of the network. A Subscriber user of the LMR System is not required to be a Member, and conversely a Member is not required to be a Subscriber of the LMR System. Establishing a cost per device transmitting on the LMR System provides the predictability of costs needed to enable broad user participation while eliminating cost variables that could encourage Member opt out.

Mutual Aid Agreement Affiliates

The LA-RICS Board voted to delegate authority to the Executive Director to enter into no-cost Affiliate Agreements with Users of the LA-RICS LMR System as detailed in Appendix 5.

Cash Flow

The Revised Funding Plan identifies revenue from Subscriber users of the LMR System as well as grant funds for the ongoing maintenance of this federally-funded system as the primary fund

source for ongoing O&M costs. The User Agreement approved by the LA-RICS Board identifies the monthly fees per number of active radios and / or radio equipment registered on the LMR System in accordance with Section 1.4 and Exhibit C of the Agreement (Appendix 4).

Section 3. Data Monitoring and True Up Period

The Adopted Funding Plan cost model used population and geography as inputs to derive each member cost shares. Given these variable cost factors the Adopted Funding Plan recommended a True Up period to verify/revise the allocation. The Revised Funding Plan relies on language captured in the LA-RICS Board-adopted User Agreements which provides for billing of Subscriber units when such devices are programmed and using the LMR System network. In addition, periodic audits will be performed to ensure accurate billing.

**Joint Powers Agreement to Establish
The Los Angeles Regional
Interoperable Communications System Authority**

THIS JOINT POWERS AGREEMENT (the “Agreement”) is made as of the Effective Date by and between the public agencies set forth in Exhibit A.

Each public agency executing this Agreement shall be referred to individually as “Member,” with all referred to collectively as “Members.”

RECITALS

Whereas the Members require wide area and interoperable communications, and Members acting independently have limited resources to construct a communications network providing these capabilities; and,

Whereas the Members have determined that working in concert to share radio communications resources is in the public interest, as doing so would provide the most effective and economical radio communications network for all participating public agencies; and,

Whereas the Members agree that the collective goal is to evaluate, establish, and participate in a public safety radio network to meet or enhance current public safety radio communications needs of Members and to provide an architecture capable of expanding to meet future needs; and,

Whereas, the Members have the authority under the Joint Exercise of Powers Act, in California Government Code Section 6500 et. seq., (the “Act”) to enter into this Agreement.

NOW, THEREFORE, in consideration of the recitals and mutual obligations of the Members as herein contained, the Members agree as follows:

Article I - GENERAL PROVISIONS

1.01 Purpose.

This Agreement is to create an agency to exercise the powers shared in common by its Members to engage in regional and cooperative planning and coordination of governmental services to establish a wide-area interoperable public safety communications network (hereinafter referred to as the “Los Angeles Regional Interoperable Communications System”, “LA-RICS”, or the “System”). As part of this

purpose, Members will seek to meet or enhance the current public safety communications needs with a System capable of expanding to meet future needs; develop funding mechanisms; and resolve technical and operational issues in the development and management of the System. Such purposes are to be accomplished and said common power exercised in the manner hereinafter set forth.

1.02 Creation of Authority.

Pursuant to the Act, the Members hereby create a public entity to be known as the “Los Angeles Regional Interoperable Communications System Authority” (hereinafter, the “Authority”). The Authority shall be a public entity separate and apart from the Members who shall administer this Agreement. The jurisdiction of the Authority shall be all territory within the geographic boundaries of the Members; however the Authority may undertake any action outside such geographic boundaries as is necessary and incidental to the accomplishment of its purpose.

1.03 Membership in the Authority.

Participation in the Authority is limited to public agencies, as defined by the Act, in the greater Los Angeles area that have approved and executed this Agreement, and contributed resources of any kind toward the construction and/or on-going operation of the System (including, but not limited to financial, personnel, frequency, equipment, radio site, real estate or other resources), as approved by the Board of Directors.

1.04 Term.

This Agreement shall become effective, and the Authority shall come into existence, when each of the following occurs (the “Effective Date”):

- (a) The Agreement is authorized and executed by the City of Los Angeles and the County of Los Angeles; and
- (b) Forty-five days has elapsed after the authorization and execution of the Agreement by both the City of Los Angeles and County of Los Angeles.

Prior to the Effective Date, public agencies may become Members of the Authority, without Board approval, by adoption and execution of this Agreement. After the Effective Date, membership is subject to approval by the Board as set forth in Section 7.02(a) of this document.

Article II - Board of Directors.**2.01 Composition of the Board**

The Authority shall be administered by a Board of Directors (the "Board") consisting of a minimum of eight (8) Directors and not more than seventeen (17) Directors identified by the following appointing authorities:

1. The City of Los Angeles City Administrative Officer
2. The City of Los Angeles Fire Chief
3. The City of Los Angeles Police Chief
4. The City of Los Angeles Chief Legislative Analyst
5. The County of Los Angeles Chief Executive Officer
6. The County of Los Angeles Fire Chief
7. The Sheriff of Los Angeles County
8. The County of Los Angeles Department of Health Services Director
9. The Los Angeles Unified School District Police Chief
10. The City of Long Beach
11. The Los Angeles Area Fire Chiefs Association
12. The Los Angeles County Police Chiefs Association
13. The California Contract Cities Association
14. At Large
15. At Large
16. At Large
17. At Large

2.02 Appointment of Directors

- (a) Each of the officials listed in 1 through 9 above may appoint one Director and one Alternate Director to the Board when the agency such official represents becomes a Member.
- (b) The City of Long Beach may appoint one Director and one Alternate Director to the Board when the City of Long Beach becomes a Member.
- (c) Each of the Associations listed in 11 and 12 above may appoint one Director and one Alternate Director to the Board when at least one member of their respective Association becomes a Member of the Authority.
- (d) The California Contract Cities Association may appoint one Director and one Alternate Director to the Board when at least one member of the Association becomes a Member of the Authority. In order to participate in the selection process, Association members must also be Members of the Authority.

(e) At Large Directors and Alternate Directors shall be selected by a majority vote of Member cities, other than the Cities of Los Angeles and Long Beach, as follows:

- (1) One At Large Director (and one Alternate Director) must represent a Member city that operates both independent police and fire departments;
- (2) Two At Large Directors (and two Alternates) must represent Member cities that operate an independent police department and/or an independent fire department; and
- (3) One At Large Director (and one Alternate Director) must represent a Member city not otherwise represented on the Board.

(f) Within fifteen (15) days after the Effective Date, eligible Member cities shall endeavor to meet and provide for the selection of the At Large Directors and Alternate Directors, and all other entities shall endeavor to appoint their Directors and Alternates. The logistics for filling the At Large Director and Alternate Director vacancies shall be provided for in the bylaws.

(g) At the time of appointment and for the duration of service, Directors and Alternate Directors shall be employees or officers of Members. All Directors and Alternate Directors shall be non-elected officials, with the sole exception of the Los Angeles County Sheriff.

(h) The term of office of each Director and Alternate Director shall be two years, or until a successor has been appointed. Directors and Alternate Directors may serve an unlimited number of terms.

(i) No Member can hold more than one seat on the Board concurrently, except that the County of Los Angeles and the City of Los Angeles can hold the Board seats designated by the eight individuals listed in items 1 through 8 in Section 2.01.

(j) An Alternate Director may act in their Director's absence and shall exercise all rights and privileges of a Director.

(k) Each Director and each Alternate Director shall serve at the pleasure of the appointing authority and may be removed by the appointing authority at any time without notice.

(l) Notice of any removal or appointment of a Director or Alternate Director shall be provided in writing to the Chair of the Board.

2.03 Purpose of Board.

The general purpose of the Board is to:

- (a) Provide structure for administrative and fiscal oversight;
- (b) Identify and pursue funding sources;
- (c) Set policy;
- (d) Maximize the utilization of available resources; and
- (e) Oversee all Committee activities.

2.04 Specific Responsibilities of the Board.

The specific responsibilities of the Board shall be as follows:

- (a) Identify participating entities needs and requirements;
- (b) Develop and implement a funding plan (the "Funding Plan") for the construction and on-going operation of a shared voice and data system;
- (c) Formulate and adopt the budget prior to the commencement of the fiscal year;
- (d) Hire necessary and sufficient staff and adopt personnel rules and regulations;
- (e) Adopt rules for procuring supplies, equipment and services;
- (f) Adopt rules for the disposal of surplus property;
- (g) Establish committees as necessary to ensure that the interests and concerns of each user agency are represented and to ensure operational, technical and financial issues are thoroughly researched and analyzed;
- (h) Provide for System implementation and monitoring;
- (i) Determine the most appropriate and cost effective maintenance plan for the System;
- (j) Provide for System maintenance;
- (k) Adopt and revise System operating policies and procedures, as well as technical and maintenance requirements;
- (l) Review and adopt recommendations regarding the establishment of System priorities and talk groups;
- (m) Address concerns of all System user agencies;
- (n) Oversee the establishment of long-range plans;

- (o) Conduct and oversee System audits at intervals not to exceed three years;
- (p) Arrange for an annual independent fiscal audit;
- (q) Adopt such bylaws, rules and regulations as are necessary for the purposes hereof; provided that nothing in the bylaws, rules and regulations shall be inconsistent with this Agreement; and
- (r) Discharge other duties as appropriate or required by statute.

2.05 Startup Responsibilities

The Authority shall have the duty to do the following within the specified timeframe or, if no time is specified, within a reasonable time:

- (a) To establish within three (3) months of the Effective Date of this Agreement the Advisory Committees designated in Section 3.07;
- (b) To use its best efforts to develop and adopt within nine (9) months of the Effective Date of this Agreement:
 - (1) A plan specifying a means or formula for determining the timing and sequencing of construction of the System consistent with the functional specifications; and
 - (2) A Funding Plan specifying a means or formula for funding the construction, operation and maintenance of the System; such Funding Plan shall include an allocation of costs among the Members, subscribers, and other funding sources;
- (c) To establish System participation pricing including start-up costs, and ongoing Subscriber/Member unit pricing to cover System operations, technical upgrades, and System replacement reserves;
- (d) To encourage other governmental and quasi-governmental agencies, including but not limited to, the State and Federal government, and special districts, to participate in LA-RICS;
- (e) To establish policies and procedures for the voluntary transfer and/or sharing of assets from Members;
- (f) To retain legal counsel; and
- (g) To evaluate the need for, acquire and maintain necessary insurance.

2.06 Meetings of the Board.

- (a) Regular Meetings. The Board shall provide for its regular meetings provided, however, that at least one regular meeting shall be held quarterly. The date, hour and location of regular meetings shall be fixed by resolution of the Board and a copy of the resolution shall be transmitted to each of the Members.
- (b) Special Meetings. Special meetings of the Board may be called by the Chair or as provided for in the bylaws.
- (c) Call, Notice and Conduct of Meetings. All meetings of the Board, including without limitation, regular, adjourned regular and special meetings, shall be called noticed, held and conducted in accordance with the provisions of the Ralph M. Brown Act (commencing with California Government Code section 54950). As soon as practicable, but no later than the time of posting, the Secretary shall provide notice and the agenda to each Member, Director and Alternate Director.
- (d) First Meeting. The first meeting of the Board shall be no sooner than fifteen (15) days after the Effective Date.

2.07 Minutes.

The Secretary shall cause to be kept minutes of the meetings of the Board and shall, as soon as practicable after each meeting, cause a copy of the minutes to be made available to each Director, the Members and other parties upon request.

2.08 Voting.

All voting power of the Authority shall reside in the Board. Each Director shall have one vote. An Alternate Director may participate and vote in the proceedings of the Board only in the absence of that Alternate's Director. No absentee ballot or proxy shall be permitted.

2.09 Quorum; Required Votes; Approvals.

A majority of the appointed Directors shall constitute a quorum of the Board for the transaction of business except that less than a quorum or the Secretary may adjourn meetings of the Board from time-to-time. The affirmative votes of a majority of the appointed Directors shall be required to take any action by the Board, except, two-thirds vote (or such greater vote as required by state law) of the appointed Directors shall be required to take any action on the following:

- (a) Establish start-up contributions from Members;
- (b) Adopt a Funding Plan;

- (c) Subject to prior approval by the passage of an authorizing ordinance or other legally sufficient action by the affected jurisdiction, levy and collect, or cause to be collected, communication impact fees on new residential, commercial, and industrial development, as authorized by local, state, and federal law;
- (d) Change the designation of Treasurer or Auditor of the Authority;
- (e) Issue bonds or other forms of debt;
- (f) Adopt or amend the bylaws; and
- (g) Subject to prior approval by the passage of an authorizing ordinance or other legally sufficient action by the affected jurisdiction, exercise the power of eminent domain.

Article III - OFFICERS, EMPLOYEES AND ADVISORY COMMITTEES

3.01 Chairperson, Vice-Chairperson and Secretary.

For each fiscal year, the Board shall elect a Chairperson and Vice-Chairperson from among the Directors, and shall appoint a Secretary, who need not be a Director. In the event that the Chairperson, the Vice-Chairperson or Secretary so elected resigns from such office or his/her represented Member ceases to be a Member of the Authority, the resulting vacancy shall be filled at the next regular meeting of the Board held after such vacancy occurs or as soon as practicable thereafter. Succeeding officers shall perform the duties normal to said offices. The Chairperson shall sign all contracts on behalf of the Authority, and shall perform such other duties as may be imposed by the Board. In the absence of the Chairperson, the Vice-Chairperson shall sign contracts and perform all of the Chairperson's duties.

3.02 Treasurer.

The Treasurer and Tax Collector of the County of Los Angeles shall be the Treasurer of the Authority. To the extent permitted by the Act, the Board may change, by resolution, the Treasurer of the Authority.

The Treasurer shall be the depository, shall have custody of the accounts, funds and money of the Authority from whatever source, and shall have the duties and obligations set forth in the Act. For grants awarded to Members or third parties for use with the System, the Treasurer will work with the Member or third party to put in place appropriate fiscal controls to meet the grant requirements.

3.03 Auditor.

The Auditor-Controller of the County of Los Angeles shall be the Auditor of the Authority. To the extent permitted by the Act, the Board may change, by resolution, the Auditor of the Authority.

The Auditor shall perform the functions of auditor for the Authority and shall make or cause an independent annual audit of the accounts and records of the Authority by a certified public accountant, in compliance with the requirements of the Act and generally accepted auditing standards.

3.04 Bonding of Persons Having Access to Property.

Pursuant to the Act, the Board shall designate the public officer or officers or person or persons who have charge of, handle, or have access to any property of the Authority and shall require such public officer or officers or person or persons to file an official bond in an amount to be fixed by the Board.

3.05 Other Employees.

The Board shall have the power by resolution to appoint and employ such other officers, employees, consultants and independent contractors as may be necessary to carry-out the purpose of this Agreement.

3.06 Privileges and Immunities from Liability.

All of the privileges and immunities from liability, exemption from laws, ordinances and rules, all pension, relief, disability, workers' compensation and other benefits which apply to the activities of officers, agents or employees of a public agency when performing their respective functions shall apply to the officers, agents or employees of the Authority to the same degree and extent while engaged in the performance of any of the functions and other duties of such officers, agents or employees under this Agreement. None of the officers, agents or employees directly employed by the Board shall be deemed, by reason of their employment by the Board to be employed by the Members or by reason of their employment by the Board, to be subject to any of the requirements of the Members.

3.07 Advisory Committees.

The Board shall establish the following Advisory committees:

- (a) Operations Committee – The Operations Committee's primary purpose is to review and recommend to the Board operating policies and procedures that will ensure the System resources are used efficiently to meet the needs of all Members.
- (b) Technical Committee – The Technical Committee's primary purpose is to review and recommend to the Board policies and procedures related to System performance, maintenance and other technical issues.

(c) Finance Committee – The Finance Committee’s primary purpose is to review and recommend to the Board:

- (1) The Funding Plan;
- (2) A fiscal year budget; and
- (3) Financial policies and procedures to ensure equitable contributions by Members.

(d) Legislative Committee – The Legislative Committee’s primary purpose is to review and recommend to the Board a plan for securing funding from state and federal governments and to advise the Board on regulatory and legislative matters.

3.08 Membership of Advisory Committees.

Each Director shall appoint one voting member to each Advisory Committee.

3.09 Meetings of Advisory Committees.

All meetings of each Advisory Committee shall be held in accordance with the Ralph M. Brown Act. For the purposes of convening meetings and conducting business, unless otherwise provided in the bylaws, a majority of the members of the committee shall constitute a quorum for the transaction of business, except that less than a quorum or the secretary of each Advisory Committee may adjourn meetings from time-to-time. As soon as practicable, but no later than the time of posting, the Secretary of the Committee shall provide notice and the agenda to each Member, Director and Alternate Director.

3.10 Officers of Advisory Committees.

Unless otherwise determined by the Board, each Advisory Committee shall choose its officers, comprised of a Chairperson, a Vice-Chairperson and a Secretary.

Article IV - POWERS

4.01 General Powers.

The Authority shall have the powers common to the Members and which are necessary or convenient to the accomplishment of the purposes of this Agreement, subject to the restrictions set forth in Section 4.04. As provided in the Act, the Authority shall be a public entity separate from the Members.

4.02 Power to Issue Bonds.

The Authority shall have all of the powers provided in Articles 2 and 4 of Chapter 5, Division 7, Title 1 of the California Government Code, including the power to issue bonds thereunder.

4.03 Specific Powers.

The Authority is hereby authorized, in its own name, to perform all acts necessary for the exercise of the foregoing powers, including but not limited to, any or all of the following:

- (a) To make and enter into contracts, including but not limited to, agreements for the purpose of acquiring real and/or personal property, equipment, employment contracts and professional services agreements;
- (b) To make and enter into contracts with subscribers who desire to utilize the System for their primary radio communications and affiliates who desire to utilize the System only for mutual or automatic aid;
- (c) To acquire, construct, maintain, or operate telecommunications systems or service and to provide the equipment necessary to deliver public services therefrom;
- (d) To acquire, construct, manage, maintain or operate any building, works or improvements;
- (e) To acquire, hold, lease, or dispose of property;
- (f) To employ or engage contractors, agents, or employees;
- (g) To sue and be sued in its own name;
- (h) To apply for, receive and utilize grants and loans from federal, state or local governments or from any other available source in order to pursue the purposes of the Authority;
- (i) To issue bonds and to otherwise incur debts, liabilities and obligations, provided that no such bond, debt, liability or obligation shall constitute a debt, liability or obligation to the individual respective Members;
- (j) To invest any money in the treasury, pursuant to the Act, which is not required for the immediate necessities of the Authority, as the Authority determines is advisable, in the same manner and upon the same conditions as local agencies, pursuant to Section 53601 of the California Government Code; and
- (k) To promulgate, adopt, and enforce any rules and regulations, as may be necessary and proper to implement and effectuate the terms, provisions, and purposes of this Agreement.

4.04 Limitation on Exercise of Powers.

All common powers exercised by the Board shall be exercised in a manner consistent with, and subject to, the restrictions and limitations upon the exercise of such powers as are applicable to the County of Los Angeles, as may be amended from time to time.

4.05 Obligations of Authority.

The debts, liabilities and obligations of the Authority shall not be the debts, liabilities and obligations of the Members. In addition, pursuant to the Act, no Director shall be personally liable on the bonds or subject to any personal liability or accountability by reason of the issuance of bonds.

4.06 Additional Powers to be Exercised.

In addition to those powers common to each of the Members, the Authority shall have those powers that may be conferred upon it by subsequently enacted legislation.

Article V - CONTRIBUTIONS; ACCOUNTS AND REPORTS; FUNDS**5.01 Adoption of Funding Plan.**

It is a critical goal of the Authority to develop a Funding Plan that identifies funding sources and mechanisms, including a development schedule and phasing plan, which will permit the maximum feasible participation by Members. The Funding Plan shall be descriptive as to the contributions required from Members.

Prior to committing resources for the construction of the System, a proposed Funding Plan as designated in Section 2.05(b)(2) shall be developed.

In order for the Funding Plan to be considered by the Members prior to its adoption, the Board shall distribute the proposed Funding Plan to Members pursuant to Section 7.01. The proposed Funding Plan shall be accompanied by a description of the System, and reports and studies to allow Members to determine the System capability, cost, financing and the effects on individual Members. The Board shall also designate a period, which shall be not less than 60 days, during which Members may provide comments to the Board regarding the proposed Funding Plan.

After the comment period has expired, the Board may:

- (a) Adopt the Funding plan as proposed;
- (b) Revise the Funding Plan to address some or all of the Member comments; or
- (c) Reconsider the Funding Plan at a later date.

Notice shall be given to Members pursuant to Section 7.01 within five days of adoption of the Funding Plan. The notice shall include a copy of the adopted Funding Plan. The Board shall also designate a period, which shall be not less than 35 days after the Funding Plan is adopted, during which Members may submit written notice of immediate withdrawal from the Authority. There will be no costs for any Member that withdraws from the Authority within this time period.

After the Funding Plan has been adopted, and until contracts are awarded to design and/or construct the System, if the Funding Plan is revised in a manner which will substantially increase the financial obligations of the Members, then any Member so affected will have a further right to withdraw within a period designated by the Board, which shall be not less than 45 days after the adoption of the Revised Funding Plan. There will be no costs for any Member that withdraws from the Authority within this time period, except for obligations incurred prior to the adoption of the Revised Funding Plan.

5.02 Contributions.

The Members may, in the appropriate circumstance, or when required hereunder:

- (a) Make contributions from their treasuries for the purposes set forth herein;
- (b) Make payments of public funds to defray the cost of such purposes;
- (c) Make advances of public funds for such purposes, such advances to be repaid as provided by written agreement; or
- (d) Use its personnel, equipment or property in lieu of other contributions or advances.

No Member shall be required to adopt any tax, assessment, fee or charge under any circumstances.

5.03 Accounts and Reports.

The Treasurer shall establish and maintain such funds and accounts as may be required by good accounting practice or by any provision of any trust agreement entered into with respect to the proceeds of any bonds issued by the Authority. The books and records of the Authority in the hands of the Treasurer shall be open to inspection at all reasonable times by duly appointed representatives of the Members. The Treasurer, within 180 days after the close of each fiscal year, shall give a complete written report of all financial activities for such fiscal year to the Members.

5.04 Funds.

The Treasurer shall receive, have custody of and/or disburse Authority funds in accordance with the laws applicable to public agencies and generally accepted

accounting practices, and shall make the disbursements required by this Agreement in order to carry out any of the purposes of this Agreement.

5.05 Sharing of Frequencies.

Members holding Federal Communication Commission (FCC) licenses to frequencies (“Licensee(s)”) shall authorize the Authority to share the use of such frequencies and/or radio stations. Such use shall be in accordance with the Code of Federal Regulations, (47 CFR 90.179).

Any authorization for the use of such license shall be made pursuant to a written agreement between the Member and Authority. Revoking such authorization requires Member to provide twelve (12) months advance written notice to the Authority unless otherwise identified in written agreement. Licenses shall remain primary to the Member holding the license. Only the Member is allowed to make any modifications to its license(s) on behalf of the Authority, and the Authority shall pay all associated fees.

5.06 Violations.

Payment of fines and penalties imposed for operational or equipment violations shall be the responsibility of the entity committing the violation. If the entity responsible for a violation is not the FCC Licensee, then the responsible entity shall pay forthwith any fines imposed upon the Licensee, as specified in the bylaws.

5.07 System Components.

The System is comprised of components that include physical plant, infrastructure, frequencies, user equipment, and dispatch center equipment (the “System Components”) as described in this Section 5.07. Members shall retain ownership of System Components that they contribute to construct or operate the System, unless otherwise agreed to in writing. The Authority shall retain ownership of System Components purchased by the Authority, unless otherwise agreed to in writing.

(a) **Physical Plant:** The Physical Plant includes the following: real estate, shelters, environmental controls, antenna support structures, power systems, security systems, and other site structures. The maintenance of the Physical Plant shall be in accordance with the requirements specified by the Authority and is the responsibility of the contributing Member, unless otherwise agreed to in writing.

(b) **Infrastructure:** Infrastructure includes the following: antenna systems, base station repeaters, diagnostic and alarm systems, microwave systems, backhaul systems, control equipment and all other related electronic equipment and software. The Authority is responsible for the operation and maintenance of Infrastructure.

(c) **Frequencies:** Frequencies are radio channels that have been licensed by the FCC in accordance with the Code of Federal Regulations. Licensees shall authorize

the Authority to share the use of such frequencies and/or radio stations subject to a separate frequency sharing agreement.

(d) **User Equipment:** User Equipment includes the following: mobile radios, portable radios, mobile data computers, radio data modems, control stations, and other related equipment. All User Equipment shall meet or exceed the minimum acceptable standards established by the Authority. In the event that any User Equipment is determined to be affecting the proper operation of the overall System as identified by the Authority, such User Equipment shall be immediately removed from service and shall not be returned to service until any deficiencies are resolved to the satisfaction of the Authority. The Authority shall maintain a list of User Equipment approved for operation on the System. Any changes to the User Equipment list shall be approved by the Authority. Such approval shall not be unreasonably withheld.

(e) **Dispatch Center Equipment:** Dispatch Center Equipment includes the following: dispatch consoles, logging recorders, system interfaces, and other ancillary equipment. The Authority shall maintain a list of Dispatch Center Equipment approved for operation on the System. Any changes to the Dispatch Center Equipment list shall be approved by the Authority. Such approval shall not be unreasonably withheld.

5.08 Adverse Impacts on System.

No Member, subscriber or affiliate shall take any action that adversely impacts the System. If the System is impacted by actions of a Member, subscriber or affiliate, the offending party shall take immediate action to return the System to its full operating state. The Authority, or its designee as set forth in the bylaws, shall make the sole determination of whether Member, subscriber or affiliate equipment or operations adversely impact the System.

Article VI - WITHDRAWAL AND TERMINATION

6.01 Withdrawal by Members.

After the periods referred to in Section 5.01, Members may withdraw from the Authority by giving notice as follows:

(a) Members who do not provide Infrastructure, Frequencies or Physical Plant to System shall provide to the Chairperson ninety (90) days advanced written notice of its intent to withdraw from the Authority;

(b) Members who provide Infrastructure, Frequencies or Physical Plant to System shall provide to the Chairperson twelve (12) months advanced written notice of its intent to withdraw from the Authority.

6.02 Financial Liabilities of Withdrawing Members.

Except as otherwise provided in Section 5.01:

(a) A withdrawing Member shall remain liable for all financial liabilities incurred during its membership in the Authority; however, the Member shall not be liable for any new financial liabilities incurred after submitting written notice to withdraw.

(b) The withdrawing Member must continue to pay its share of operating costs during the ninety day or twelve month period, as applicable, after submitting its written notice of the intent to withdraw.

(c) The Authority and the withdrawing Member may negotiate a buy-out agreement for early termination of membership to retire any ongoing financial obligations the Member shares with the Authority.

(d) If a withdrawing Member holds a seat on the Board, that Member's participation on the Board shall immediately cease when the written notice to withdraw is submitted.

6.03 Retention of Assets by Withdrawing Members.

Each Member shall hold its licenses and retain sole ownership of its licenses, including those authorized for use by the Member to the Authority. The licenses and any System Components provided by a Member to the Authority shall remain the sole asset of that Member unless otherwise negotiated. If requested by the Authority, the withdrawing Member shall consider options for the Authority's continued use of Member assets. Acceptance of any option is at the sole discretion of the withdrawing Member. In addition, the use by the Authority of the withdrawing Member's System Components shall be terminated upon the effective date of withdrawal (twelve months from initial notice), and such System Components shall remain the sole asset of the withdrawing Member, unless otherwise agreed. Such withdrawing Member shall have no interest or claim in any remaining assets of the Authority, the Board, or of any of the remaining Members.

6.04 Termination of Authority and Disposition of Authority Assets.

Upon termination of this Agreement and dissolution of the Authority by all Members, and after payment of all obligations of the Authority, the Board:

(a) May sell or liquidate Authority property; and

(b) Shall distribute assets, including real or personal property, in proportion to the contributions made by Members.

Any System Components provided by a Member to the Authority shall remain the asset of that Member and shall not be subject to distribution under this section.

Article VII - MISCELLANEOUS PROVISIONS

7.01 Notices.

Any notice required or permitted to be made hereunder shall be in writing and shall be delivered in the manner prescribed herein at the principal place of business of each party. The parties may give notice by:

- (a) Personal delivery;
- (b) E-mail;
- (c) U.S. Mail, first class postage prepaid;
- (d) "Certified" U.S. mail, postage prepaid, return receipt requested;
- (e) Facsimile; or
- (f) Any other method deemed appropriate by the Board.

At any time, by providing written notice to the other parties to this Agreement, any party may change the place, facsimile number or e-mail for giving notice. All written notices or correspondence sent in the described manner will be deemed given to a party on whichever date occurs earliest:

- (a) The date of personal delivery;
- (b) The third business day following deposit in the U.S. mail, when sent by "first class" mail;
- (c) The date on which the party or its agent either signed the return receipt or refused to accept delivery, as noted on the return receipt or other U.S. Postal Service form, when sent by "certified" mail; or
- (d) The date of transmission, when sent by e-mail or facsimile.

7.02 Amendment; Addition of Members.

(a) In addition to the original signatories to this Agreement, other public agencies may join the Authority as a Member, subject to the provisions of Section 1.03. The addition of any Member shall become effective upon:

- (1) The execution on behalf of such entity of a counterpart of this Agreement and the delivery of such executed counterpart to the Board; and
- (2) The adoption of a resolution of the Board admitting that agency to the Authority.

(b) This Agreement may only be amended by two-thirds of the Members, which must include the affirmative votes of the City of Los Angeles and the County of Los Angeles, evidenced by the execution of a written amendment to this Agreement. However, this Agreement shall not be amended, modified or otherwise revised, changed or rescinded, if such action would:

- (1) Materially and adversely affect either the rating of bonds issued by the Authority, or bondholders holding such bonds; or
- (2) Limit or reduce the obligations of the Members to make, in the aggregate, payments which are for the benefit of the owners of the bonds.

7.03 Fiscal Year.

The Authority's 12-month fiscal year shall be specified in the Authority's bylaws.

7.04 Consents and Approvals.

Any consents or approvals required under this Agreement shall not be unreasonably withheld.

7.05 Amendments to Act.

The provisions of the Act, as it may be amended from time to time, which are required to be included in this Agreement, are hereby incorporated into this Agreement by reference.

7.06 Enforcement of Authority.

The Authority is hereby authorized to take any or all legal or equitable actions, including but not limited to injunction and specific performance, necessary or permitted by law to enforce this Agreement.

7.07 Severability.

If any one or more of the terms, provisions, promises, covenants, or conditions of this Agreement were, to any extent, adjudged invalid, unenforceable, void, or voidable for

any reason whatsoever by a court of competent jurisdiction, each and all of the remaining terms, provisions, promises, covenants, and conditions of this Agreement shall not be affected thereby and shall be valid and enforceable to the fullest extent permitted by law.

7.08 Successors.

This Agreement shall be binding upon and shall inure to the benefit of the successors of each Member.

7.09 Assignment.

No Member shall assign any rights or obligations under this Agreement without the prior written consent of the Board.

7.10 Governing Law.

This Agreement is made and to be performed in the County of Los Angeles, State of California, and as such California substantive and procedural law shall apply.

7.11 Headings.

The section headings herein are for convenience only and are not to be construed as modifying or governing the language of this Agreement.

7.12 Counterparts.

This Agreement may be executed in counterparts.

7.13 No Third Party Beneficiaries.

This Agreement and the obligations hereunder are not intended to benefit any party other than the Authority and its Members, except as expressly provided otherwise herein. No entity that is not a signatory to this Agreement shall have any rights or causes of action against any party to this Agreement as a result of that party's performance or non-performance under this Agreement, except as expressly provided otherwise herein.

7.14 Filing of Notice of Agreement.

Within 30 days after the Effective Date, or amendment thereto, the Secretary shall cause to be filed with the Secretary of State the notice of Agreement required by the Act.

7.15 Conflict of Interest Code.

The Board shall adopt a conflict of interest code as required by law.

7.16 Indemnification.

The Authority shall defend, indemnify and hold harmless each Member (and each Member's officers, agents, and employees) from any and all liability, including but not limited to claims, losses, suits, injuries, damages, costs and expenses (including

attorney's fees), arising from or as a result of any acts, errors or omissions of the Authority or its officers, agents or employees.

7.17 Dispute Resolution/Legal Proceedings.

Disputes regarding the interpretation or application of any provision of this Agreement shall, to the extent reasonably feasible, be resolved through good faith negotiations between the Members and/or the Authority.

IN WITNESS WHEREOF, each Member has caused this Agreement to be executed and attested by its proper officers thereunto duly authorized, its official seals to be hereto affixed, as follows:

**City of _____ Authorization
For Membership in the Los Angeles Regional Interoperability
Communications System Authority (LA-RICS)**

IN WITNESS WHEREOF, the City of _____, by order of its City Council, has caused this Joint Powers Agreement to be executed on its behalf by the Mayor, and attested by the City Clerk, as of the date so attested below.

Executive Summary

The Los Angeles Regional Interoperable Communication System (LA-RICS) is a modern, integrated wireless voice and data communication system designed to serve law enforcement, fire service, and health service professionals throughout Los Angeles County. LA-RICS is a joint powers authority (Authority) with 86 Members currently, including the County of Los Angeles, 82 cities, two school districts, and the University of California, Los Angeles.

LA-RICS comprises two independent systems, which include a voice (land mobile radio, or LMR) system and a broadband data (long-term evolution, or LTE) system. LA-RICS will provide day-to-day communications within agencies and allow seamless interagency communications for responding to routine, emergency, and catastrophic events.

Per the Joint Powers Agreement (Agreement) adopted in 2009, the Authority must develop and adopt a Funding Plan before it commits resources to constructing the LMR or LTE systems (Ref. Art. II, Sec. 2.04(b) and Sec. 2.05(b)(2); and Art. V, Sec. 5.01). This Funding Plan has been a long time in the making, given the Agreement specified that the Authority would use its “best efforts to develop and adopt within nine (9) months of the effective date of the Agreement...a Funding Plan specifying a means or formula for funding the construction, operation and maintenance of the System” (Ref. Art. II, Section 2.05(b)(2)).

The Funding Plan must identify “funding sources and mechanisms” (Art. V, Sec. 5.01). In particular, the Funding Plan must “specify a means or formula for funding the construction, operation and maintenance of the System; such Funding Plan shall include an allocation of costs among the Members, subscribers and other funding sources” (Art. II, Sec. 2.05(b)(2)). Further, the Funding Plan must provide a “development schedule and phasing plan, which will permit the maximum feasible participation by Members” (Art. V, Sec. 5.01). This latter requirement in the Agreement recognizes the great diversity among Members in the caliber of their LMR and existing broadband systems, as well as in their ability to internally support capital improvements and maintenance.

The Funding Plan presents LMR capital costs of approximately \$205 million and annual costs of approximately \$11 million for operations and capital replacement. It also addresses LTE capital costs of approximately \$150 million, additional capital costs of approximately \$17 million for additive alternates, and annual costs of approximately \$10 million for operations and excludes capital replacement. The Funding Plan must identify funding sources and a means for allocating these costs among the Members.

The Funding Plan relies on grant monies for the initial construction of the LMR and LTE systems. Member fees are to be the revenue source for the operations and maintenance (O&M) as well as all other capital costs. Voter assessments are not currently practical given the high cost of a ballot campaign coupled with high voter requirements to pass a special revenue measure. The LMR and LTE program costs can be divided into an infrastructure (initial capital or capital replacement) component and an O&M component. The financing model seeks to apportion costs to the Members relative to each Member’s ratio of population and geographic factors. As

stakeholder survey results revealed that Members do not prefer a fixed fee that is not tied to a Member's specific impact to the communications system, the Funding Plan incorporates one or more measurable characteristics (population and geography) as a tool to determine each Member's revenue contribution.

The Draft Funding Plan was authorized for release for comment to the Authority's Members on March 6, 2014. The Draft Funding Plan is attached as Appendix 1. On April 3, 2014, the Authority Board released a revised Cash Flow, which contemplated the Capital Replacement Reserve for the LMR System being deferred, with no accumulation, until the beginning of the fourth year of system operation. An administrative cost allocation for ongoing support of the Authority Operations at 20% of the overall administrative cost was included in the revision. This information is attached as Appendix 2.

The Board received a number of comments on the Draft Funding Plan during the 60-day comment period, a matrix of which is attached as Appendix 3.

In consideration of the feedback received during the 60-day comment period, the Draft Funding Plan was updated to reflect the responses to this information as well as input from the Finance Committee and Authority Board. The Funding Plan's cost allocation is based on the following:

- All costs for administration, operations and maintenance, capital replacement, and hard match are calculated based on the population and geographic area of the Member agency. These two variables are weighted equally at 50% each.

The Funding Plan is predicated on Members participating in the system, and the contribution from each Member will be calculated on the number participating. The initial Cash Flow presented is predicated on full participation of every Member of the Authority. That is, the Member shares will be calculated assuming every potential Member is paying its indicated annual share. However, the Authority acknowledges that some Members may exercise their right to withdraw as allowed under the Agreement. A Member may make a financial decision to delay participation until such time as their communication system equipment completes its normal replacement cycle and thus the agency's capital investment is fully amortized. The Opt-Out Period for the Funding Plan is 180 calendar days from March 28, 2014, the date of adoption of the Funding Plan by the Authority's Board. The Authority's Board also set the 180 day period for withdrawal of Members, as provided for in Article V, Section 5.01 of the Agreement. In addition, the Funding Plan is required to be revisited in three years from date of adoption. As part of this requirement, LA-RICS will be required to evaluate the current cost allocation method and the system usage data and to determine whether any changes to the Funding Plan are required.

For every Member that chooses not to participate, its annual share of the cost must be assumed by the Authority should total system costs be higher than the revenues collected from early participating Members. Each year an agency does not become a Member or join LA-RICS, its allocated but unpaid cost share of the LTE hard match and LMR capital replacement will accumulate. In this instance, bridge financing may be required to make up the difference.

Alternatively, early participating Members will likely absorb the costs of nonparticipants, resulting in a higher cost for the early Members. Should a Member rejoin the Authority at a later date, the Authority's Board will develop policy that addresses late adopters.

Some Members may have special radio or broadband coverage challenges (e.g., hilly terrain or clusters of tall buildings) that the standard backbone systems would be unable to meet. Those Members may require additional sites or facilities for an acceptable level of service. If so, those Members, and not LA-RICS, unless otherwise agreed to by the Authority's Board, may be responsible for the costs of building and maintaining these facilities. To the extent possible, LA-RICS will provide Bounded Area coverage enhancements. In-Building coverage will also be the responsibility of the Member agency that desires the coverage, unless otherwise agreed to by the Authority's Board. (Note that this does not preclude LA-RICS from being the agency that does the actual work of constructing or maintaining these facilities.)

Introduction

The Los Angeles Regional Interoperable Communication System (LA-RICS) is a modern, integrated wireless voice and data communication system designed to serve law enforcement, fire service, and health service professionals throughout Los Angeles County. LA-RICS is a joint powers authority (Authority) with 86 Members currently, including the County of Los Angeles, 82 cities, two school districts, and the University of California, Los Angeles. A system description of the LMR and LTE systems is provided below.

System Description

Genesis of the Hybrid LMR System

In the summer of 2012, Jacobs Program Management, acting as the Authority's LMR Program Manager, performed a hybrid UHF T-band and 700 MHz analysis to ascertain whether such a system could be deployed across the greater Los Angeles Region. The results of that study, as articulated in the "LA-RICS LMR Hybrid Feasibility Study" of July 7, 2012, indicated that a hybrid LMR System was feasible and that such a system would meet both LA-RICS' near-term and longer-term public safety communications needs.

It was the conclusion of the study that a hybrid system utilizing both 700 MHz P25 and T-band P25 technologies could provide the LA-RICS user community with a LMR System capable of supporting first responders. The overall conclusion was predicated on the minimum requirement of utilizing seventy (70) 700 MHz channels. The utilization of T-band spectrum within the hybrid system is fully scalable, thus rendering the T-band component configurable to address concerns regarding the concentration of first responder assets in areas during emergency response.

The study concluded that a hybrid UHF T-band and 700 MHz system could:

- Support 34,000 users on the 700 MHz spectrum with the capacity to accommodate a 25% incident increase of users maintaining a 1% grade of service (GoS). Although T-band channels will support 34,000 users on the T-band spectrum with the capacity to accommodate a 25% incident increase of users maintaining a 1% GoS, real-life experience indicates the need for more capacity. The study recognized that there is additional T-band capacity available to meet the real-life requirements for 10 channels per site, as this was anticipated to be a requirement in the LMR RFP and ultimate contract.
- Provide voice coverage per anticipated RFP requirements with the exception of the Angeles National Forest (ANF) areas (this is primarily due to a limited number of available tower facilities in the ANF, and coverage could be enhanced as additional sites become available).

- Include a narrowband data subsystem that could replace three existing UHF mobile data systems with a single system having coverage and capacity that would meet anticipated LMR System requirements.
- Include the current ACVRS that will be maintained on UHF but could be upgraded to more modern equipment.
- Employ bi-directional amplifiers (BDAs) for in-building coverage as used in the existing T-band subsystems. The existing BDAs will be replaced and/or supplemented with 700 MHz BDAs as needed.

The selected contractor's final design should be based on user input that would determine how the hybrid system implementation plan would be rolled out.

Following the July 2012 LMR Hybrid Feasibility Study, all pertinent requirements for a hybrid system were incorporated in the LMR System RFP. Due to the requirement to provide up to 10 channels per site for surge capacity for both UHF and T-band, it was determined that a pool of 700 MHz frequencies could be used to augment capacity at sites where event escalation might occur. As a result, LA-RICS required that proposers not exceed 90 700 MHz frequencies.

Two proposers provided proposals that addressed a hybrid system, and Motorola Solutions, Inc., was invited to negotiate. Subsequent to successful negotiations with Motorola, a contract was awarded by the Authority's Board that would provide a hybrid LMR System for the greater Los Angeles Region.

Description of the LMR System

The LMR System is a hybrid, integrated, regional, public safety wireless communications system operating primarily on UHF T-band channels and the 700 MHz spectrum. This Association of Public Safety Communications Officials (APCO) Project 25 Phase II capable wireless communications system will provide public safety first responders with mission critical voice and data communications supporting day-to-day, mutual aid, and task force operations. It will provide immediate and coordinated assistance in times of emergency, minimizing loss of life and property within the greater Los Angeles Region.

Furthermore, the LMR System will provide enhanced, interoperable communications through the following subsystems:

- Digital Trunked Voice Radio Subsystem (DTVRS): This DTVRS subsystem is considered the primary subsystem. It is a hybrid design that incorporates Project 25 Phase II equipment operating a voice communications network on both the UHF "T-band" spectrum and the 700 MHz band. Intra-subsystem network operations between users on the differing bands are transparent.
- Analog Conventional Voice Radio Subsystem (ACVRS): The interoperable ACVRS subsystem will interface with the hybrid UHF and 700 MHz DTVRS subsystem. ACVRS will

use narrow-banded UHF channels available to LA-RICS. ACVRS will consist of up to 22 Los Angeles County Fire Department (LACoFD) regionalized channels corresponding to each Telephone Radio Operator (TRO) operational service area.

- Narrowband Mobile Data Network (NMDN): The NMDN subsystem will be available to all Member agencies. This subsystem's data network will operate on UHF channels and provides reliable Computer-Aided Dispatch (CAD) connectivity.
- Los Angeles Regional Tactical Communications Subsystem (LARTCS): The LARTCS subsystem will support public safety operations on VHF Low-Band, VHF High-Band, UHF, and 800 MHz. This subsystem provides DTVRS and ACVRS interoperating connectivity with legacy public safety system users that would not normally operate on LA-RICS' primary subsystems.

Where possible, the LARTCS subsystem radio system attempts to logically share common infrastructure components.

System Capabilities and Advantages

The LMR System will facilitate and support Authority stakeholders' day-to-day public safety voice and low-speed data communications needs, providing instantaneous mutual aid in the event of a man-made or natural disaster. As such, the LMR System provides communications surge capability and resiliency. It provides generous allowances for disaster recovery and future system growth.

The Authority will possess a public safety LMR System that will be technically sufficient. In addition to supporting day-to-day public safety voice and data communications needs, the LA-RICS LMR System also provides a much-needed migration path off the UHF T-band spectrum that must be vacated in 2023 pursuant to H.R. 3630, the Middle Class Tax Relief and Jobs Creation Bill of 2012.

Why is the hybrid approach the best option for LA-RICS at this time?

- Removes LA-RICS from dependency on the federal government to make decisions regarding local spectrum and funding.
- Deploys an interoperable public safety radio network on Day 1 and buys time for later resolution with respect to future T-band frequency availability.
- Buys time to position for the possibility of future spectrum availability in both 700 MHz and 800 MHz.
- Provides a baseline countywide system now that will easily accommodate expansion as users come on board.

- Allows for a smooth, coordinated migration over time, and stays positioned for future FCC assistance with spectrum and funding.
- Minimizes risk of breakage and stranded assets.
- Utilizes existing ACVRS and narrowband data.
- Allows LA-RICS to prudently plan for yet-to-be-determined policies and direction from the FCC.

Effects on Members Existing Operations & Benefits

The benefits and advantages that Member agencies will gain with the LA-RICS hybrid LMR radio communications system, over their existing operations and for the next decade and beyond, are numerous and include:

- A truly countywide voice and narrow band mobile data system that provides coverage and capacity throughout the jurisdictions of all Member agencies.
- Reuse of infrastructure assets leverages the investments that Members have made in existing sites and equipment.
- Cost savings are realized through centralized operations and maintenance of the LMR System.
- Cost avoidance will be achieved when the federal legislation to vacate the current UHF T-band occurs, as the Authority will not have to re-procure and re-deploy a new regional communications system.
- Coverage and capacity will meet or exceed operational requirements for all LMR subsystems and provide significant improvement over existing capabilities.
- Designed-in system growth will provide long-term usability in response to population growth and additional operational requirements.
- The LMR System is being designed in a modular, scalable manner to allow the Authority to add or remove Members/users as needed, necessary, and appropriate.
- The LMR System will allow Member agencies the flexibility to assume responsibility for LMR System maintenance as desired.
- There will be no single point of failure throughout the mission-critical DTVRS subsystem.
- Geographically isolated LMR System controllers will provide redundancy in the event of a disaster.
- System-wide encryption provides LMR System security against cyber attacks.

- The LMR System provides encrypted communications allowing each member Agency to conduct secure operations.
- The LMR System will achieve the Authority's vision of regional communications interoperability.
- The LMR System will provide Member agencies operational and equipment options regarding end-of-life concerns for their current systems.
- All hardware, firmware, and software licenses will be current as of the final acceptance.
- Overall LA-RICS program objectives will be realized to the great benefit of all Members:
 - o Pooling of regional frequencies will be accomplished.
 - o Reuse of existing infrastructure will be realized.
 - o Providing for interoperable day-to-day communications for all Members will finally become a reality.
 - o Providing instantaneous mutual aid communications will be realized.
 - o Regional disaster recovery capabilities will be enhanced.
 - o Factored-in future growth will be available.
 - o Positive reduction of duplication costs will be a reality.
- Enhanced interoperable communications with federal, state, and other outside local agencies.
- Does not require members to invest capital dollars up front for UHF-capable subscriber units, but rather preserves individual agency equipment replacement/migration strategies. Members who operate exclusively on VHF, or who have outdated 700 MHz equipment, may choose to replace their subscriber equipment in order to take full advantage of the new hybrid network.
- Reduces the risk for all Members of deploying on a network that will be obsolete in less than a decade.
- Over the long term, 700 MHz will provide better interoperability with contiguous neighbors – Orange, Riverside, and other adjacent county users, since they are migrating to 700/800MHz.
- Potential exists for LA-RICS 700 MHz to be a direct backup for STRS and CWIRS – they currently have no backup capability.

Description of the LTE System

The Public Safety Broadband Network (PSBN) is a state-of-the-art wireless broadband system that provides high mobility public safety grade outdoor data services across Los Angeles County. It uses the latest cellular technology, called Long Term Evolution (LTE), currently being deployed by the major cellular carriers worldwide. The PSBN is built to the higher public safety reliability standards in order to have service available when public safety needs communications most—during emergencies. The PSBN is capable of interoperability with the forthcoming FirstNet nationwide network as well as other Broadband Technology Opportunity Program (BTOP) grant-funded public safety systems. It uses the radio spectrum assigned to LA-RICS in its Spectrum Manager Lease Agreement (SMLA) with FirstNet. The PSBN consists of the following major subsystems:

LTE Subsystem – The LTE Subsystem consists of an LTE-compliant wireless broadband system. LTE is a global standard established by the Third Generation Partnership Project (3GPP) and represents the most advanced commercial wireless broadband technology available. The LTE Subsystem will enable the Authority to have the same system functionality as commercial wireless carriers. The LTE Subsystem will provide wireless mobile broadband service across Los Angeles County from a preliminary 229 “cell sites” (known as eNodeBs). Please note that the actual cell sites may vary from the numbers referenced in the Funding Plan, as the design is being refined based on a number of factors. It will provide broadband coverage to outdoor users using portable devices. The LTE Subsystem will meet various Key Performance Indicator (KPI) thresholds to achieve reliable and high-speed data connections. The LTE Subsystem also includes one Evolved Packet Core (EPC) implementation at the Los Angeles County Fire Department’s Fire Command and Control Facility (FCCF) to manage user mobility and routing throughout the entire system. A second redundant Evolved Packet Core is included as an additive alternate. The following table represents the percentage for each zone for the downlink (cell site to mobile device) and uplink (mobile device to cell site).

LA-RICS Coverage Zones	Percentage Coverage of Geography	
	Downlink (768 kbps)	Uplink (256 kbps)
LA Basin	96.5	91.7
Santa Monica Mtns.	62.6	36.2
Angeles National Forest	35.0	11.6
Foothills	70.4	43.2
Foothills – Developed	91.2	76.8
CA-14 Corridor	42.2	16.9
Northern Desert	90.9	73.7
Waterway	70.8	66.0

Backhaul Subsystem – The Backhaul Subsystem provides connectivity and data routing among the 231 cell sites and the Evolved Packet Core. Microwave communication is the method of choice in the Backhaul Subsystem and provides connections for more than 80% of the PSBN

sites. The remaining sites as well as other intersystem connections are achieved through leased circuits.

Ancillary Site Subsystem – The Ancillary Site Subsystem consists of “public safety grade” elements required to support the LTE and Backhaul subsystems. This subsystem includes new robust monopole “towers” as well as battery backup and generator systems to provide short-term and long-term power backup in the event of commercial power failures. The Ancillary Site Subsystem also includes the necessary upgrades and improvements for existing rooftop and tower sites to support the LTE and Backhaul equipment.

System Capabilities & Advantages

The PSBN is capable of high-speed and high-mobility communication where service is provided. Data rates and performance on the system will be comparable to commercial cellular services. However, this network differs from commercial services in one key area—availability of service. Commercial cellular networks are not built to the same robust standard as the PSBN and are not expected to be as survivable. Furthermore, commercial usage by consumers is typically very high during emergencies. This creates congestion on the cell sites where the incident occurs. And due to lack of priority service on the commercial networks, public safety communication is at risk due to the congestion.

The PSBN provides outdoor service to portable handheld devices over the area in the table above at data speeds at or above 768 kilobits per second (kbps) in the downlink and 256 kbps in the uplink. However, these rates represent the “edge” rates where the signal is low. LTE is capable of scaling to lower rates at lower signal levels, and therefore, the PSBN can cover more area at lower rates. This can include limited coverage inside buildings, especially inside buildings near PSBN cell sites. Typical capacity for a single cell site is expected to be on the order of 30 megabits per second (mbps). This capacity is shared by the users in that area.

The PSBN is designed to be “public safety grade.” The towers are more robust than typical cell phone towers, the sites are equipped with multiple forms of power backup, and wherever possible, components and connections are redundant such that when one element fails, another is immediately available to maintain system operation.

The PSBN is capable of transporting any Internet Protocol (IP) application data. This includes Computer Aided Dispatch (CAD), voice over IP (VoIP), electronic Patient Care Records (ePCR), web applications, e-mail, streaming video, Geographic Information Systems (GIS), and many others. It is designed to accommodate very low system delays (latency) to provide high quality services to delay sensitive applications. However, the system’s designed capacity is limited, and therefore, the degree to which these applications can be run simultaneously on the same cell site is limited. In addition, the system may not provide the needed coverage (e.g., in-building) required by some of these applications.

The system is also capable of roaming to commercial cellular networks where PSBN service does not exist. Therefore, outside of Los Angeles County, in areas outside of the PSBN coverage

footprint, and inside buildings, the system is capable of supporting a transition (with a short delay during the transition) to the commercial network. Additionally, subscriber device options (including one from Motorola in the base agreement) will support the use of multiple modems that can seamlessly transition between the commercial and PSBN networks.

Effects on Members' Existing Operations & Benefits

Due to the higher availability of the PSBN from the robustness of the network to the dedicated capacity, public safety users will be able to rely more on the PSBN in emergencies. This will enable public safety personnel to have sustained communications in life-threatening scenarios that may normally be constrained by congestion or a complete loss of service. For example, in the event of an earthquake, existing systems may be crippled by the event itself or by the extremely high usage levels. The PSBN is expected to be more survivable in such an event, and the dedicated capacity means public safety does not have to compete with the public for data resources. Finally, because the PSBN is fully controlled by public safety, the Authority and its Members can adjust network priorities to address congestion within the public safety community to ensure the most critical communication gets through.

In some cases, Member agencies may withhold deployment of data solutions because of the reliability or capabilities of existing systems. The higher reliability of the PSBN may enable increased use of broadband data applications in "mission-critical" scenarios. Therefore, in addition to higher reliability of existing data solutions, new life-saving benefits may now be possible over the PSBN as a result of the higher data availability. For example, due to congestion on commercial networks, real-time streaming video use may be limited. The PSBN has all of the advanced capabilities of an LTE network and can prioritize video traffic to ensure the needed resources are made available.

Because the PSBN is under the control of public safety, public safety determines the priority of response to system failures when they occur. This includes public safety control of emergency deployable systems, such as a "Cell on Wheels (COW)." It also includes public safety determination of system maintenance timing to ensure that potential outages that result from maintenance minimize their impacts on public safety, not consumer, operations. It also means that restoration of service can be prioritized due to public safety, not commercial, needs.

The PSBN includes a robust backhaul network connecting the PSBN cell sites with the core network "switch." These sites are predominantly located at police and fire stations. The connections could then be used to provide robust data connections to these facilities. To the extent that these facilities are on member agency networks, they may enable connectivity among Public Safety Access Points or other data communication within the region. While the PSBN connection is currently planned to end at the tower outside these police and fire stations, a connection to the inside of the co-located facility can complete the circuit. This could enable direct phone calling between Member agencies in the event that the public telephone network fails, among other applications. It should be noted that the capacity of these connections is based only on the PSBN traffic, and therefore, connections may require upgrades to support new

applications. However, the system is planned for 50% growth, which could be used for limited external applications.

In order to benefit from the PSBN's capabilities, Member agencies will need new Band Class 14 devices. While Member agencies may have LTE-capable devices from commercial carriers, those devices do not currently support the dedicated public safety spectrum. Those new devices will need to be configured and installed. Additionally, Member agencies will need to connect their fixed networks, data centers, and applications to the PSBN. This will require coordination and collaboration between IT departments to including physical connectivity, data routing, and security.

Funding

LA-RICS will include voice (land mobile radio, or LMR) and broadband data (long-term evolution, or LTE) components. LA-RICS will provide day-to-day communications within agencies and allow seamless interagency communications for responding to routine, emergency, and catastrophic events. Although a significant portion of system costs will be covered through grant funding, the Authority must identify a method to distribute its remaining cost among its members. LA-RICS established a Finance Committee to address these issues, among other financial considerations, and subsequently retained Pacific Municipal Consultants (PMC) to develop a methodology and ultimately this Funding Plan.

Section 1. Funding Plan Overview

Requirements

The LA-RICS Joint Powers Agreement Section 2.05(b)(2) notes that it is the responsibility of the Board of Directors to “develop and implement a funding plan (the ‘Funding Plan’) for the construction and ongoing operation of a shared voice and data system.” Section 5.01 (Adoption of Funding Plan) provides additional clarity for this responsibility:

It is a critical goal of the Authority to develop a Funding Plan that identifies funding sources and mechanisms, including a development schedule and phasing plan, which will permit the maximum feasible participation by Members. The Funding Plan shall be descriptive as to the contributions required from Members.

Prior to committing resources for the construction of the System, a proposed Funding Plan as designated in Section 2.05(b)(2) shall be developed.

Section 5.01 of the Agreement also requires that the Funding Plan “shall be accompanied by a description of the System, and reports and studies to allow Members to determine the System capability, cost, financing and the effects on individual Members.”

This Funding Plan meets those requirements. This Funding Plan identifies funding sources and mechanisms to pay for construction of LA-RICS through grant funds and contributions by Members, respectively, as discussed herein. In addition, the LMR and PSBN Agreements executed between Motorola and the Authority set forth a detailed development and phasing schedule for the construction, operation, and maintenance of each system. Much of the background information and stakeholder engagement process is contained in Appendix 1 – Draft Funding Plan.

On March 6, 2014, the Authority Board considered the Draft Funding Plan and authorized its release for the required 60-day comment period. On April 3, 2014, the Authority Board reviewed and considered information pertaining to the specific Cash Flow contained in the Draft Funding Plan, which contemplated deferring the Capital Replacement Reserve for the LMR System, with no accumulation, until the beginning of the fourth year of system operation. An administrative cost allocation for the ongoing support of Authority Operations at 20% of the overall administrative cost was also included in the revision. The Authority Board authorized the release of this revision, which is included in Appendix 2.

On May 7, 2014, the Authority Board received a report outlining all of the comments received on the Draft Funding Plan. This information is included in Appendix 3.

Included in Appendix 4 is the August 15, 2013, LMR Board letter and the March 6, 2014, LTE Board letter that discusses the phasing of work to occur to construct, operate, and maintain each system.

Funding Plan Components and Goals

LA-RICS has received favorable status through receipt of significant grant funding for the LMR and LTE systems. These grant funds cover a substantial portion of the costs associated with constructing the physical infrastructure that supports both systems. The Funding Plan is responsible for proposing an allocation of the costs not covered by the grant funding including LMR operations and maintenance, LMR life-cycle capital replacement, LTE hard cost matches, LTE soft cost matches, LTE operations and maintenance, and LTE life-cycle capital replacement (Section 4 provides more detail about Funding Plan costs).

The methodology for the distribution of system costs between Member agencies and their acceptance is a major challenge to the successful completion of the LA-RICS project. The Draft Funding Plan utilized a number of variables to allocate costs for both the LTE and LMR systems. This information is contained in Appendix 1. In consideration of the feedback received during the comment period, it is being recommended that the variables used to allocate cost to Member agencies be revised to eliminate as many unknowns as possible including the potential that agencies may have reported information inconsistently.

The Board has met its obligation to distribute a Draft Funding Plan to Members with a description of the LMR and LTE systems, as well as “reports and studies” that would allow members to make their own assessments of system capabilities, costs, financing, and fiscal impact. In addition, Members can continue to meet with Authority staff and the LA-RICS contractor to discuss and evaluate the particulars of each system and the associated projected coverages in any geographic area affecting Members.

Once the Board adopts a Funding Plan, the Board will need to notify Members within five days of adopting the Funding Plan. Members then have at least 35 days in which to submit written notice of immediate withdrawal from the Authority. Very significantly, “there will be no costs for any Member that withdraws from the Authority within this time period” (Art. V, Sec. 5.01). The Authority Board voted to extend the opt-out period for the plan to 180 days to allow Member agencies to adequately review the information and allow their governing bodies to take appropriate action, if necessary.

The Authority's Board may opt to revise the Funding Plan in light of Member withdrawals following its adoption. The provision in the Agreement (last paragraph of Art. V, Sec. 5.01) that allows for a Board vote on a revised Funding Plan states:

After the Funding Plan has been adopted, and until contracts are awarded to design and/or construct the System, if the Funding Plan is revised in a manner which will substantially increase the financial obligations of the members, then any Member so affected will have a further right to withdraw within a period designated by the Board, which shall not be less than 45 days after the adoption of the revised Funding Plan. There will be no costs or any Member that withdraws from the Authority within this time period, except for obligations incurred prior to the adoption of the Revised Funding Plan.

Section 2. Background Research

Extensive background research was done of comparable interoperable communication systems to identify existing finance plan strategies. Select allocation methods and variables from these comparable systems, as vetted by Members, were incorporated in the Draft Funding Plan authorized for release on March 6, 2014. All of the background research is contained in the Draft Funding Plan attached in Appendix 1.

Section 3. Member Outreach

Extensive Member outreach was done by Authority staff and PMC. All of the Member outreach and results of this outreach are contained in the Draft Funding Plan attached in Appendix 1. PMC sent initial surveys to fire and police chiefs, as well as city managers, of each Member agency, followed with three rounds of stakeholder meetings held between November 2013 and January 2014. Each series included hosting several meetings on different days and in separate locations with the intention of increasing Member participation.

Section 4. Cost Allocation Method

Cost allocation, or apportionment, is the manner by which the various costs of the systems are assigned to defined user characteristics and then allocated to the LA-RICS Members based on each Member's known user data. The apportionment methodology considers the components of the system costs to the extent that they are known or can be estimated.

The objective of this section is to (1) outline in a representational model the system funding preferences based on input from stakeholders and comments received during the comment period; (2) describe the funding model parameters and development; and (3) develop costs for each Member using the cost allocation formula for the LMR and LTE systems.

Cost Components of Systems

The costs and model development assume full buildout and implementation of the interoperable communications systems as defined in the executed agreements for LMR and LTE. Costs based on assumptions of phased buildout and implementation will result in different costs in the early years of the system. Any phasing assumptions and changes in costs for system development will be determined by the Authority. The Funding Plan relies on grant monies for the initial construction of the LMR and LTE systems. Member fees are to be the revenue source for operation of both systems, administrative costs, LTE hard match, and LMR System refresh. Voter assessments are not currently practical given the high cost of a ballot campaign coupled with high voter requirements to pass a special revenue measure.

Land Mobile Radio (LMR)

Components of LMR cost include the contract system maintenance costs (Phase 5) totaling approximately \$56 million for the full 15-year contract period.¹ In addition to the contracted system maintenance cost, an infrastructure component is included to account for replacement and technological upgrade and/or obsolescence. This infrastructure component, or capital replacement, is called the “Life Cycle Cost.” A Life Cycle Cost estimate for replacement of LMR infrastructure is approximately \$55 million as determined by the LA-RICS engineering consultant. Payments by Members for capital replacement cost are spread evenly over a 15-year period. An amount for Authority administration costs of LMR is also estimated.

Long-Term Evolution (LTE)

The estimated costs for LTE shown are from the Broadband Technology Opportunity Program (BTOP) grant Budget Narrative dated November 25, 2013, as well as Authority estimates. The itemized cost components are as follows:

1. System operations and maintenance: \$28.6 million (first five years)
2. Total matching funds (cash) for LTE construction grant (hard match): \$19.5 million

Per Authority direction, in-kind matching funds as well as LTE System refresh costs will be fulfilled through means other than contributions by all Members.

The Funding Plan comprises fees that are calculated by LA-RICS Member for both the LMR and LTE systems, as well as for JPA operations. Administrative costs for LA-RICS are divided into three areas, one being JPA operational cost, the second for LMR administration, and the third for LTE administration. Costs for JPA operations are for categories such as Authority staffing, administrative facility lease, and insurance. LMR and LTE administration costs are specifically for the management and implementation of each system including contract management, grant administration, and other tasks to maintain system operations. The total administrative costs are allocated in the following amounts: 40% for JPA operations; 30% for LMR; and 30% for LTE. Within LMR, the fee estimate reflects three costs (operations, system refresh, and administrative). Within LTE, the fee estimate also reflects three costs (operations, annualized grant hard match, and administrative). The following average annual cost estimates for LMR and LTE are assumed for calculating annual member fees.

¹ Exhibit C.6 – Schedule of Payments LMR System Maintenance – LA-RICS LMR Agreement with Motorola. The payments vary from year to year, beginning at \$4 million in year 1 and reducing to \$3.6 million by year 15.

System	Cost Component	Annual Cost	Total
LMR	Operations	\$3,726,600	\$9,308,400
	System Refresh	\$4,806,800	
	Administrative	\$775,000	
LTE	Hard Match	\$1,875,000	\$9,123,900
	Operations	\$6,473,900	
	Administrative	\$775,000	
JPA Operations		\$1,033,000	\$1,033,000

Work by LA-RICS and its committees determined that a preferred LTE scenario be developed that excludes the in-kind match and system refresh, and adds maintenance for the Home Subscriber Server (HSS) and Redundant Evolved Packet Core.

FIRST NET OPTIONS

In February 2012, Congress enacted the Middle Class Tax Relief and Job Creation Act of 2012, containing landmark provisions to create a much-needed nationwide interoperable broadband network that will help police, firefighters, emergency medical service professionals, and other public safety officials stay safe and do their jobs. The law's governing framework for the deployment and operation of this network, which is to be based on a single national network architecture, is the new "First Responder Network Authority" (FirstNet), an independent authority in the National Telecommunications and Information Administration (NTIA), located within the Department of Commerce. FirstNet will hold the spectrum license for the network and is charged with taking "all actions necessary" to build, deploy, and operate the network, in consultation with federal, state, tribal, and local public safety entities and with other key stakeholders.

The act provides \$7 billion in funding toward deployment of this network, as well as \$135 million for a new State and Local Implementation Grant Program administered by the NTIA to support state, regional, tribal, and local jurisdictions' efforts to plan and work with FirstNet to ensure the network meets their wireless public safety communications needs.

LA-RICS staff has been holding discussions with FirstNet to help offset costs, which could lead to cost savings to LA-RICS Members. These costs include capital infrastructure replacement, Core Maintenance (PSBN Hardware & Software EPC and NMS), and eNodeB Maintenance (PSBN Hardware & Software RAN). To date, FirstNet has not been able to provide any affirmative commitment to providing resources to the Authority.

THE FUNDING PLAN DOES NOT APPLY TO SUBSCRIBER UNITS

Under the Funding Plan, Members would still be responsible for their LMR or LTE subscriber units. For the LMR System, Members would be responsible for the costs of buying, maintaining, operating, and replacing the following:

- Portable radios
- Mobile radios
- Base stations
- Dispatch consoles

For the LTE System, Members would be responsible for the costs of buying, maintaining, operating, and replacing the following:

- High-speed data units

LA-RICS may be able to help Members secure grant funding for radio or broadband subscriber units. LA-RICS may also be able to help Members pool their unit purchases so as to command lower pricing. But notwithstanding these forms of assistance, LA-RICS does not assume cost responsibility for subscriber units, unless otherwise agreed to by the Authority's Board.

THE FUNDING PLAN DOES APPLY TO STANDARD LMR AND LTE BACKBONES

As stated earlier, the purpose of the Funding Plan is to fund the backbone LMR and LTE systems necessary to meet a service standard under normal conditions.

Major elements of the LMR backbone include:

- Radio towers
- Microwave links
- Fiber optic links
- Radio antennas
- Control buildings and radio communications equipment
- Ancillary equipment

Major elements of the LTE backbone include:

- Monopole towers
- Microwave links
- Fiber optic links
- Broadband antennas
- Control buildings and broadband communications equipment
- Ancillary equipment

Cost Apportionment

The preferred option for apportioning costs to the Members is based on the following method and assumptions:

- Joint Powers Authority Administration: Distribution of 40% of Authority staff and operating costs based on Authority Members' proportional share of countywide population and geography equally split 50%/50% (effective FY 2014/2015).
- LMR System Operating Costs:
 - No costs will be allocated or collected for the LMR System from Members until such time as the system is operational (projected FY 2017/18), unless the Authority Board adopts a revised Funding Plan, including to account for any loss or shortage of grant funds.
 - Additionally, the Authority's Board will issue an amendment to the Funding Plan to reflect projected operational and maintenance costs prior to the operation of the LMR System.
 - The cost of operation during the first year of operation (projected FY 2017/18) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - The cost of operation during the second and third years of operation (projected FY 2018/19) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs and full cost of LMR System maintenance based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - The cost of operation during the fourth and subsequent years of operation (projected FY 2020/21) is based on:
 - a. Distribution of 30% of Authority staffing and LMR System operational costs and full cost of LMR System maintenance based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - b. LMR System refresh based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
- LTE System Operating Costs:

- The cost of operation during the first year of operation (FY 2015/16) is based on:
 - a. Distribution of 30% of Authority staffing and LTE System operational costs and fiber connectivity operational costs, if applicable, based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - b. Hard match contribution based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
- The cost of operation during the second and subsequent years of operation (effective FY 2016/17) is based on:
 - a. Distribution of 30% of Authority staffing and LTE System operational costs and full cost of LTE System maintenance (including leased fiber connectivity, if applicable) based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
 - b. Hard match contribution based on Authority Members' proportional share of countywide population and geography equally split 50%/50%.
- Cost of operation during years following the extinguishment of commercial financing will continue as reflected above, with the exception of hard match contributions.

Cost Variables

The costs for constructing, operating, and maintaining the LMR and LTE systems are established in the agreements with the systems' provider. This Funding Plan, for purposes of establishing a set of cost parameters to conduct the cost allocation, assumes that all costs are fixed—at least through the contract periods of the agreements. It should be noted that the variables discussed in the Funding Plan may not have been key factors used by the contract vendor in determining the established total systems costs. The LMR and LTE systems are very complex and, in order to assemble their cost proposal, the contract vendor would have had to consider many more factors than the variables presented below.

The LMR System is not anticipated to “go live” until FY 2017/18. Consideration of LMR System Operating Costs will be the subject of a revision to the Funding Plan released prior to the activation of the system. This is in consideration of:

- a. Execution of the LMR contract is by phase, with each phase requiring approval of a Notice to Proceed by the Authority Board of Directors.
- b. Sufficient funding for each phase must be demonstrated to the Authority Board of Directors before such consideration.

- i. Individual Notices to Proceed may be authorized by the Board of Directors on a site-by-site basis, depending on funding availability.
 - ii. Any decrease or suspension in grant funding that might subject Authority Members to an increased substantial financial liability should be evaluated by the Board to determine whether a revised Funding Plan should be adopted, and if one is adopted, will trigger an additional 45-day opt-out period.
 - iii. The LMR contract provides for termination for non-appropriation of funds, thus further protecting Authority Members from further liabilities being incurred that cannot be addressed via revision to the Funding Plan.
- c. The detailed design of the LMR System is currently in progress.
- i. The inability to achieve maximum benefit from some of the designated sites is resulting in site substitution and/or additions. This may result in an adjustment of maintenance and operating costs.
 - ii. Changes in LMR technology during the design phase that warrant reconfiguration of operational aspects may result in a change to the costs allocated to Authority Members.
 - iii. An updated analysis of projected maintenance and operating costs may also result in a change to the costs allocated to Authority Members.

Given the complexity of the cost proposals, the Funding Plan measures each Member's share of the communications systems cost based on population and geography (LMR and LTE) and apportions the costs accordingly. These variables are described in **Table 1** below to show how they potentially would be used to determine a Member's share of infrastructure capital replacement and operations costs.

Table 1. Variables for LMR and LTE Cost Allocation Formulas

System/ Variable	Description	Measure of Cost	Variable Applied to Capital Cost	Variable Applied to O&M Cost
Jurisdiction residential population	A jurisdiction's current resident population, For Cities of Industry and Vernon, daytime resident plus worker population is used.	Measures the size of population as a predictor of system use; in general, the greater the population, the greater the impact to the system.	X	X

System/ Variable	Description	Measure of Cost	Variable Applied to Capital Cost	Variable Applied to O&M Cost
Geography	Each jurisdiction's municipal boundary expressed in square mileage. The square mileage excludes national forest lands.	Measures the size of each Member's physical land area as a predictor of system use; in general, the greater the land area, the greater the impact to the system.	X	X

Variables Data Sources

The variables used in the cost allocation formulas for LMR and LTE are based on information provided through several data sources. Population data was obtained from the Southern California Association of Governments (SCAG) Local Profile Reports. Daytime resident plus worker population for the Cities of Industry and Vernon were obtained from the American Community Survey's Commuter-Adjusted Daytime Population: Places. Geographic land area, expressed in square miles, was obtained from Los Angeles County Department of Public Works through the Los Angeles County GIS Data Portal and excludes national forest land.

Cost Formula

Figure 1 illustrates how the cost allocation method for a given Member would be calculated.

Figure 1. Cost Allocation Formula

**Cost Allocation Formula Distributed by 50% Population/50% Geography for
LMR, LTE, LTE Hard Match, and Baseline Administrative Cost**

Cost Formula

$$\begin{array}{|c|} \hline \text{Member LMR} \\ \hline \text{Cost} \\ \hline \end{array} + \begin{array}{|c|} \hline \text{Member LTE} \\ \hline \text{Cost} \\ \hline \text{(Operations plus} \\ \hline \text{Hard Match)} \\ \hline \end{array} + \begin{array}{|c|} \hline \text{Member} \\ \hline \text{Baseline} \\ \hline \text{Administrative} \\ \hline \text{Cost} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Total Member} \\ \hline \text{Cost} \\ \hline \end{array}$$

Member LMR Cost

$$\left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Population*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Population} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) + \left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Square Miles*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Square Miles} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) \times \begin{array}{|c|} \hline \text{LMR} \\ \hline \text{Operations} \\ \hline \text{Cost} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Member LMR} \\ \hline \text{Operations Cost} \\ \hline \end{array}$$

Member LTE Cost (Operations plus Hard Match)

$$\left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Population*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Population} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) + \left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Square Miles*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Square Miles} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) \times \begin{array}{|c|} \hline \text{LTE Operations} \\ \hline \text{Cost} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Member LTE} \\ \hline \text{Operations Cost} \\ \hline \end{array}$$

$$\left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Population*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Population} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) + \left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Square Miles*} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Square Miles} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) \times \begin{array}{|c|} \hline \text{LTE Hard} \\ \hline \text{Match} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Member} \\ \hline \text{Hard Match} \\ \hline \text{Cost} \\ \hline \end{array}$$

Member Baseline Administrative Cost

$$\left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Population} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Population} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) + \left(\frac{\begin{array}{|c|} \hline \text{Member} \\ \hline \text{Square Miles} \\ \hline \end{array}}{\begin{array}{|c|} \hline \text{Total Square Miles} \\ \hline \text{of LA-RICS} \\ \hline \text{Members} \\ \hline \end{array}} \times 50\% \right) \times \begin{array}{|c|} \hline \text{JPA Operations} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Member} \\ \hline \text{Baseline} \\ \hline \text{Admin Cost} \\ \hline \end{array}$$

* LMR and LTE populations and square miles are adjusted to reflect a member's contractual status with the County.

Annual fee estimates by Member agency were developed for the LA-RICS LMR and LTE systems using the cost allocation process described above. Fee estimates are shown for LA-RICS members with their own independent police and/or fire services. Estimated fees for full contract cities are not calculated, as fees for full contract cities will be determined by each Member's contract terms with Los Angeles County. Full contract cities are as follows:

- | | | |
|---------------------------|-------------------------------|--------------------------------|
| •City of Agoura Hills | •City of Industry | •City of Paramount |
| •City of Artesia | •City of La Cañada Flintridge | •City of Pico Rivera |
| •City of Bellflower | •City of La Mirada | •City of Rancho Palos Verdes |
| •City of Bradbury | •City of La Puente | •City of Rolling Hills Estates |
| •City of Calabasas | •City of Lakewood | •City of Rosemead |
| •City of Carson | •City of Lancaster | •City of San Dimas |
| •City of Cerritos | •City of Lawndale | •City of Santa Clarita |
| •City of Commerce | •City of Lynwood | •City of South El Monte |
| •City of Duarte | •City of Maywood | •City of Temple City |
| •City of Hawaiian Gardens | •City of Norwalk | •City of Walnut |
| •City of Hidden Hills | •City of Palmdale | •City of Westlake Village |

For cities that receive service from the County for one service, either law enforcement or fire, the cost allocation formula accounts for one half (50%) of that city's population and geography to be attributed to the County or County Fire District, and the other half (50%) that remains with the city. This division provides a means to allocate costs where one service is provided by the County while the other service is provided directly by the city.

Mutual Aid Agreement Affiliates

Agencies that have formal mutual aid agreements with Authority Members may receive limited authorization to utilize the LA-RICS network as a result of the mutual aid agreement. Access to the LA-RICS system will be limited to those communications essential to and within the scope of such mutual aid operations.

Cash Flow

The LA-RICS Funding Plan provides a projection of cash flow of project expenses based on construction milestones and system operability, and the impact on Members' fees. Member fees are spread among each LA-RICS members as well as seven additional cities that are not members of LA-RICS but receive law enforcement and/or fire services from the County. These cities include City of Cudahy, City of Diamond Bar, City of La Habra, City of Lomita, City of Malibu, City of Rolling Hills, and City of West Hollywood. The cash flow required for the LMR System backbone is developed for the time period of FY 2017/18 through FY 2031/32, a 15-year period. The cash flow required for the LTE System backbone is developed separately for the time period

of FY 2015/16 through FY 2031/32, a 17-year period to match the end years with LMR. Cash flow is also provided separately for JPA operations as well as the LTE hard match. The cost allocation using the cash flow assumes participation by all JPA Members from system implementation.

Section 5. Data Monitoring and True-Up Period

The cost model, at least during the initial term, places an emphasis on population and geographical area data gathered from SCAG and the Census Bureau. At a future date, it may be necessary to revise these variables to align with actual use on the system. Since the system is not currently functioning, this information is not available. However, the Authority Board identified a need to establish a three-year period where the original assumptions and cost allocation formula would be revisited and if necessary revised to incorporate actual use data from the LARICS system in operation. If the variables for the model are changed, the new variables can be updated on a regular basis with data from the LTE and LMR systems that measures each agency's usage. It is anticipated that if this occurs, the variables used would be the number of radios on the system (LMR) and the number of data units on the system (LTE).

For this regular reporting process, a means to validate data submitted to the Authority Board could be conducted by an independent third party. The validation could include tracing the process by which the data is collected and reported by the jurisdiction and/or LA-RICS, reviewing internal and external reports generated by the jurisdiction, conducting field visits, and developing historic trends in the reported data. The validation should occur in regular intervals such as annually or biannually and implemented through various techniques including random validations and/or geographic-focused verification.

The data monitoring process would be applied to information generated by the Member agencies as well as by the LA-RICS communications provider should the provider have capability to track the variable data. A report of the findings would be developed for the LA-RICS Board by the independent third-party reviewer. An ongoing program of data verification is required as an assurance to all participants and the Authority that the cost shares are apportioned using representative data for each participating agency.

Minutes of May 28, 2014
LA-RICS Board Meeting

Board of Directors SPECIAL MEETING MINUTES

**LOS ANGELES REGIONAL
INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY**

May 28, 2014

Grace E. Simons Lodge
1025 Elysian Park Drive, Los Angeles, CA 90012

Board Members Present:

William “Bill” T Fujioka Chair, CEO, County of Los Angeles
Kim Raney, Police Chief, City of Covina, representing At Large Seat
Scott Pickwith, Police Chief, City of La Verne, representing the Los Angeles County Police Chiefs Association
Ron Iizuka, Police Captain, City of Culver City, representing At Large Seat
Mark R. Alexander, City Manager, City of La Cañada Flintridge, representing the Contract Cities Association
Reginald “Reggie” Harrison, Deputy City Manager, City of Long Beach
Gregory “Greg” L. Simay, Assistant General Manager, City of Burbank Water & Power, representing At Large Seat
Bill Walker, Fire Chief, City of Alhambra, representing the Los Angeles Area Fire Chiefs Association
LeRoy J. Jackson, City Manager, City of Torrance, representing At Large Seat

Representatives For Board Members Present:

Patricia “Patty” J. Huber, representing Miguel Santana, for the City of Los Angeles Chief Administrative Office
Ronnie Villanueva, representing James G. Featherstone, for the City of Los Angeles Fire Department
Sandy Jo MacArthur, representing Charles “Charlie” L. Beck, Vice Chair, for the City of Los Angeles Police Department
Mark J. Bennett, representing Daryl L. Osby, for the County of Los Angeles Fire Department
Cathy Chidester, representing Dr. Mitchell H. Katz, for the County of Los Angeles Department of Health Services
Matias Farfan, representing Gerry Miller, for the City of Los Angeles Chief Information Office
Nancy L. Ramirez, representing Steven K. “Steve” Zipperman, for the Los Angeles School Police Department
Scott Edson, representing, John Scott, for the County of Los Angeles Sheriff Department

Officers Present:

Pat Mallon, LA-RICS Executive Director
Rachelle Anema, representing John Naimo, Auditor-Controller, County of Los Angeles
Patricia Saucedo, Board Secretary

Absent:

Mark J. Saladino, Treasurer and Tax Collector, County of Los Angeles

I. CALL TO ORDER

II. ANNOUNCE QUORUM – Roll Call

Chair Bill Fujioka made an acknowledgement that a quorum was present.

III. APPROVAL OF MINUTES – (None)

IV. CONSENT CALENDAR – (None)

V. REPORTS – (1)

1. Committee Reports

a. Finance Committee – Stephen Sotomayor

Stephen Sotomayor, Chair of Finance Committee, stated the Finance Committee reviewed the LA-RICS Funding Plan last week. During this meeting the committee discussed several iterations of the Funding Plan and agreed to recommend to the JPA Board that they extend the “opt out” period to 60 days. This will allow members to move through their political processes to adopt the funding plan and to get through their respective approval authorities. The Committee discussed two alternative plans. One is to look at splitting the costs of the system based on a 50/50 split in geography and population. The other looks at the operational side based upon the number of devices that could be used on the system. The committee’s discussion mainly revolved around the idea that if the devices are used, it provides an opportunity for individuals to only put a few devices; where as a split between geography and population provides a very hard and simple formula for determining responsibility in the share of the costs. The Committee did not make an endorsement of either recommendation due to the fact that the data that was provided in your report today, wasn’t available. That item will be before you today which is that the funding plan move forward. Board Member LeRoy Jackson asked if the 50/50 split, a plan B, is a significant change in the original plan? LeRoy Jackson stated he was looking at it more as a legal question, is it a significant change that has to go back out for an additional comment period. Truc Moore, Counsel of the Authority, stated Section 5.01 of the JPA Agreement states that after the comment period has expired, the Board had several options, including (a) Adopting the Funding Plan as proposed, which was the plan that was circulated to all the Members, or (b) Revising the Funding Plan to address some or all of the Member comments. The Board can adopt Option A or B or (c) Reconsider the Funding Plan at a later date. There is no express requirement that the Board circulate the plan again. The Board is also not prohibited from doing so, but it is not expressly required in the JPA Agreement. Bill Fujioka stated, “we can make a decision today if we choose.” Counsel stated, “That’s right, you can choose to adopt today, or you can choose to circulate it.”

Board Member Mark Alexander stated, “At the last meeting I asked to look at the implications of a 365 day opt out period,” adding that he didn’t see any information related to that in the packet. Truc Moore stated, we did look at the 365 days. A major concern, especially for LTE is, there is a grant match requirement with respect to dollars. With the longer period, you don’t have a full understanding of what the membership looks like. If the majority of the membership were to leave at the end of the 365 days (for example) then it significantly increases the liability for the remaining members. We felt the recommendation of 60 days would give all of the jurisdictions an opportunity to understand and evaluate the plan and take it to their agencies and bring it back within that time period so the JPA Board would have an understanding of how the membership will look after a 60 day period. Mark Alexander stated, that he disagreed. He didn’t think 60 days is enough time for the agencies to fully understand the implications of the plan. He indicated he would be voting “No” on Adoption of the Funding Plan if we stay with the 60 day opt out period. We need a far longer period of time to evaluate the true impacts and what the effects are in the funding plan. I am disappointed that we didn’t look at a much longer period to allow the cities, the agencies to really assess what the implications are.

Board Member Bill Walker stated on the populations, is that calculated on the daily population? Some cities have a lot of flux, like a beach city, where you've got populations that change. So you might have a call volume that is similar to a city with a population of 100,000 but your day population is much less. Derek Wong, PMC, stated population is based on residential for all jurisdictions, except for Cities of Industry and Vernon in which we used a day-time population.

Originally we were looking at call volume, as a basis on use of the system. Population is another way to look at it. But if you have a population flux because you are at the beach with 100,000 people a day, your call volume is similar to a city that has a residential population with much more. Bill Fujioka stated, I want to suggest that, at a three year period (after we turn the system on) we should have some real data to look at and that we relook at the Funding Plan. We look at the actual usage for all the cities and geographic areas and where appropriate, revise it. If after three years we don't have sufficient data, we can extend that one more year. On Mark's issue on the opt out period, we said 60 days, was there something magical about 60 days? I am going to hear a request later for 90 days. What would be the impact if we go longer? If we went 90 days, is that reasonable? Pat Mallon stated the concern with the 365 days is that over the course of the next 13 months, even if you include the month of June, we are going to be expending a significant amount of the grant funds and we have to match it at 10%. Thee concern is if you wait until 365 days and someone opts out at 365 days, those that remain may be dramatically impacted by the match requirement. Alternate Board Member Patty Huber stated, as I recall during this opt out period, none of the jurisdictions actually become obligated for any of the costs incurred during that period, correct? Pat Mallon stated correct. Ms. Huber went on to state with the 365 day period means that somebody could opt out in a year and other people have made a decision and suddenly now, somebody has to be paying cost for a year? Mark Alexander stated, I am not hard and fast on 365 days, but I am on giving the cities sufficient time to understand what the implications of this are. It may be 180 days, I don't know. But, you just answered my question, in one respect. You said that there is a 10% match. We don't know what that means to the Cities. I can't tell my contract cities what this is going to cost them to this day. So 10% of the match, what does that mean to the contract cities? To the agencies that are participating? We don't know the answer to that.

Board Member Greg Simay stated just to answer your question Burbank, for example, has an employment population that is close to its residential population. In the Finance Committee, we always had the principal that cost drivers should pay. There are two compounding factors. One has been mentioned, however, the data was inconsistent. We didn't have enough to really work with; and, two, we're in the middle of a big change in public safety communications.

Communications that in the past might have been radio, voice communications, now instead, there is text communications. So, I don't think the agencies themselves know how far that is going to evolve and a year from now what percentage will be text and what percentage will be voice. In the meantime, if the funding plan is adopted, you are forced to go with some reasonable surrogate that hopefully when you migrate from your best guess to what is actually based on hard data, it is not going to be too much of a shock. Or, if there is a substantial change there would have to be some kind of a transition period. It would be nice to know after year one, then maybe give yourself a year or two or three to gradually move this forward. Alternate Board Member MacArthur stated I agree with you. I think that your plan to reassess this after a year is a good idea.

VI. DISCUSSION ITEM (None)

VII. ADMINISTRATIVE MATTERS (2–5)

2. LA-RICS PROPERTY COVERAGE INSURANCES

It is recommended that your Board:

1. Discuss the following property coverage options for the LA-RICS Joint Powers Authority (JPA):
 - a. Commercial Property Insurance. The Commercial Property Insurance will cover the total replacement value of property at LTE and LMR sites under Alliant Insurance Services (Alliant), who is the property insurance provider for the California Joint Powers Insurance Authority (CJPIA); and,
 - b. Earthquake Insurance. The Earthquake Coverage will be for those specified sites that have been deemed by the California Department of Insurance as located in an Earthquake zone; and,
 - c. Emergency Vehicle Coverage. The Emergency Vehicle Coverage will cover our Site on Wheels (SOW) and our Cell on Wheels (COW) equipment;
2. Provide direction to Authority Staff as to whether the Board would like to pursue and procure each of the types of insurance coverage identified above; and,
3. If the Board would like to procure any of the types of insurance coverage identified above, delegate authority to the Executive Director to complete and maintain the CJPIA Property Schedule (Attachment A) on behalf of the Authority; take all action to procure and maintain this insurance; and, procure the property coverage at the limits specified by the Board with a not-to-exceed cost of \$125,000 per year.

Pat Mallon read the details of agenda item 2.

After a very short discussion, Alternate Board Member Sandy Jo MacArthur motioned to take two out of three items, excluding the Earthquake Insurance, seconded by Alternate Board Member Ron Villanueva, the motion was approved. The Board's consensus was unanimous.

Ayes: 17 – Raney, Pickwith, Iizuka, Alexander, Harrison, Huber, Simay, Walker, Fujioka, Villanueva, Mac Arthur, Bennett, Chidester, Farfan, Ramirez, Jackson, Edson

MOTION APPROVED.

3. APPROVE SITE ACCESS AGREEMENTS WITH THE COUNTY OF LOS ANGELES, CITY OF DIAMOND BAR AND THE CITY OF INDUSTRY

It is recommended that your Board:

- a. Find that the approval and execution of the Site Access Agreements by the LA-RICS Authority does not result in any change to the PSBN project, or to the circumstances under which the project is being undertaken, and that the determination that these activities are exempt from review under the California Environmental Quality Act (CEQA) pursuant to Public Resources Code Section 21080.25, the statutory exemption adopted specifically for the LA-RICS project, remains unchanged.
- b. Authorize the Executive Director to finalize and execute, substantially similar in form, one or more Site Access Agreements with the County of Los Angeles, the City of Industry and

the City of Diamond Bar. These Site Access Agreements are for the Long Term Evolution (LTE) broadband communication sites within their respective jurisdictions.

Pat Mallon read the details of agenda item 3.

Alternate Board Member Sandy Jo MacArthur, seconded by Alternate Board Member Ron Villanueva motioned to approve. The Board's consensus was unanimous.

Ayes: 17 – Raney, Pickwith, Iizuka, Alexander, Harrison, Huber, Simay, Walker, Fujioka, Villanueva, Mac Arthur, Bennett, Chidester, Farfan, Ramirez, Jackson, Edson

MOTION APPROVED.

4. **APPROVE A MEMORANDUM OF UNDERSTANDING FOR USE OF LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM USER EQUIPMENT**

It is recommended that your Board:

Delegate authority to the Executive Director to execute MOUs with member agencies, substantially similar in form to Attachment A, which would allow LA-RICS to loan User Equipment to member agencies approved by the SHSGP Approval Authority.

Pat Mallon read the details of agenda item 4.

Board Member Mark Alexander, seconded by Board Member LeRoy Jackson motioned to approve. The Board's consensus was unanimous.

Ayes: 17 – Raney, Pickwith, Iizuka, Alexander, Harrison, Huber, Simay, Walker, Fujioka, Villanueva, Mac Arthur, Bennett, Chidester, Farfan, Ramirez, Jackson, Edson

MOTION APPROVED.

5. **ADOPTION OF FUNDING PLAN**

It is recommended that your Board:

1. Review the attached recommended Funding Plan options:

a. Proposed Draft Funding Plan A (See formula on Page 3 of this Staff Report)

i. Joint Powers Authority Administration:

- 1) Distribution of 40% of Authority staff and operating costs be based on Authority Members proportional share of countywide population and geography equally split 50%/50% (effective FY 2014/2015).

ii. LTE System Operating Costs include additional maintenance costs for Home Subscriber Services (HSS) and the Redundant Evolved Packet Core and exclude Capital Replacement Reserve and be based on the following criteria:

- 1) The cost of operation during the first year of operation (FY 2015/16) is based on:
 - a) Distribution of 30% of Authority staffing and LTE system operational costs and fiber connectivity operational costs, if applicable, based on the average number of data devices in use.
 - b) Hard Match contribution be based on Authority Members proportional share of countywide population and geography equally split 50%/50%.

- 2) The cost of operation during the second and subsequent years of operation (effective FY 2016/17) is based on:
 - a) Distribution of 30% of Authority staffing and LTE system operational costs and full cost of LTE system maintenance (including leased fiber connectivity, if applicable) based on the average number of data devices in use.
 - b) Hard Match contribution based on members proportional share of countywide population and geography equally split 50%/50%.
 - 3) Cost of operation during years following the extinguishment of commercial financing will continue as reflected above with the exception of Hard Match contribution.
- iii. LMR System Operating Costs be based on the following criteria:
- 1) Consideration of LMR System Operating Costs will be the subject of a revision to the Funding Plan released prior to the activation of the system. This in consideration of:
 - a) Execution of the LMR contract is by Phase, with each Phase requiring approval of a Notice to Proceed by the Authority Board of Directors.
 - b) Sufficient funding for each Phase must be demonstrated to the Authority Board of Directors before such consideration.
 - i) Individual Notices to Proceed may be authorized by the Board of Directors on a Site by Site basis, depending on funding availability.
 - ii) Any decrease or suspension in grant funding which might subject Authority Members to an increased substantial financial liability should be evaluated by the Board to determine whether a revised Funding Plan should be adopted, and if one is adopted, will trigger an additional 45 day Opt-Out Period.
 - iii) The LMR contract provides for termination for non-appropriation of funds, thus further protecting Authority Members from further liabilities being incurred that cannot be addressed via revision to the Funding Plan.
 - 2) The Detailed Design of the LMR system is currently in progress.
 - i) The inability to achieve maximum benefit from some of the designated sites is resulting in site substitution and/or additions. This may result in an adjustment of maintenance and operating costs.
 - ii) Changes in LMR technology during the design phase which warrant reconfiguration of operational aspects may result in a change to the costs allocated to Authority Members.
 - iii) An updated analysis of projected maintenance and operating costs may also result in a change to the costs allocated to Authority Members.

3) The Detailed Design of the LMR system is currently in progress.

- iv) The inability to achieve maximum benefit from some of the designated sites is resulting in site substitution and/or additions. This may result in an adjustment of maintenance and operating costs.
- v) Changes in LMR technology during the design phase which warrant reconfiguration of operational aspects may result in a change to the costs allocated to Authority Members.
- vi) An updated analysis of projected maintenance and operating costs may also result in a change to the costs allocated to Authority Members.

b. Proposed Draft Funding Plan B (See formula on Page 4 of this Staff Report)

All cost for operation of the Authority and both LTE and LMR system costs, including system administration, hard match (LTE), operations and Maintenance and Capital Replacement (LMR) will be distributed among Authority Members based on the following cost factors:

- i. Population – 50%
- ii. Geography – 50%

- 2. Adopt Proposed Funding Plan Option A OR Option B; and,
- 3. Delegate Authority to the Executive Director, or his Designee, to notify Authority Members pursuant to Section 7.01 of the LA-RICS Joint Powers Agreement, of adoption of the Funding Plan, and provide a copy of the same by no later than June 2, 2014; and,
- 4. Designate Wednesday August 1, 2014 (60 days) as the deadline for Authority Members to submit written notice of withdrawal from the Authority, if that is their governing body's determination.

Chair Bill Fujioka stated that the Funding Plan will be revisited again after three years to make some comparisons on up-to-date-populations, to see if it is working, to see if it is equitable, and to develop options of extending the data timeline for more review. Pat Mallon followed by reading the details of agenda item 5.

[Speaker Card] Mr. Kit Fox, City of Rancho Palos Verdes, stated he appreciated the comments made from Board Member Mark Alexander and further suggested that the Board consider extending the Opt Out Period from 60 days to at least 90 days or anything longer than that.

After some discussion on this matter, Chair Bill Fujioka requested a motion to extend the Opt Out period to 180 days. Board Member Mark Alexander, seconded by Board Member LeRoy Jackson motioned to approve. The Board's consensus was unanimous.

Ayes: 17 – Raney, Pickwith, Iizuka, Alexander, Harrison, Huber, Simay, Walker, Fujioka, Villanueva, MacArthur, Bennett, Chidester, Farfan, Ramirez, Jackson, Edson

MOTION APPROVED.

Chair Bill Fujioka requested a motion to approve Option B. Alternate Board Member Patty Huber, seconded by Alternate Member Sandy Jo MacArthur motioned to approve. Pat Mallon pursued a roll call for Option B of the Funding Plan, the motion was approved. The Board's consensus was as follows:

Ayes: 12 – Webster, Pickwith, Alexander, Huber, Fujioka, Villanueva, MacArthur, Bennett, Chidester, Farfan, Ramirez, Edson

Noes: 5 – Iizuka, Harrison, Simay, Walker, Jackson

MOTION APPROVED.

VIII. CLOSED SESSION REPORT – (None)

IX. MISCELLANEOUS – (None)

X. PUBLIC COMMENTS

See [Speaker Card] noted in item 5.

XI. ITEMS FOR FUTURE DISCUSSION AND/OR ACTION BY THE BOARD

XII. ADJOURNMENT

Chair Fujioka announced adjournment of this meeting. The Board Members unanimously favored this motion and adjourned. The next Board meeting will be held on Thursday, June 5, 2014, at the Grace E. Simons Lodge.

**LOS ANGELES REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM (LA-RICS)
USER AGREEMENT**

This User Agreement ("**Agreement**") is hereby entered into on _____
[DATE] by and between the Los Angeles Regional Interoperable Communications
System (LA-RICS) Authority, referred to herein as "**Authority**" and the
_____ referred to herein as "**User**." Together, Authority and User shall
collectively be referred to as the "Parties."

RECITALS

WHEREAS, the LA-RICS Land Mobile Radio System (**LMR System**) is a countywide
trunked and conventional radio system designed to provide local, state, and federal
public-safety first-responders the ability to seamlessly communicate intra-agency and
inter-agency across the County of Los Angeles.

WHEREAS, the LMR System operates in multiple frequency bands utilizing Project 25
digital and conventional analog technology to provide portable-on-the-hip outdoor radio
coverage throughout the County of Los Angeles as depicted in coverage maps.

WHEREAS, to allow other standalone and/or "regional" systems to expand and enhance
their existing coverage when roaming outside those systems coverage footprint, the LMR
System is capable of linking with other P25 trunked radio systems.

WHEREAS, the LMR System is managed by the Authority and Authority is responsible
for engineering, maintaining, and operating the LMR System.

WHEREAS, certain agencies like User, would like to utilize the LMR System either as
subscribers who desire to utilize the LMR System for their primary radio communications
("**Subscriber(s)**"), or affiliates who desire to utilize the LMR System only for mutual or
automatic aid ("**Affiliate(s)**"), and shall do so by entering into this Agreement with
Authority.

WHEREAS, Authority wishes to enter into this Agreement to provide use of its LMR
System for operational usage to Subscribers and Affiliates, and other LMR System users
as authorized by Authority, for operational purposes.

WHEREAS, User desires to enter into this Agreement to use the LMR System, as a
Subscriber, to support its mission and operations.

NOW, THEREFORE, it is mutually agreed between the Parties hereto as follows:

AGREEMENT

Under this Agreement, Authority shall provide radio communications to User through the
LMR System. Such services shall be provided based solely on the terms and conditions
set forth herein.

1. AUTHORITY RESPONSIBILITIES

User will be using the LMR System as a Subscriber. Given User is a Subscriber, Authority hereby agrees:

- 1.1. To provide public safety LMR System radio communications service 24 hours a day, 7 days a week, 365/366 days a year to Subscriber.
- 1.2. To minimize system infrastructure down time while LMR System maintenance is performed. Planned outages for scheduled maintenance for LMR System will be addressed pursuant to Exhibit A (LA-RICS Radio Use Protocols), in particular, Section 2 (Service Impact Outage Notifications).
- 1.3. To provide to Subscriber a minimum of one (1) dedicated trunked radio Talkgroup. Please refer to Exhibit B (Talkgroup Details) of this Agreement.
- 1.4. To charge a monthly Subscriber fee per device that has access or utilizes the LMR System, which can include radios, consoles, consolettes, modems, and other equipment (collectively hereinafter "Radio(s)"). Additionally, this includes devices that utilize the LMR System either directly or indirectly, such as smartphones with Push-to-Talk (PTT) functionality. The total monthly cost to Subscriber will be based on the number of Radios subscribed on the LMR System by the Subscriber at the beginning of each monthly billing period pursuant to Section 3 (Billing). Please refer to Exhibit C (LMR System Rate Schedule).
- 1.5. Cache units are activated units on the LMR System but used as spare units by Subscriber. Subscriber's cache units will only be charged when such cache units are brought into use on the LMR System and charged in accordance with Section 1.4.

Authority will perform periodic audits of Radios used on the LMR System and will confirm with Subscriber when cache Radios have become active Radios.

2. USER RESPONSIBILITIES

User is a Subscriber and hereby agrees:

- 2.1. To pay Authority all fees for the LMR System services in the agreed upon timeframe defined in Section 3 (Billing) of this Agreement.
- 2.2. To keep Authority apprised as to the number of Subscriber Radios utilizing the LMR System. Activated Radios not removed from the LMR System by Subscriber shall continue to be charged to Subscriber at the agreed upon service rate.

- 2.2.1. Subscriber shall notify Authority within fifteen (15) days if there is a change to the number of Subscriber radios set forth in Exhibit C (LMR System Rate Schedule) as referenced in Section 1.4 of this Agreement.
- 2.3. To program and maintain equipment operating on the LMR System to applicable FCC Title 47 Part 90 Code of Federal Regulations at:

<https://www.fcc.gov/wireless/bureau-divisions/technologies-systems-and-innovation-division/rules-regulations-title-47>
 - 2.3.1. Subscriber shall be responsible for the installation, maintenance, repairs, and software upgrades required of Subscriber-owned radio equipment including dispatch consoles, base stations, mobile radios, and portable radios. If a Subscriber does not have the resources for installing, maintaining, or repairing the Subscriber-owned equipment, then Subscriber may enter into a separate agreement for required services with Authority.
 - 2.3.2. Subscriber is responsible for ensuring that Federal Communications Commission (FCC) licensing is maintained for Subscriber's fixed equipment operating on the LMR System frequencies.
- 2.4. Subscriber enters into this Agreement with the understanding and acknowledgement that Subscriber is responsible for training and educating its users regarding the proper use of Radios on the LMR System.
 - 2.4.1. Subscriber enters into this Agreement with the understanding and acknowledgement that radio conversations conducted on the LMR System may be recorded by Authority. However, Subscriber understands and acknowledges that recording of the Subscriber's Radio audio for Subscriber's use is the responsibility of the Subscriber. For additional information regarding recording, please refer to Exhibit A (LA-RICS Radio Use Protocols), Section 3 (Audio Logging Recorders) of this Agreement.
 - 2.4.2. Subscriber must provide copies of Subscriber's Radio codeplugs for Authority to reference for troubleshooting purposes. Updated codeplugs shall be submitted to Authority prior to distribution of Subscriber's Radios.
 - 2.4.3. It is Subscriber's responsibility to provide written notice to Authority Designated Administrator and/or its Designee as set forth in Section 11.2 of this Agreement, identifying any lost or stolen Radios (type of radio, serial/asset number, description of circumstances related to loss/damage) as soon as possible.

- 2.4.4. It is the responsibility of Subscriber to test radio functions including, but not limited to, emergency alert, roaming, console patch, and other functions deemed necessary and critical to Subscriber's operations.
- 2.5. Subscriber enters into this Agreement with the understanding and acknowledgement that in order to use the trunked voice subsystem of the LMR System, Subscriber will need and use Authority approved and compatible Project 25 (P25) subscriber equipment. In addition, for 700 MHz trunked operation, Subscriber's subscriber equipment must operate in P25 Phase 2 (TDMA) mode.
- 2.6. Not to lease, loan, give or provide in any form Subscriber-owned equipment (i.e. Radios, dispatch consoles, consolettes, modems, and other equipment) operating on the LMR System to any third-party for their use on the LMR System without prior approval from Authority.
- 2.7. To observe and abide by all applicable statutes, laws, ordinances, rules, and regulations, including but not limited to those of the FCC, and to operate the equipment in a reasonable manner so as not to cause undue interference with any other agency participants using the LMR System.
- 2.8. To keep all radio communication brief and to the point. Radio system traffic shall be limited to official business only. Subscriber is responsible for the appropriate use of the system in accordance with the Exhibit A (LA-RICS Radio Use Protocols) to this Agreement.
- 2.9. Subscriber enters into this Agreement with the understanding and acknowledgment that it shall comply with and abide by all applicable operational guidelines, technical specifications, and technical requirements, including cybersecurity, pursuant to the Exhibit A (LA-RICS Radio Use Protocols) to this Agreement, which may be updated from time to time.
- 2.10. Subscriber enters into this Agreement with the understanding and acknowledgment that it shall comply with and abide by all applicable LA-RICS policies related to the use of the LMR System as they are implemented. Authority will notify and provide copies to Subscriber of all such policies.

3. BILLING

- 3.1. If User is a Subscriber, Subscriber agrees to pay Authority monthly on the Commencement Date of this Agreement for the use of the LMR System ("**Monthly Fee(s)**"). The actual amount of Monthly Fees will be determined by the number of active Radios and/or radio equipment registered on the LMR System in accordance with Section 1.4 and Exhibit C (LMR System Rate Schedule) of this Agreement.

- 3.2. Payment of Monthly Fees for Subscribers using the LMR System will be electronically transferred from Subscriber to Authority. The Subscriber is required to complete Section 2 of Exhibit D (County of Los Angeles Treasurer and Tax Collector Authorization for Automated Clearing House (ACH) Credits Form) and share a copy of the confirmation letter from Treasurer and Tax Collector (TTC) for account establishment prior to Commencement Date of this Agreement.
- 3.3. Subscriber will be billed monthly in arrears. Subscriber shall schedule the payment of invoices to Authority no later than thirty (30) days after receipt of said invoice. If errors are found in the invoice or Subscriber disputes the invoice charges or services rendered, Subscriber shall immediately notify Authority in writing. Partial payment of an invoice without Authority's approval is prohibited. Subscriber's failure to make timely payments in compliance with this section may result in action as defined in Section 4 (Right to Suspend and/or Revoke Use of LMR System).
- 3.4. It is Subscriber's responsibility to inform Authority of any changes in service, Radio counts, etc. in accordance with Section 2.2 of this Agreement.

4. RIGHT TO SUSPEND AND/OR REVOKE USE OF LMR SYSTEM

- 4.1. If User is a Subscriber, Authority reserves the right to suspend and/or revoke Subscriber's ability to add/remove equipment, modify existing service or add a new service should Subscriber fail to make timely payment to Authority for the services rendered. If Subscriber fails to make any payment or fails to perform as required by any other provision hereunder, Subscriber will be notified in writing of the violation. Subscriber must correct the violation within 30 days of notice, or Authority may suspend and/or revoke Subscriber's service.
- 4.2. Notwithstanding the above, regardless of whether User is a Subscriber or Affiliate, Authority shall have the right to immediately suspend and/or revoke User's ability to use the LMR System, add/remove Radios, modify existing service or add a new service at any time if User fails to use the LMR System in accordance with rules and regulations of the FCC or if User fails to use the LMR System in accordance with applicable laws and regulations, including the terms of this Agreement, Authority policies or attachments thereto.

5. RADIO PROGRAMMING

- 5.1. All User's Radios shall be programmed for use on the LMR System in accordance with Section 2.3 of this Agreement.

System-soft keys may be provided, in the Authority's sole discretion, to User or independent private service shops providing a programming service to Users for radio programming of the LMR System frequencies into Users

owned equipment (i.e. Radios, dispatch consoles, consolettes, modems, and other equipment). System-soft key requests must be made in writing to Authority. User hereby agrees that system-soft keys will be surrendered immediately, if requested by Authority.

6. COVERAGE

- 6.1. The LMR System operates in multiple frequency spectrum utilizing Project 25 Phase I and II, and conventional analog technology to provide portable-on-the-hip outdoor radio coverage throughout the County of Los Angeles as depicted in coverage maps. User understands and agrees that 100 percent coverage of any area at all times is unrealistic and improbable. Testing and experience with actual field conditions indicate adverse propagation conditions can occur from both natural and man-made conditions. User understands and agrees that such events are beyond the reasonable control of Authority.
- 6.2 User further understands and agrees that Authority is not providing a warranty of coverage for the LMR System.

7. TALKGROUP PRIORITY

User understands and agrees that it may experience limited or no access to the LMR System during an emergency Talkgroup activation. To ensure that first responders have access to the LMR System during normal and emergency situations, Talkgroup access has been prioritized as follows, where User can confer with Authority on Talkgroup priority, but it will be ultimately determined by Authority and the Authority may change priorities during an unusual occurrence, emergency, or disaster:

7.1. Priority One – Emergency

Used only for Emergency Alert/Trigger calls given Priority 1 status automatically by the LMR System's controllers.

7.2. Priority Two – Life Safety and Protection of Life and Property

Used for Talkgroups that have an impact on the delivery of services that involve the safety and the protection of life and property, including those Talkgroups used by personnel involved in high risk and mission critical field operations, inclusive of mutual aid Talkgroups.

7.3. Priority Three – Extraordinary/Temporary

Used for temporary re-prioritization (via system manager terminal) of a lower priority Talkgroup for critical operations (i.e., presidential motorcade, major incident command). In addition, Priority 3 is assigned to dedicated "EMERGENCY ALARM" Talkgroups for agencies such as transit that do not use the Emergency Alert (emergency button) function.

7.4. Priority Four – Medical Priority

Used exclusively for Emergency Medical Services (EMS) providers to communicate with hospitals and/or the Medical Alert Center (MAC) for coordination of patient care and destinations.

7.5. Priority Five – Non-Mission Critical

Used for all other "secondary", "administrative", "non-essential" or "non-mission critical" Talkgroups used by Subscriber agencies, both public safety and general government.

7.6. Additional Priority Levels As Needed – Unassigned

Additional priority levels will be assigned by the Authority, in its sole discretion, as needed.

8. WARRANTIES

Authority warrants that its management and operation of the LMR System will comply with reasonable and standard industry practices.

9. AGREEMENT TERM – AUTOMATIC RENEWAL

9.1. The term of this Agreement shall be for one year or for the portion of the year commencing on the Effective Date of this Agreement and shall automatically renew on July 1st each year thereafter. This Agreement shall automatically extend under the terms and conditions, rates, and charges then in effect for successive one (1) year periods.

9.2. Either party may terminate this Agreement at any time by giving to the other party written notice at least ninety (90) days prior to the desired termination date.

9.3. If User is a Subscriber, the rates, charges, and fees due and payable by Subscriber for any annual extension shall be the same as those during the preceding term unless Authority notifies Subscriber of any changes in the rates, charges, or fees. If, after such notification, Subscriber does not terminate this Agreement and allows it to automatically renew, charges for the next term shall be at the new rates, charges, and fees set out by Authority in its notification prior to the automatic renewal date.

10. INTERRUPTION OF SERVICE

Authority shall not be liable to User, whether a Subscriber or Affiliate, or any other person for any loss of service or damage resulting therefrom, regardless of the cause. Authority does not assume and shall have no liability under this Agreement for failure to provide, or delay in providing, service due directly or indirectly to

causes beyond the control of Authority or its contractors and subcontractors, including, but not limited to, acts of God, acts of Governmental entities, acts of the public enemy, strikes, or severe weather conditions.

11. DESIGNATED ADMINISTRATORS

11.1. The User official specified in this Section 11 (Designated Administrators) is hereby designated as the contact officer for all matters relating to the User's performance of its obligations under this Agreement. Authority shall not take direction from any User's employee or official other than the contact officer (or his/her designee).

- User Designated Administrator:

Agency Name
Administrator Name
Address
Email
Phone number

- User Designated Administrator Designee:

Agency Name
Administrator Designee Name
Address
Email
Phone number

11.2. The contact officer for all matters relating to Authority's performance of its obligations under this Agreement shall be the Executive Director (or his/her designee) as outlined in this Section 11.2.

- Authority Designated Administrator:

LA-RICS
Scott Edson, LA-RICS Executive Director
2525 Corporate Place, Suite 100
Monterey Park, CA 91754
scott.edson@la-rics.org
(323) 881-8281

- Authority Designated Administrator Designee:

LA-RICS
Ronald Watson, Deputy Executive Director
2525 Corporate Place, Suite 100
Monterey Park, CA 91754
ronald.watson@la-rics.org
(323) 881-8296

- LMR System Manager

LA-RICS
Ted Pao
2525 Corporate Place, Suite 200
Monterey Park, CA 91754
tpao@lasd.org
(323) 881-8028

- 11.3. In the event of a dispute between the Parties to this Agreement as to the extent of the duties and functions to be rendered hereunder, or the minimum level or manner of performance of such deployment, the User shall be consulted and a mutual determination thereof shall be made by both the User and Authority.
- 11.4. Authority, in an unresolved dispute, shall have final and conclusive determination as between the Parties hereto.

12. NOTICES

- 12.1. Notices desired or required to be given pursuant to this Agreement or by any law shall be provided in the manner pursuant to this Section 12 (Notices), which may be updated from time to time.
- 12.2. Unless otherwise specified herein, all notices, requests, demands, or other communications required or permitted to be given or made under this Agreement shall be in writing, unless otherwise specified in Exhibit E (Notification Contact List). Notice will be sufficiently given for all purposes as follows:
- a. Personal delivery. When personally delivered to the recipient, notice is effective on delivery.
 - b. First Class mail. When mailed first class to the last known address of the recipient, notice is effective three mail delivery days after deposit in a United States Postal Service office or mailbox.
 - c. Certified mail. When mailed certified, return receipt requested, notice is effective on receipt, if delivery is confirmed by a return receipt.
 - d. Overnight delivery. When delivered by an overnight delivery service, charges prepaid or charged to the sender's account, notice is effective on delivery, if delivery is confirmed by the delivery service.
 - e. Facsimile transmission. When sent by fax to the last known fax number of the recipient, notice is effective on receipt. Any notice given

by fax will be deemed received on the next business day if it is received after 5:00 p.m. or on a non-business day.

- f. Email. When sent by email, notice is effective on receipt. Any notice given by email will be deemed received on the next business day if it is received after 5:00 p.m. or on a non-business day.

12.3. Any correctly addressed notice that is refused, unclaimed, or undeliverable because of an act or omission of the Party to be notified, will be deemed effective as of the first date the notice was refused, unclaimed or deemed undeliverable by the postal authorities, messenger or overnight delivery service.

12.4. Addresses and persons to be notified may be changed by either Party by giving ten (10) calendar days prior written notice thereof to the other Party.

13. DISCLAIMERS

13.1 User accepts the LMR System as-is, and assumes all risks and resulting liabilities, both known or unknown to User, arising from or connected with use of the LMR System, or as it relates to any obligations, terms or conditions in this Agreement.

13.2 Authority and its member agencies in the JPA, disclaims any and all express and implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose, for the LMR System provided by this Agreement. The Authority and its member agencies in the JPA, expressly disclaims and shall not be liable to the User for any and all losses or liabilities resulting from use of the LMR System or arising from or related to any obligations, terms or conditions in this Agreement, and User hereby waives all claims and recourse against the Authority and its member agencies in the JPA, except from claims arising from, and to the extent of, the sole gross negligence or willful misconduct of the Authority, its member agencies in the JPA, its directors, officers, contractors, subcontractors, staff and agents.

14. INDEPENDENT STATUS

This Agreement is by and between User and Authority and is not intended and shall not be construed to create the relationship of agent, servant, employee, partnership, joint venture or association as between User and Authority.

15. ASSIGNMENT

This Agreement is personal to Authority and the User, and, in the event the User shall attempt to assign or transfer the same in whole or in part, all rights hereunder shall immediately terminate. Authority, may however, assign this Agreement to any

one of its member agencies in the JPA without prior consent of User, so long as such member agency agrees to perform and fulfill Authority's obligations herein.

16. DEFAULT

Parties agree that if there is any default by either Party of the terms or conditions herein contained, the non-defaulting Party may forthwith revoke and terminate this Agreement.

17. WAIVER

17.1. Any waiver by either Party of the breach of any one or more of the covenants, conditions, terms and Agreement's herein contained shall not be construed to be a waiver of any other breach of the same or of any other covenant, condition, term or Agreement herein contained, nor shall failure on the part of either Party to require exact, full, and complete compliance with any of the covenants, conditions, terms, or Agreements herein contained be construed as in any manner changing the terms of this Agreement or stopping either Party from enforcing the full provisions thereof.

17.2. No option, right, power, remedy, or privilege of either Party shall be construed as being exhausted by the exercise thereof in one or more instances. The rights, powers, options, and remedies given either Party by this Agreement shall be cumulative.

18. INTERPRETATION

Unless the context of this Agreement clearly requires otherwise: (i) the plural and singular numbers shall be deemed to include the other; (ii) the masculine, feminine, and neuter genders shall be deemed to include the others; (iii) "or" is not exclusive; and (iv) "includes" and "including" are not limiting. Further, captions and section headings used in this Agreement are for convenience only and are not a part of this Agreement and shall not be used in construing this Agreement. Finally, this Agreement is the product of arm's length negotiation between User and Authority, where each Party has had the opportunity to receive advice from independent counsel of its own choosing. This Agreement is to be interpreted as if both Parties participated equally in its drafting and shall not be construed against either Party.

19. GOVERNING LAW, JURISDICTION, AND VENUE

This Agreement shall be governed by, and construed in accordance with, the laws of the State of California. The Parties agree and consent to the exclusive jurisdiction of the courts of the State of California for all purposes regarding this Agreement and further agree and consent that venue of any action brought hereunder shall be exclusively in the County of Los Angeles.

20. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to conform to the terms and requirements of applicable law.

21. FACSIMILE REPRESENTATIONS

User and Authority hereby agree to regard facsimile representations of original signatures of authorized officers of each Party, when appearing in appropriate places on the Agreement and/or amendments to the Agreement, and received via electronic mail transmission or communications facilities, as legally sufficient evidence that such original signatures have been affixed to the Agreement and/or any amendments to this Agreement, such that the Parties need not follow up facsimile transmissions of such documents with subsequent (non-facsimile) transmission of "original" versions of such documents.

22. AMENDMENTS

All changes, modifications, or amendments to this Agreement must be in the form of a written Amendment duly executed by authorized representatives of Authority and User.

23. ENTIRE AGREEMENT

This Agreement, Exhibit A (LA-RICS Radio Use Protocols), Exhibit B (Talkgroup Details), Exhibit C (LMR System Rate Schedule), Exhibit D (Los Angeles County Treasurer and Tax Collector Authorization for Automated Clearing House (ACH) Credits Form), Exhibit E (Notification Contact List), and any executed Amendments, between the Parties hereto, and no addition or modification of any terms or provisions shall be effective unless set forth in writing, signed by both User and Authority.

(Signature Page – following page)

WITNESS WHEREOF, this Agreement has been executed by the Parties hereto as of date written below:

**LOS ANGELES
REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM
AUTHORITY**

USER

Signature

Date

LA-RICS RADIO USE PROTOCOLS

This purpose of this exhibit is to set forth the protocols the User will adhere to when using the LMR System.

1. GENERAL USE PROTOCOLS

- 1.1 Misuse of the LMR System will be reported to Authority's LMR System Manager to handle directly with the User department head, or his/her designee. The reporting party's contact information should be provided in the notification. Profanity, playing music, personal conversations, intentional jamming, activities not directly related to public safety operations or any violation of the rules of the United States Federal Communications Commission (FCC) will not be permitted on the LMR System.
- 1.2 While using the LMR System, Users' users should follow proper radio etiquette by keeping conversations concise, brief, and clear.
- 1.3 Users utilizing the LMR System must abide by all FCC regulations as codified in the US Code Title 47, Part 90 (47CFR90), Land Mobile Communications.

2. SERVICE IMPACT OUTAGE NOTIFICATIONS

2.1 Purpose or Objective

Establishes the notification procedure prior to system upgrades.

2.2 Protocol/Standard

System software upgrades will be performed based on the LA-RICS System Upgrade Agreement (SUA) with service provider and when determined by LA-RICS to best implement the upgrade(s). System services patches are performed per service provider recommendation.

All Users using the System will be notified at least thirty (30) days prior to a major system upgrade that will cause a system or site outage. Any User must notify LA-RICS in writing within ten (10) days of notification if this would interfere with any major planned events or exercises.

Scheduled system repairs, and patches impacting services to Users shall be coordinated 72 hours prior to the start of work by LMR System Manager's written notification. Unplanned outages impacting services shall be notified by the LA-RICS LMR NOC to impacted user agencies in accordance with the established Emergency Change process.

All Users using the System must have governance agreements in place to address the timing of system upgrades.

2.3 Recommended Procedure

The LA-RICS NOC shall be responsible for distributing a written notification or email to all Users contacts listed in Exhibit E (Notification Contact List) that may be impacted by the upgrade.

3. AUDIO LOGGING RECORDERS

3.1 Purpose or Objective

Establishes the procedure for the use and access of system audio logging devices.

3.2 Technical Background

A System Audio Logging Recorder allows all voice radio traffic to be recorded and stored for future reference.

All Talkgroups are recorded and maintained by LA-RICS for a period of not less than ninety (90) days. A Talkgroup does not need to be selected or active at a console position to be recorded.

Advanced Encryption Standard (AES) Encrypted calls are recorded, however, if the encryption key is not installed into the system, those recordings are unusable until the key is provided.

3.3 Protocol/Standard

User understands and acknowledges that recording of the User's radio audio for User's use is the responsibility of the User. The LA-RICS recording system will record all voice traffic. User will have access to those recordings for a period of ninety (90) days. After ninety (90) days, the recordings may be overwritten. If a User needs access to their Talkgroup recordings for a period longer than ninety (90) days, the User must download and store their own recordings.

Users directly requesting a copy, or if requesting a copy on behalf of a Public Records Access request, of any LA-RICS logged radio traffic for a Talkgroup, or channel other than their own should make their request to their respective agency Administrator managing the logging system. The agency Administrator can forward the request to the LMR System Manager as appropriate. The request should include specific information detailing the Talkgroup/channel, radio user(s), radio ID, time of day, and any other information that would help in processing the request.

Users shall operate their own logging recorders that meet their business and recording retention policy requirements.

Each User utilizing logging recorders to record audio from their agency's Talkgroups is responsible for adhering to their internal procedures with regard to:

- Retention schedule for radio system recordings in compliance with State Records Retention requirements
- Responding to public records requests for copies of audio recordings for radio traffic on **THEIR** agency-owned Talkgroups or channels
- Providing radio system recordings as requested by the judicial system
- Providing duplicate recordings upon request for internal User use, investigative purposes, training, etc.
- Establishing a data storage and backup system for radio system audio recordings

3.4 Procedure

Requests for audio records should be directed to the specific agency Administrator managing the logging system.

3.5 Management

The LMR System Manager is responsible for this policy. Each User is responsible for the operation and data back-up of their agency-owned logging system for their agency-owned Talkgroups or interoperability Talkgroups on their radio console. Shared, non-owned Talkgroups are the responsibility of any User that uses it for a resource on their dispatch console.

TALKGROUP DETAILS

(Talkgroup Details to be negotiated with Subscriber prior to execution of Agreement)

Parties shall agree on the specific Subscriber Talkgroup details prior to execution of the Agreement. Such Talkgroup details shall be consistent with the Exhibit A (LA-RICS Radio Use Protocols) as follows:

1. Talkgroups will be assigned, activated, and deactivated by the Authority based on Subscriber need and available system resources.
2. Such Talkgroups shall adhere to standardized and common naming conventions pursuant to Exhibit A (LA-RICS Radio Use Protocols).
3. Subscribers may only use the Talkgroup IDs assigned by Authority staff for use on the LMR System.
4. In the event that Subscriber requires additional Talkgroups beyond those allocated, Subscriber must submit a written request to the LA-RICS Help Desk set forth in this Exhibit E (Notification Contact List). Subscriber should provide reasonable justification in the written request for individual Talkgroups, along with any requires such as encryption or special functions. The request will be reviewed and Authority staff with work with Subscriber to provide additional Talkgroups if such request is approved.
5. Authority staff will monitor use of the Talkgroups allocated to Subscriber. If a Talkgroup has shown no usage in a minimum of 180 days, written notification will be sent to the Subscriber and the Talkgroup may be reclaimed.

**LOS ANGELES REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM (LA-RICS)
USER AGREEMENT**

This User Agreement ("**Agreement**") is hereby entered into on _____
[DATE] by and between the Los Angeles Regional Interoperable Communications
System (LA-RICS) Authority, referred to herein as "**Authority**" and the
_____ referred to herein as "**User**." Together, Authority and User shall
collectively be referred to as the "Parties."

RECITALS

WHEREAS, the LA-RICS Land Mobile Radio System (**LMR System**) is a countywide
trunked and conventional radio system designed to provide local, state, and federal
public-safety first-responders the ability to seamlessly communicate intra-agency and
inter-agency across the County of Los Angeles.

WHEREAS, the LMR System operates in multiple frequency bands utilizing Project 25
digital and conventional analog technology to provide portable-on-the-hip outdoor radio
coverage throughout the County of Los Angeles as depicted in coverage maps.

WHEREAS, to allow other standalone and/or "regional" systems to expand and enhance
their existing coverage when roaming outside those systems coverage footprint, the LMR
System is capable of linking with other P25 trunked radio systems.

WHEREAS, the LMR System is managed by the Authority and Authority is responsible
for engineering, maintaining, and operating the LMR System.

WHEREAS, certain agencies like User, would like to utilize the LMR System either as
subscribers who desire to utilize the LMR System for their primary radio communications
("**Subscriber(s)**"), or affiliates who desire to utilize the LMR System only for mutual or
automatic aid ("**Affiliate(s)**"), and shall do so by entering into this Agreement with
Authority.

WHEREAS, Authority wishes to enter into this Agreement to provide use of its LMR
System for operational usage to Subscribers and Affiliates, and other LMR System users
as authorized by Authority, for operational purposes.

WHEREAS, User desires to enter into this Agreement to use the LMR System, as a
Affiliate, to support its mission and operations.

NOW, THEREFORE, it is mutually agreed between the Parties hereto as follows:

AGREEMENT

Under this Agreement, Authority shall provide radio communications to User through the
LMR System. Such services shall be provided based solely on the terms and conditions
set forth herein.

1. AUTHORITY RESPONSIBILITIES

User will be using the LMR System as an Affiliate. Given User is an Affiliate, Authority hereby agrees:

- 1.1. To provide public safety LMR System radio communications service 24 hours a day, 7 days a week, 365/366 days a year to Affiliate for emergency and mutual aid purposes only, and roaming when permitted by the Authority.

2. USER RESPONSIBILITIES

User is an Affiliate and hereby agrees:

- 2.1. To register all of Affiliates radios, consoles, and consolettes (collectively hereinafter "Radio(s)"), that may be used on the LMR System for emergency and mutual aid purposes on Exhibit C (Affiliate Radios). Affiliate shall keep Authority apprised as to the number of Affiliate Radios utilizing the LMR System.
 - 2.1.1. Affiliate shall notify Authority within fifteen (15) days if there is a change to the Affiliate Radios set forth in Exhibit C (Affiliate Radios).
- 2.2. To program and maintain equipment operating on the LMR System to applicable FCC Title 47 Part 90 Code of Federal Regulations at:
<https://www.fcc.gov/wireless/bureau-divisions/technologies-systems-and-innovation-division/rules-regulations-title-47>
 - 2.2.1. Affiliate shall be responsible for the installation, maintenance, repairs, and software upgrades required of Affiliate-owned radio equipment including dispatch consoles, base stations, mobile radios, and portable radios.
 - 2.2.2. Affiliate is responsible for ensuring that Federal Communications Commission (FCC) licensing is maintained for Affiliate's fixed equipment operating on the LMR System frequencies.
- 2.3. Affiliate enters into this Agreement with the understanding and acknowledgement that Affiliate is responsible for training and educating its users regarding the proper use of Radios on the LMR System.
 - 2.3.1. Affiliate enters into this Agreement with the understanding and acknowledgement that radio conversations conducted on the LMR System may be recorded by Authority. However, Affiliate understands and acknowledges that recording of the Affiliate's

radio audio for Affiliate's use is the responsibility of the Affiliate. For additional information regarding recording, please refer to Exhibit A (LA-RICS Radio Use Protocols), Section 3 (Audio Logging Recorders) of this Agreement.

- 2.3.2. Affiliate must provide copies of Affiliate's Radio codeplugs for Authority to reference for troubleshooting purposes, as needed.
- 2.3.3. It is Affiliate's responsibility to provide written notice to Authority Designated Administrator and/or its Designee as set forth in Section 11.2 of this Agreement, identifying any lost or stolen Radios (type of radio, serial/asset number, description of circumstances related to loss/damage) as soon as possible.
- 2.3.4. It is the responsibility of Affiliate to test radio functions including, but not limited to, emergency alert, roaming, console patch, and other functions deemed necessary and critical to Affiliate's operations.
- 2.4. Affiliate enters into this Agreement with the understanding and acknowledgement that in order to use the trunked voice subsystem of the LMR System, Affiliate will need and use Authority approved and compatible Project 25 (P25) Affiliate equipment. In addition, for 700 MHz trunked operation, Affiliate's Affiliate equipment must operate in P25 Phase 2 (TDMA) mode.
- 2.5. Not to lease, loan, give or provide in any form Affiliate-owned equipment (i.e. Radios, dispatch consoles, consolettes, modems, and other equipment) operating on the LMR System to any third-party for their use on the LMR System without prior approval from Authority.
- 2.6. To observe and abide by all applicable statutes, laws, ordinances, rules, and regulations, including but not limited to those of the FCC, and to operate the equipment in a reasonable manner so as not to cause undue interference with any other agency participants using the LMR System.
- 2.7. To keep all radio communication brief and to the point. Radio system traffic shall be limited to official business only. Affiliate is responsible for the appropriate use of the system in accordance with the Exhibit A (LA-RICS Radio Use Protocols) to this Agreement.
- 2.8. Affiliate enters into this Agreement with the understanding and acknowledgment that it shall comply with and abide by all applicable operational guidelines, technical specifications, and technical requirements, including cybersecurity, pursuant to the Exhibit A (LA-RICS Radio Use Protocols) to this Agreement, which may be updated from time to time.

- 2.9. Affiliate enters into this Agreement with the understanding and acknowledgment that it shall comply with and abide by all applicable LA-RICS policies related to the use of the LMR System as they are implemented. Authority will notify and provide copies to Affiliate of all such policies.

3. RESERVED

4. RIGHT TO SUSPEND AND/OR REVOKE USE OF LMR SYSTEM

- 4.1. If User is a Subscriber, Authority reserves the right to suspend and/or revoke Subscriber's ability to add/remove equipment, modify existing service or add a new service should Subscriber fail to make timely payment to Authority for the services rendered. If Subscriber fails to make any payment or fails to perform as required by any other provision hereunder, Subscriber will be notified in writing of the violation. Subscriber must correct the violation within 30 days of notice, or Authority may suspend and/or revoke Subscriber's service.
- 4.2. Notwithstanding the above, regardless of whether User is a Subscriber or Affiliate, Authority shall have the right to immediately suspend and/or revoke User's ability to use the LMR System, add/remove Radios, modify existing service or add a new service at any time if User fails to use the LMR System in accordance with rules and regulations of the FCC or if User fails to use the LMR System in accordance with applicable laws and regulations, including the terms of this Agreement, Authority policies or attachments thereto.

5. RADIO PROGRAMMING

- 5.1. All User's Radios shall be programmed for use on the LMR System in accordance with Section 2.2 of this Agreement.

System-soft keys may be provided, in the Authority's sole discretion, to User or independent private service shops providing a programming service to Users for radio programming of the LMR System frequencies into Users owned equipment (i.e. Radios, dispatch consoles, consolettes). System-soft key requests must be made in writing to Authority. User hereby agrees that system-soft keys will be surrendered immediately, if requested by Authority.

6. COVERAGE

- 6.1. The LMR System operates in multiple frequency spectrum utilizing Project 25 Phase I and II, and conventional analog technology to provide portable-on-the-hip outdoor radio coverage throughout the County of Los Angeles as depicted in coverage maps. User understands and agrees that 100 percent coverage of any area at all times is unrealistic and improbable. Testing and

experience with actual field conditions indicate adverse propagation conditions can occur from both natural and man-made conditions. User understands and agrees that such events are beyond the reasonable control of Authority.

- 6.2 User further understands and agrees that Authority is not providing a warranty of coverage for the LMR System.

7. RESERVED

8. WARRANTIES

Authority warrants that its management and operation of the LMR System will comply with reasonable and standard industry practices.

9. AGREEMENT TERM – AUTOMATIC RENEWAL

- 9.1. The term of this Agreement shall be for one year or for the portion of the year commencing on the Effective Date of this Agreement and shall automatically renew on July 1st each year thereafter. This Agreement shall automatically extend under the terms and conditions, rates, and charges then in effect for successive one (1) year periods.
- 9.2. Either party may terminate this Agreement at any time by giving to the other party written notice at least ninety (90) days prior to the desired termination date.
- 9.3. If User is a Subscriber, the rates, charges, and fees due and payable by Subscriber for any annual extension shall be the same as those during the preceding term unless Authority notifies Subscriber of any changes in the rates, charges, or fees. If, after such notification, Subscriber does not terminate this Agreement and allows it to automatically renew, charges for the next term shall be at the new rates, charges, and fees set out by Authority in its notification prior to the automatic renewal date.

10. INTERRUPTION OF SERVICE

Authority shall not be liable to User, whether a Subscriber or Affiliate, or any other person for any loss of service or damage resulting therefrom, regardless of the cause. Authority does not assume and shall have no liability under this Agreement for failure to provide, or delay in providing, service due directly or indirectly to causes beyond the control of Authority or its contractors and subcontractors, including, but not limited to, acts of God, acts of Governmental entities, acts of the public enemy, strikes, or severe weather conditions.

11. DESIGNATED ADMINISTRATORS

11.1. The User official specified in this Section 11 (Designated Administrators) is hereby designated as the contact officer for all matters relating to the User's performance of its obligations under this Agreement. Authority shall not take direction from any User's employee or official other than the contact officer (or his/her designee).

- User Designated Administrator:

Agency Name
Administrator Name
Address
Email
Phone number

- User Designated Administrator Designee:

Agency Name
Administrator Designee Name
Address
Email
Phone number

11.2. The contact officer for all matters relating to Authority's performance of its obligations under this Agreement shall be the Executive Director (or his/her designee) as outlined in this Section 11.2.

- Authority Designated Administrator:

LA-RICS
Scott Edson, LA-RICS Executive Director
2525 Corporate Place, Suite 100
Monterey Park, CA 91754
scott.edson@la-rics.org
(323) 881-8281

- Authority Designated Administrator Designee:

LA-RICS
Ronald Watson, Deputy Executive Director
2525 Corporate Place, Suite 100
Monterey Park, CA 91754
ronald.watson@la-rics.org
(323) 881-8296

- LMR System Manager

LA-RICS
Ted Pao
2525 Corporate Place, Suite 200
Monterey Park, CA 91754
tpao@lasd.org
(323) 881-8028

- 11.3. In the event of a dispute between the Parties to this Agreement as to the extent of the duties and functions to be rendered hereunder, or the minimum level or manner of performance of such deployment, the User shall be consulted and a mutual determination thereof shall be made by both the User and Authority.
- 11.4. Authority, in an unresolved dispute, shall have final and conclusive determination as between the Parties hereto.

12. NOTICES

- 12.1. Notices desired or required to be given pursuant to this Agreement or by any law shall be provided in the manner pursuant to this Section 12 (Notices), which may be updated from time to time.
- 12.2. Unless otherwise specified herein, all notices, requests, demands, or other communications required or permitted to be given or made under this Agreement shall be in writing, unless otherwise specified in Exhibit E (Notification Contact List). Notice will be sufficiently given for all purposes as follows:
- a. Personal delivery. When personally delivered to the recipient, notice is effective on delivery.
 - b. First Class mail. When mailed first class to the last known address of the recipient, notice is effective three mail delivery days after deposit in a United States Postal Service office or mailbox.
 - c. Certified mail. When mailed certified, return receipt requested, notice is effective on receipt, if delivery is confirmed by a return receipt.
 - d. Overnight delivery. When delivered by an overnight delivery service, charges prepaid or charged to the sender's account, notice is effective on delivery, if delivery is confirmed by the delivery service.
 - e. Facsimile transmission. When sent by fax to the last known fax number of the recipient, notice is effective on receipt. Any notice given

by fax will be deemed received on the next business day if it is received after 5:00 p.m. or on a non-business day.

- f. Email. When sent by email, notice is effective on receipt. Any notice given by email will be deemed received on the next business day if it is received after 5:00 p.m. or on a non-business day.

12.3. Any correctly addressed notice that is refused, unclaimed, or undeliverable because of an act or omission of the Party to be notified, will be deemed effective as of the first date the notice was refused, unclaimed or deemed undeliverable by the postal authorities, messenger or overnight delivery service.

12.4. Addresses and persons to be notified may be changed by either Party by giving ten (10) calendar days prior written notice thereof to the other Party.

13. DISCLAIMERS

13.1 User accepts the LMR System as-is, and assumes all risks and resulting liabilities, both known or unknown to User, arising from or connected with use of the LMR System, or as it relates to any obligations, terms or conditions in this Agreement.

13.2 Authority and its member agencies in the JPA, disclaims any and all express and implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose, for the LMR System provided by this Agreement. The Authority and its member agencies in the JPA, expressly disclaims and shall not be liable to the User for any and all losses or liabilities resulting from use of the LMR System or arising from or related to any obligations, terms or conditions in this Agreement, and User hereby waives all claims and recourse against the Authority and its member agencies in the JPA, except from claims arising from, and to the extent of, the sole gross negligence or willful misconduct of the Authority, its member agencies in the JPA, its directors, officers, contractors, subcontractors, staff and agents.

14. INDEPENDENT STATUS

This Agreement is by and between User and Authority and is not intended and shall not be construed to create the relationship of agent, servant, employee, partnership, joint venture or association as between User and Authority.

15. ASSIGNMENT

This Agreement is personal to Authority and the User, and, in the event the User shall attempt to assign or transfer the same in whole or in part, all rights hereunder shall immediately terminate. Authority, may however, assign this Agreement to any

one of its member agencies in the JPA without prior consent of User, so long as such member agency agrees to perform and fulfill Authority's obligations herein.

16. DEFAULT

Parties agree that if there is any default by either Party of the terms or conditions herein contained, the non-defaulting Party may forthwith revoke and terminate this Agreement.

17. WAIVER

17.1. Any waiver by either Party of the breach of any one or more of the covenants, conditions, terms and Agreement's herein contained shall not be construed to be a waiver of any other breach of the same or of any other covenant, condition, term or Agreement herein contained, nor shall failure on the part of either Party to require exact, full, and complete compliance with any of the covenants, conditions, terms, or Agreements herein contained be construed as in any manner changing the terms of this Agreement or stopping either Party from enforcing the full provisions thereof.

17.2. No option, right, power, remedy, or privilege of either Party shall be construed as being exhausted by the exercise thereof in one or more instances. The rights, powers, options, and remedies given either Party by this Agreement shall be cumulative.

18. INTERPRETATION

Unless the context of this Agreement clearly requires otherwise: (i) the plural and singular numbers shall be deemed to include the other; (ii) the masculine, feminine, and neuter genders shall be deemed to include the others; (iii) "or" is not exclusive; and (iv) "includes" and "including" are not limiting. Further, captions and section headings used in this Agreement are for convenience only and are not a part of this Agreement and shall not be used in construing this Agreement. Finally, this Agreement is the product of arm's length negotiation between User and Authority, where each Party has had the opportunity to receive advice from independent counsel of its own choosing. This Agreement is to be interpreted as if both Parties participated equally in its drafting and shall not be construed against either Party.

19. GOVERNING LAW, JURISDICTION, AND VENUE

This Agreement shall be governed by, and construed in accordance with, the laws of the State of California. The Parties agree and consent to the exclusive jurisdiction of the courts of the State of California for all purposes regarding this Agreement and further agree and consent that venue of any action brought hereunder shall be exclusively in the County of Los Angeles.

20. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to conform to the terms and requirements of applicable law.

21. FACSIMILE REPRESENTATIONS

User and Authority hereby agree to regard facsimile representations of original signatures of authorized officers of each Party, when appearing in appropriate places on the Agreement and/or amendments to the Agreement, and received via electronic mail transmission or communications facilities, as legally sufficient evidence that such original signatures have been affixed to the Agreement and/or any amendments to this Agreement, such that the Parties need not follow up facsimile transmissions of such documents with subsequent (non-facsimile) transmission of "original" versions of such documents.

22. AMENDMENTS

All changes, modifications, or amendments to this Agreement must be in the form of a written Amendment duly executed by authorized representatives of Authority and User.

23. ENTIRE AGREEMENT

This Agreement, Exhibit A (LA-RICS Radio Use Protocols), Exhibit C (Affiliate Radios), Exhibit E (Notification Contact List), and any executed Amendments, between the Parties hereto, and no addition or modification of any terms or provisions shall be effective unless set forth in writing, signed by both User and Authority.

(Signature Page – following page)

WITNESS WHEREOF, this Agreement has been executed by the Parties hereto as of date written below:

**LOS ANGELES
REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM
AUTHORITY**

Date

LA-RICS RADIO USE PROTOCOLS

This purpose of this exhibit is to set forth the protocols the User will adhere to when using the LMR System.

1. GENERAL USE PROTOCOLS

- 1.1 Misuse of the LMR System will be reported to Authority's LMR System Manager to handle directly with the User department head, or his/her designee. The reporting party's contact information should be provided in the notification. Profanity, playing music, personal conversations, intentional jamming, activities not directly related to public safety operations or any violation of the rules of the United States Federal Communications Commission (FCC) will not be permitted on the LMR System.
- 1.2 While using the LMR System, Users' users should follow proper radio etiquette by keeping conversations concise, brief, and clear.
- 1.3 Users utilizing the LMR System must abide by all FCC regulations as codified in the US Code Title 47, Part 90 (47CFR90), Land Mobile Communications.

2. SERVICE IMPACT OUTAGE NOTIFICATIONS

2.1 Purpose or Objective

Establishes the notification procedure prior to system upgrades.

2.2 Protocol/Standard

System software upgrades will be performed based on the LA-RICS System Upgrade Agreement (SUA) with service provider and when determined by LA-RICS to best implement the upgrade(s). System services patches are performed per service provider recommendation.

All Users using the System will be notified at least thirty (30) days prior to a major system upgrade that will cause a system or site outage. Any User must notify LA-RICS in writing within ten (10) days of notification if this would interfere with any major planned events or exercises.

Scheduled system repairs, and patches impacting services to Users shall be coordinated 72 hours prior to the start of work by LMR System Manager's written notification. Unplanned outages impacting services shall be notified by the LA-RICS LMR NOC to impacted user agencies in accordance with the established Emergency Change process.

All Users using the System must have governance agreements in place to address the timing of system upgrades.

2.3 Recommended Procedure

The LA-RICS NOC shall be responsible for distributing a written notification or email to all Users contacts listed in Exhibit E (Notification Contact List) that may be impacted by the upgrade.

3. AUDIO LOGGING RECORDERS

3.1 Purpose or Objective

Establishes the procedure for the use and access of system audio logging devices.

3.2 Technical Background

A System Audio Logging Recorder allows all voice radio traffic to be recorded and stored for future reference.

All Talkgroups are recorded and maintained by LA-RICS for a period of not less than ninety (90) days. A Talkgroup does not need to be selected or active at a console position to be recorded.

Advanced Encryption Standard (AES) Encrypted calls are recorded, however, if the encryption key is not installed into the system, those recordings are unusable until the key is provided.

3.3 Protocol/Standard

User understands and acknowledges that recording of the User's radio audio for User's use is the responsibility of the User. The LA-RICS recording system will record all voice traffic. User will have access to those recordings for a period of ninety (90) days. After ninety (90) days, the recordings may be overwritten. If a User needs access to their Talkgroup recordings for a period longer than ninety (90) days, the User must download and store their own recordings.

Users directly requesting a copy, or if requesting a copy on behalf of a Public Records Access request, of any LA-RICS logged radio traffic for a Talkgroup, or channel other than their own should make their request to their respective agency Administrator managing the logging system. The agency Administrator can forward the request to the LMR System Manager as appropriate. The request should include specific information detailing the Talkgroup/channel, radio user(s), radio ID, time of day, and any other information that would help in processing the request.

Users shall operate their own logging recorders that meet their business and recording retention policy requirements.

Each User utilizing logging recorders to record audio from their agency's Talkgroups is responsible for adhering to their internal procedures with regard to:

- Retention schedule for radio system recordings in compliance with State Records Retention requirements
- Responding to public records requests for copies of audio recordings for radio traffic on **THEIR** agency-owned Talkgroups or channels
- Providing radio system recordings as requested by the judicial system
- Providing duplicate recordings upon request for internal User use, investigative purposes, training, etc.
- Establishing a data storage and backup system for radio system audio recordings

3.4 Procedure

Requests for audio records should be directed to the specific agency Administrator managing the logging system.

3.5 Management

The LMR System Manager is responsible for this policy. Each User is responsible for the operation and data back-up of their agency-owned logging system for their agency-owned Talkgroups or interoperability Talkgroups on their radio console. Shared, non-owned Talkgroups are the responsibility of any User that uses it for a resource on their dispatch console.

AT&T / LA-RICS Asset Transfer and Business Agreement

BUSINESS AGREEMENT
BETWEEN
LOS ANGELES REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM AUTHORITY
AND
AT&T CORP.

This BUSINESS AGREEMENT ("**Agreement**") is made and entered into between the Los Angeles Regional Interoperable Communications System Authority ("**LA-RICS Authority**"), a California joint power's authority, and AT&T Corp., on behalf of itself and its Affiliates ("**AT&T**"), (individually, a "**Party**", and collectively, the "**Parties**"). This Agreement is effective as of December 15, 2017 ("**Effective Date**").

RECITALS

WHEREAS, the Parties have entered into an ASSET TRANSFER AGREEMENT BETWEEN LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY AND AT&T SERVICES, INC. FOR THE LA-RICS PUBLIC SAFETY BROADBAND NETWORK ("**Asset Transfer Agreement**") with an effective date of December 15, 2017.

WHEREAS, the Parties desire to further memorialize its business agreement, including for AT&T to provide the LA-RICS Authority with monies, services and user equipment.

THEREFORE, in consideration of the foregoing Recitals, the mutual promises hereinafter set forth, and other good and valuable consideration, the receipt of which is hereby acknowledged, the Parties agree as follows:

TERMS

1. **Definitions.** To the extent a defined term is used in this Agreement but is not defined below, such defined term shall have the same meaning as set forth in Section 1 (Definitions) of the Asset Transfer Agreement. The following defined terms in this Agreement have the meanings specified or referred to in Section 1 (Definitions) of this Agreement, and shall be equally applicable to both the singular and plural forms:

"**Affiliates**" shall mean subsidiaries or entities that are majority controlled by AT&T Corp., or by AT&T Corp.'s parent company, AT&T Inc.

"**Agreement**" has the meaning specified in the preamble.

"**Asset Transfer Agreement**" has the meaning specified in the Recitals.

"**AT&T**" is AT&T Corp. as specified in the preamble.

"**Effective Date**" has the meaning specified in the preamble.

"Holdback Amount" has the meaning specified in Section 3.A.

"LA-RICS Authority" is the Los Angeles Regional Interoperable Communication System Authority as specified in the preamble.

"LA-RICS Payment" has the meaning specified in Section 3.A.

"LA-RICS Payment #2" has the meaning specified in Section 3.A.

"LA-RICS Payment #3" has the meaning specified in Section 3.A.

"Replacement Services" has the meaning specified in Section 3.C.

2. Interpretation. Unless otherwise expressly provided for herein, the following rules of interpretation shall apply in this Agreement:

- A. The Asset Transfer Agreement, and the terms and conditions contained therein, is incorporated by reference into this Agreement and made a part hereof as fully set forth herein.
- B. When calculating the period of time for any act or obligation that is to be done or performed pursuant to this Agreement, the date that is the reference date in calculating such period shall be excluded. If the last calendar day of such period is a non-business day, the period in question shall end on the next succeeding business day.
- C. Any reference in this Agreement to gender shall include all genders, and words imparting the singular number only shall include the plural and vice versa.
- D. The words "herein," "hereof" and "hereunder" refer to this Agreement as a whole and not merely to a section in which such words appear unless the context otherwise requires.
- E. The word "include" or any variation thereof means "include, but is not limited to" and shall not be construed to limit any general statement that it follows to the specific or similar items or matters immediately following it.
- F. Each of the recitals set forth above in the Recitals section of this Agreement are incorporated herein and made a part hereof as fully set forth herein.
- G. The section headings in this Agreement are for convenience of reference only and are not to be referred to in construing or interpreting this Agreement.
- H. The Parties participated jointly in the negotiation and drafting of this Agreement and had the opportunity to receive advice from counsel of its own choosing. In the event an ambiguity or question of intent or interpretation arises, this Agreement

shall be construed as jointly drafted by the Parties and no presumption or burden of proof shall arise favoring or disfavoring any Party by virtue of the authorship of any provision of this Agreement.

3. Business Agreement.

- A. On the Closing Date, AT&T will (i) transfer by wire or electronic bank transfer to the LA-RICS Authority an amount equal to six million dollars (\$6,000,000) (the “**LA-RICS Payment**”) to an account designated by the Los Angeles County Auditor/Controller, the fiscal agent for the LA-RICS Authority and (ii) retain an amount equal to six million dollars (\$6,000,000) (the “**Holdback Amount**”) to be held by AT&T in accordance with the requirements of this Section 3.A. Following receipt of the written approval, if any, from NTIA and the NOAA Grants Office as provided for in Section 9.A.i of the Asset Transfer Agreement, the Los Angeles County Auditor/Controller will provide AT&T with the bank and account information, and routing instructions for the LA-RICS Authority. AT&T will then transfer by wire or electronic bank transfer to the LA-RICS Authority an amount equal to three million dollars (\$3,000,000) (the “**LA-RICS Payment #2**”) to an account designated by the Los Angeles County Auditor/Controller, following the satisfactory completion of deployment of half of the Round 2 PSBN Sites (at least 13 sites). AT&T will then make its final and last transfer by wire or electronic bank transfer to the LA-RICS Authority an amount equal to three million dollars (\$3,000,000) (the “**LA-RICS Payment #3**”) to an account designated by the Los Angeles County Auditor/Controller, following the satisfactory completion of deployment of the remaining Round 2 PSBN Sites.
- B. Following the Closing Date or prior to the Closing Date if agreed to by AT&T and the LA-RICS Authority, AT&T will provide to the LA-RICS Authority, up to thirty three hundred (3,300) replacement routers, SIMs, and devices, of LA-RICS Authority’s choosing and in the quantities specified by the LA-RICS Authority, should the current routers, SIMs and devices used by the LA-RICS PSBN users be deemed incompatible with or not fully compatible with the FirstNet NPSBN, or LA-RICS PSBN users experience significant degradation of functionality (e.g., a minimum of two SIM card slots must be usable on the AT&T spectrum).
- C. Following the Closing Date or prior to the Closing Date if agreed to by AT&T and the LA-RICS Authority, AT&T will also provide the LA-RICS Authority with two million five hundred thousand dollars (\$2,500,000) in services, which shall at minimum include the replacement services and installation of the routers and SIMS provided for in Section 3.B (“**Replacement Services**”). AT&T may contract with the LA-RICS Authority, or its Member Agencies, to provide the LA-RICS Authority or Member Agencies with the Replacement Services. In addition, should the full value of the Replacement Services not be used, the LA-RICS Authority may order additional routers, SIMS and devices, and apply as a credit towards those costs the remaining balance of any such Replacement Services.

- D. To encourage public safety subscribers in the Los Angeles County region to use the FirstNet NPSBN, and for the Member Agencies in the LA-RICS Authority:
- i. Such Member Agencies shall be entitled to the most favorable subscriber rates for the FirstNet NPSBN offered by AT&T to any county, municipality, state, district or other California government agency for service offerings including broadband LTE services on Band 14 or other bands with comparable contractual arrangements (but not comparing number of users) that include, among other things, subscription to Quality of Service, Priority, and Preemption services.
 - ii. If AT&T, at any time during the term of the FirstNet Contract, provides subscriber rates for the FirstNet NPSBN to any county, municipality, state, district or other California government agency at prices for service offerings including broadband LTE services on Band 14 or other bands with comparable contractual arrangements (but not comparing number of users) that include, among other things, subscription to Quality of Service, Priority, and Preemption services below what a Member Agency may have previously agreed to with AT&T, then AT&T agrees to provide that same lower subscriber rate to the Member Agency via an amendment to the existing agreement with the Member Agency.
4. Conditions. This Agreement and the obligations contained herein, are conditioned on Section 9 (Conditions) of the Asset Transfer Agreement being fulfilled and the closing of the transactions contemplated by the Asset Transfer Agreement. This Agreement shall automatically terminate in the event of termination of the Asset Transfer Agreement.
5. Notices. All notices, requests, demands and other communications required or permitted under this Agreement shall be in writing and shall be deemed to have been duly given, made and received when delivered by messenger or facsimile or deposited in the United States mail, registered or certified mail, postage prepaid, with a courtesy copy sent via electronic mail on the same day. Any party may alter the address to which communications or copies are to be sent by giving notice of such change of address in conformity with the provisions of this section for the giving of notice. All notices shall be sent as set forth below:

6. Applicable Law. This Agreement is governed by and shall be construed in accordance with the substantive and procedural laws of the State of California, without regard to principles of conflicts of laws. The United Nations Convention on Contracts for the International Sale of Goods is specifically excluded from application to this Agreement.
7. No Third Party Beneficiaries. Except as otherwise provided for in Section 3.D, the LA-RICS Authority and AT&T do not in any way intend that any person or entity shall acquire any rights as a third party beneficiary of this Agreement.
8. Entire Agreement. This Agreement and the Asset Transfer Agreement between the Parties dated as of even date herewith constitute the entire agreement and understanding of the parties with respect to the subject matter hereof and thereof and supersede all prior or contemporaneous agreements of the parties with respect to that subject matter.
9. Amendments. All changes, modifications, or amendments to this Agreement must be in the form of a written amendment duly executed by authorized agents of both Parties.
10. Severability. If any provision herein is held to be invalid, void or illegal by any court of competent jurisdiction, the Parties intend and agree that the same shall be deemed severable from the remainder of this Agreement, if practicable, and shall in no way affect, impair or

invalidate any other provision contained herein. If any such provision shall be deemed invalid in its scope or breadth, such provision shall be deemed valid to the extent of the scope or breadth permitted by law. If any provision of this Agreement is adjudged void or invalid for any reason whatsoever, but would be valid if part of the wording thereof were deleted or changed, then such provision shall apply with such modifications as may be necessary to make it valid and effective.

11. Counterparts. This Agreement may be executed in counterparts which may be delivered by facsimile or electronic mail, each of which shall be considered an original instrument but all of which together constitute but one and the same instrument. Signature and acknowledgment pages, if any, to this Agreement may be detached from any counterpart and re-attached to any other counterpart of this Agreement which is identical in form hereto but having attached to it one or more additional signature and acknowledgment pages.
12. Binding Nature of Agreement; Assignment. This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns. This Agreement may not be assigned without the prior consent of either Party which shall not be unreasonably withheld; provided, however, AT&T may, without the consent of the LA-RICS Authority, assign any and all of its rights hereunder to any Affiliates who agree to perform AT&T's obligations under this Agreement; and the LA-RICS Authority may, without the consent of AT&T, assign any and all of its rights hereunder to Los Angeles County who agrees to perform the LA-RICS Authority's obligations under this Agreement. In the event of any assignment, both Parties shall provide sixty (60) days written notice to the other Party prior to the effective date of the assignment. AT&T Corp. agrees that it shall remain responsible for execution of the obligations contained herein, even where AT&T Corp has engaged its Affiliates.
14. Relationship of Parties. Both Parties, in the performance of this Agreement, will be acting in separate capacities and not as employees, partners, joint venturers, associates, or agents of one another. With regard to the performance of this Agreement, each Party acknowledges that it does not have the authority to act for or in the name of the other Party or to commit the other Party in any manner whatsoever. The employees or agents of one Party shall not be deemed or construed to be the employees or agents of the other Party for any purpose whatsoever.
14. Remedies. No remedy conferred by any of the specific provisions of the Agreement is intended to be exclusive of any other remedy, and each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder, now or hereafter existing at law or in equity or by statute or otherwise. The election of any one or more remedies by either party shall not constitute a waiver of the right to pursue other available remedies.
15. Survival. The terms, conditions and warranties contained in the Agreement that by their sense and context are intended to survive the performance hereof by the parties hereunder shall so survive the completion of the performance, cancellation or termination of the Agreement. Moreover, each party hereto covenants and agrees that its representations,

warranties and covenants contained in this Agreement and in any document delivered or to be delivered pursuant to this Agreement shall survive termination hereof.

16. Limitations of Liability. In no event shall AT&T and its Affiliates, and the LA-RICS Authority or its member agencies who are a part of and form the LA-RICS Authority (“**Member Agencies**”), or their board of supervisors, officers, directors, employees or agents, be liable for any consequential, special or incidental damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business opportunity, loss of business information, or other pecuniary loss) arising out of the obligations contained in this Agreement.

ASSET TRANSFER AGREEMENT
BETWEEN
LOS ANGELES REGIONAL INTEROPERABLE
COMMUNICATIONS SYSTEM AUTHORITY
AND
AT&T CORP.
FOR THE
LA-RICS PUBLIC SAFETY BROADBAND NETWORK

This ASSET TRANSFER AGREEMENT ("**Agreement**") is made and entered into between the Los Angeles Regional Interoperable Communications System Authority ("**LA-RICS Authority**"), a California joint power's authority, and AT&T Corp., on behalf of itself and its "**Affiliates**", as defined herein ("**AT&T**"), (individually, a "**Party**", and collectively, the "**Parties**"). This Agreement is effective as of December 15, 2017 ("**Effective Date**").

RECITALS

WHEREAS, on September 1, 2010, the Department of Commerce's National Telecommunications and Information Administration ("**NTIA**") awarded the LA-RICS Authority with a Broadband Technology Opportunity Program ("**BTOP**") grant in the amount of One Hundred Fifty Four Million Six Hundred and Forty Thousand Dollars (\$154,640,000) plus a twenty (20) percent match requirement, to develop and deploy a 700 MHz public safety broadband network ("**PSBN**") across the County of Los Angeles region (the "**BTOP Grant**"). The Department of Commerce's National Oceanic and Atmospheric Administration Grants Office ("**NOAA Grants Office**") administers the BTOP Grant for NTIA.

WHEREAS, on February 22, 2012, Congress enacted the Middle Class Tax Relief and Job Creation Act of 2012 ("**Act**") which, among other things, assigned to public safety a 20 MHz section of spectrum known as the "D-Block" and mandated the creation of a nationwide public safety broadband network ("**NPSBN**"). The Act also created the First Responder Network Authority ("**FirstNet**"), an independent authority within the Department of Commerce's NTIA, charged to build, deploy, and operate the NPSBN (hereinafter, the "**FirstNet NPSBN**") in consultation with state, local, tribal and territorial entities.

WHEREAS, effective July 1, 2013, the LA-RICS Authority and FirstNet entered into a Spectrum Manager Lease Agreement ("**SMLA**") for spectrum usage rights for the LA-RICS Authority to operate the PSBN on the 700 MHz public safety broadband spectrum.

WHEREAS, on August 9, 2013, NTIA authorized the LA-RICS Authority to proceed forward with its BTOP Grant award to procure a PSBN for the County of Los Angeles region, and NTIA extended the performance period of the BTOP Grant through September 30, 2015.

WHEREAS, on August 13, 2013, the LA-RICS Authority issued a request for proposal to potential contractors for the design, construction, implementation, operation and maintenance of the PSBN.

WHEREAS, on March 6, 2014, the LA-RICS Authority awarded and entered into Agreement No. LA-RICS 008 (together with all exhibits, attachments, schedules and amendments thereto, the “**LTE Agreement**”) with Motorola Solutions, Inc. (“**Motorola**”) for the PSBN.

WHEREAS, on September 29, 2015, the BTOP Grant performance period was extended by Congress to September 30, 2020 pursuant to Section 121 of the Continuing Appropriations Act, 2016.

WHEREAS, by September 30, 2015, the LA-RICS Authority completed the PSBN and construction of seventy-six (76) public safety grade PSBN sites for the PSBN (hereinafter collectively referred to as the “**LA-RICS PSBN**”). The work related to the design, construction, implementation, operation and maintenance of the LA-RICS PSBN completed by the LA-RICS Authority by September 30, 2015 shall be referred to as “**Round 1 of the LA-RICS PSBN Project**”.

WHEREAS, of such seventy-six (76) public safety grade PSBN sites constructed as part of Round 1 of the LA-RICS PSBN, thirteen (13) sites are designed as cells on wheels sites (hereinafter collectively referred to as the “**COW Sites**”).

WHEREAS, on March 30, 2017, FirstNet and AT&T announced the award of a contract with FirstNet to build and operate the FirstNet NPSBN (“**FirstNet Contract**”).

WHEREAS, AT&T desires to acquire for the FirstNet NPSBN and for the benefit of public safety responders in the County of Los Angeles region, and LA-RICS Authority desires to transfer and assign, its right, title and interest to the LA-RICS PSBN built in Round 1 of the LA-RICS PSBN Project, which shall be subject to NTIA and NOAA Grants Office approval as provided herein.

WHEREAS, the Parties also desire to work cooperatively together to improve public safety services in the County of Los Angeles region for the benefit of public safety responders by seeking approval from NTIA and the NOAA Grants Office for the LA-RICS Authority to undertake efforts to expand the PSBN which includes the build-out of additional PSBN sites with its remaining Thirty Four Million Five Hundred Forty Thousand Eight Hundred and Sixty Three Dollars (\$34,540,863) in BTOP Grant funds (“**Round 2 of the LA-RICS PSBN Project**”).

THEREFORE, in consideration of the foregoing Recitals, the mutual promises hereinafter set forth, and other good and valuable consideration, the receipt of which is hereby acknowledged, the Parties, intending to be legally bound, agree as follows:

TERMS

1. Definitions. The following defined terms in this Agreement have the meanings specified or referred to in this Section 1 (Definitions) and shall be equally applicable to both the singular and plural forms:

“**Act**” is the Middle Class Tax Relief and Job Creation Act of 2012 as specified in the Recitals.

"**Affiliates**" shall mean subsidiaries or entities that are majority controlled by AT&T Corp., or by AT&T Corp.'s parent company, AT&T Inc.

"**Agreement**" has the meaning specified in the preamble.

"**AT&T**" is AT&T Corp. as specified in the preamble.

"**BTOP**" is the Broadband Technology Opportunity Program as specified in the Recitals.

"**BTOP Grant**" is the Broadband Technology Opportunity Program grant as specified in the Recitals.

"**Closing**" has the meaning specified in Section 3.A.

"**Closing Date**" has the meaning specified in Section 3.A.

"**COW Sites**" has the meaning specified in the Recitals.

"**Cutover Plan**" has the meaning specified in Section 7.D.

"**Effective Date**" has the meaning specified in the preamble.

"**Environmental Laws**" shall mean all Laws relating to pollution or protection of human health or the environment (including ambient air, surface water, groundwater, land surface, or subsurface strata), including (i) the Comprehensive Environmental Response Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (ii) the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, as amended, 42 U.S.C. §§6901 et seq., ("RCRA"); (iii) the Emergency Planning and Community Right to Know Act (42 U.S.C. §§11001 et seq.); (iv) the Clean Air Act (42 U.S.C. §§ 7401 et seq.); (v) the Clean Water Act (33 U.S.C. §§1251 et seq.); (vi) the Toxic Substances Control Act (15 U.S.C. §§2601 et seq.); (vii) the Hazardous Materials Transportation Act (49 U.S.C. §§ 5101 et seq.); (viii) the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§136 et seq.); (ix) the Safe Drinking Water Act (41 U.S.C. §§300f et seq.); (x) FCC Rules, 47 C.F.R. §§1.1301 to 1.1319, implementing the National Environmental Policy Act of 1969, 42 U.S.C. §§4321 et seq., and related statutes, codified at 47 U.S.C. §§ 1.1301 et seq. ("NEPA"); (xi) the Occupational Safety and Health Act (29 U.S.C. §§ 651 et seq. (1970)) ("OSHA"); (xii) any state, county, municipal or local statutes, laws, regulations or ordinances similar or analogous to the federal statutes and regulations listed in parts (i) - (xi) of this subparagraph; (xiii) any amendments to the statutes, laws or ordinances listed in parts (i) - (xii) of this subparagraph, regardless of whether in existence on the date hereof; (xiv) any Laws or orders adopted pursuant to or implementing the statutes, laws, ordinances and amendments listed in parts (i) - (xiii) of this subparagraph; and (xv) any other Law or order in effect now or in the future relating to environmental, health or safety matters.

"**FirstNet**" is the First Responder Network Authority as specified in the Recitals.

“FirstNet Contract” has the meaning specified in the Recitals.

“Hazardous Materials” shall mean any chemical, substance, waste, material, pollutant, contaminant, equipment or fixture defined as or deemed hazardous or toxic or otherwise regulated under any Environmental Law, including RCRA hazardous wastes, CERCLA hazardous substances, pesticides and other agricultural chemicals, oil and petroleum products or byproducts and any constituents thereof, urea formaldehyde insulation, mold, lead in paint or drinking water, asbestos, and polychlorinated biphenyls (PCBs).

“LA-RICS Authority” is the Los Angeles Regional Interoperable Communication System Authority as specified in the preamble.

“LA-RICS Authority Site Documentation License” has the meaning specified in Section 4.A.

“LA-RICS PSBN”; **“PSBN”** has the meaning specified in the Recitals.

“LA-RICS PSBN Assets” has the meaning specified in Section 3.A.

“LA-RICS PSBN Software” has the meaning specified in Section 5.

“Laws” has the meaning specified in Section 12.B.iv.

“LTE Agreement” has the meaning specified in the Recitals.

“Member Agencies” has the meaning specified in Section 15 (Limitation of Liability).

“Motorola” is Motorola Solutions, Inc. as specified in the Recitals.

“NOAA Grants Office” is the Department of Commerce’s National Oceanic and Atmospheric Administration Grants Office as specified in the Recitals.

“NPSBN”; **“FirstNet NPSBN”** has the meaning specified in the Recitals.

“NTIA” is the Department of Commerce's National Telecommunications and Information Administration as specified in the Recitals.

“Operation and Maintenance Date” has the meaning specified in Section 7.A.

“Owner” has the meaning specified in Section 3.E.iii.

“Party”; **“Parties”** has the meaning specified in the preamble.

“Round 1 of LA-RICS PSBN Project” has the meaning specified in the Recitals.

“Round 2 of LA-RICS PSBN Project” has the meaning specified in the Recitals.

“**Round 1 PSBN Sites**” has the meaning specified in Section 3.A.i.

“**Round 2 PSBN Sites**” has the meaning specified in Section 3.E.iii.

“**SAAs**” has the meaning specified in Section 3.A.i.

“**Site Documentation**” has the meaning specified in Section 4.A.

“**Site Documentation License**” has the meaning specified in Section 4.A.

“**SMLA**” is the Spectrum Manager Lease Agreement as specified in the Recitals.

“**Spare Equipment**” has the meaning specified in Section 3.A.ii.

2. Interpretation. Unless otherwise expressly provided for herein, the following rules of interpretation shall apply in this Agreement:

- A. When calculating the period of time for any act or obligation that is to be done or performed pursuant to this Agreement, the date that is the reference date in calculating such period shall be excluded. If the last calendar day of such period is a non-business day, the period in question shall end on the next succeeding business day.
- B. All schedules attached hereto or referred to herein are hereby incorporated in and made a part of this Agreement as if set forth in full herein. Notwithstanding the foregoing or anything to the contrary contained herein, the Parties may mutually agree in writing to amend and or supplement any schedules attached hereto at any time prior to the Closing Date.
- C. Any reference in this Agreement to gender shall include all genders, and words imparting the singular number only shall include the plural and vice versa.
- D. The words “herein,” “hereof” and “hereunder” refer to this Agreement as a whole and not merely to a section in which such words appear unless the context otherwise requires.
- E. The word “include” or any variation thereof means “include, but is not limited to” and shall not be construed to limit any general statement that it follows to the specific or similar items or matters immediately following it.
- F. Each of the recitals set forth above in the Recitals section of this Agreement are incorporated herein and made a part hereof as fully set forth herein.
- G. The section headings in this Agreement are for convenience of reference only and are not to be referred to in construing or interpreting this Agreement.

-
- H. The Parties participated jointly in the negotiation and drafting of this Agreement and had the opportunity to receive advice from counsel of its own choosing. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as jointly drafted by the Parties and no presumption or burden of proof shall arise favoring or disfavoring any Party by virtue of the authorship of any provision of this Agreement.
3. Assignment of LA-RICS PSBN Assets.
- A. Subject to the terms and conditions as set forth in this Agreement, and effective at the closing of the transactions contemplated herein (“**Closing**”) which shall occur on a date promptly following receipt of the written approval from NTIA and the NOAA Grants Office as set forth in Section 9.A.i, and satisfaction of the other conditions to Closing set forth in Section 9 (Conditions), both of which are expected to occur no later than thirty (30) days following receipt of the written approval from NTIA and the NOAA Grants Office unless the Parties agree otherwise (hereinafter, the “**Closing Date**”), the LA-RICS Authority assigns, transfers, conveys, grants and delivers, free and clear of all liens and encumbrances, but subject to the eighty (80) percent Federal interest referenced below and an Owner's right to lease or license space at Round 1 PSBN Sites containing a BTOP Grant funded monopole or disguised monopole as provided for in Section 3.E.iii, to AT&T all of its rights, interests and title to all assets, and rights owned, leased, used or held for use by the LA-RICS Authority in connection with the assets, including the following (collectively, the “**LA-RICS PSBN Assets**”), and AT&T acknowledges and accepts the delivery and receipt of that assignment by the LA-RICS Authority of the following LA-RICS PSBN Assets:
- i. Seventy-five (75) of the public safety grade PSBN sites built in Round 1 of the LA-RICS PSBN Project (including the thirteen (13) COW Sites) (“**Round 1 PSBN Sites**”) as identified in Schedule E (Round 1 PSBN Sites), including, (A) to the extent permissible, assignment or grant of access and use rights under all related site access agreements, leases licenses, easements, permits to enter or other contracts of any nature with regard to access to, or space on and use of any tower or other structure located on a Round 1 PSBN Site (the “**SAAs**”) either through an assignment, sublease of the SAA, or other approval mutually agreed to by the Parties, (B) to the extent owned by the LA-RICS Authority and paid for by the BTOP Grant on Schedule E (Round 1 PSBN Sites), all towers or other communications structures, including all cells on wheels temporary structures, as well as the tower lighting, tower grounding systems, fences, buildings, structures, fixtures, shelters, air conditioning units, concrete pads, and other improvements located at the Round 1 PSBN Sites, with the exception of the BTOP Grant funded equipment installed at (1) Round 1 PSBN Sites LADWP243 and LASDTEM, (2) in the LA-RICS Authority's Station on Wheels and (3) in Los Angeles County's Station B cell on wheels, and (C) all BTOP Grant funded equipment and network assets located on or relating

to any Round 1 PSBN Site or used or held for use in connection with the LA-RICS PSBN, as identified in Schedule A (Equipment Deployed at Round 1 PSBN Sites).

- ii. All BTOP Grant funded equipment owned, leased, used or held for use by the LA-RICS Authority in connection with the LA-RICS PSBN that is retained as spare equipment and supplies to allow for timely repair and replacement of equipment and components that may fail or become damaged in the LA-RICS PSBN ("**Spare Equipment**"), as identified in Schedule B (Spare Equipment for LA-RICS PSBN).
- iii. All other BTOP Grant funded equipment, assets, and other items not identified in Section 3.A.i. and Section 3.A.ii. above, but as otherwise shown in the as-built drawings for the Round 1 PSBN Sites included at Schedule C (As-Built Drawings for Round 1 PSBN Sites), with the exception of Round 1 PSBN Sites LADWP243 and LASDTEM . Such items include underground and above ground conductors and conduit from customer side of electrical meter, up to and including the entire power distribution for the LA-RICS PSBN equipment; fasteners, clamps and hardware; resident switchgear; electrical sub-meters; reinforced concrete equipment pads where the LA-RICS PSBN equipment was installed; crash bollards and fencing that immediately surround the Round 1 PSBN Site, if any; co-axial cabling, jumpers/connectors, and cable trays; and underground and above-ground grounding cabling, grounding wells and ground bars.

AT&T acknowledges that as of the Effective Date, the LA-RICS Authority has a twenty (20) percent interest in the above LA-RICS PSBN Assets, and that the Federal government by way of the Department of Commerce, has an eighty (80) percent interest in the LA-RICS PSBN Assets pursuant to the BTOP Grant award conditions. The Department of Commerce retains a federal interest in all BTOP Grant funded equipment, including the LA-RICS PSBN Assets transferred through this Agreement, for the useful life of the equipment, as determined by the BTOP Useful Life Schedule, available at: http://www2.ntia.doc.gov/files/fact_sheet_useful_life_schedule_082510_v1.pdf. The Federal interest includes both beneficial title as well as a reversionary interest in the equipment.

- B. In the event that any Round 2 PSBN Sites are approved or deployed by the LA-RICS Authority as part of Round 2 of the LA-RICS PSBN Project, the LA-RICS Authority shall, upon completion of such Round 2 PSBN Sites and following grant close-out of the BTOP Grant performance period, assign, transfer, convey, grant and deliver, free and clear of all liens and encumbrances (including any amounts related to LA-RICS Authority's payment obligations under the BTOP Grant), but subject to the eighty (80) percent Federal interest referenced in Section 3.A and an Owner's right to lease or license space at Round 1 PSBN Sites containing a BTOP

Grant funded monopoly or disguised monopoly as provided for in Section 3.E.iii, to AT&T all of its rights, interests and title to all such Round 2 PSBN Sites on the same terms and conditions provided for in this Section 3 (Assignment of LA-RICS PSBN Assets) for the LA-RICS PSBN Assets deployed at Round 1 PSBN Sites, including, in each case, all SAAs (or sublease rights under an SAA or other approval mutually agreed to by the Parties), communication structures and equipment described in Sections 3.A.i, 3.A.ii, and 3.A.iii, subject to prior approval from NTIA and the NOAA Grants Office.

- C. To the fullest extent permissible under the LTE Agreement, the LA-RICS Authority also assigns to AT&T as of the Closing Date, any remaining pass-through warranties received from Motorola from its third party suppliers for the LA-RICS PSBN Assets consisting of shelters, batteries and towers.
- D. Nothing herein shall be deemed to include as part of this Agreement, and it is expressly provided that the LA-RICS Authority shall retain all interests and title to, all other assets of any kind or type that is not identified in this Section 3 (Assignment of LA-RICS PSBN Assets).
- E. The assignment provided for in this Section 3 (Assignment of LA-RICS PSBN Assets) is also conditioned upon the following:
 - i. The LA-RICS Authority's agreement to assign its rights, interests and title to the LA-RICS PSBN Assets is conditioned on AT&T using the LA-RICS PSBN Assets to provide public safety services in the Los Angeles County region as part of the FirstNet NPSBN consistent with the FirstNet Contract. Pursuant to the FirstNet Contract, AT&T intends to improve and expand public safety services, including priority and preemption, for public safety responders nationwide, including in the Los Angeles County region. As such, and in furtherance of this important public safety purpose, the LA-RICS Authority confirms that this is adequate consideration for the LA-RICS Authority's non-federal interest in the LA-RICS PSBN Assets being transferred to AT&T, as contemplated in 15 CFR 24.32(g)(3). Further, the LA-RICS Authority will request that NTIA and the NOAA Grants Office approve the assignment to AT&T without recovery of any monies from AT&T or the LA-RICS Authority, so long as AT&T recognizes the eighty (80) percent Federal interest in the LA-RICS PSBN Assets as provided for in Section 11 (Post-Closing Date Obligations).
 - ii. Given the LA-RICS PSBN Assets and the LA-RICS PSBN will be absorbed into the FirstNet NPSBN as provided for herein, and in support of expanding public safety services for public safety responders in the Los Angeles County region, the LA-RICS Authority agrees not to seek compensation from the Federal government as a result of the transfers contained herein.

- iii. The SAAs for Round 1 PSBN Sites containing a BTOP Grant funded monopole or disguised monopole, provide for an Owner's right to lease or license space on such structure pursuant to the terms and conditions of the applicable SAA. Following the Closing Date, AT&T will reserve space at each Round 1 PSBN Site utilizing a monopole or disguised monopole (i.e. flag pole, palm, etc.), at thirty (30) feet or higher, for one RAD center installation on such monopole or disguised monopole for use by either the LA-RICS Authority or the underlying real property owner or lease administrator (“**Owner**”) for each Round 1 PSBN Site, as identified in Schedule D (Site Access Information for Round 1 PSBN Sites). Provided that space is available, such space on the monopole or disguised monopole shall be provided by AT&T at no cost to the LA-RICS Authority or Owner, depending on which entity utilizes the monopole or disguised monopole first for the RAD center installation. If LA-RICS Authority desires to utilize such reserved space for a RAD center installation, and also requires appropriate land space for accompanying equipment cabinets or shelters, it will secure such access to the Round 1 PSBN Site from the Owner identified in Schedule D (Site Access Information for Round 1 PSBN Sites). In the event that any additional PSBN sites are constructed for Round 2 of the LA-RICS PSBN Project (“**Round 2 PSBN Sites**”), and the LA-RICS Authority subsequently assigns such Round 2 PSBN Sites to AT&T with NTIA and NOAA Grants Office approval, AT&T will provide for the same no cost reservation of space for a RAD center installation at each Round 2 PSBN Site utilizing a monopole, disguised monopole or lattice tower.

4. Site Documentation License.

- A. The LA-RICS Authority grants to AT&T as of the Effective Date a nonexclusive, perpetual, irrevocable, royalty-free license (the “**Site Documentation License**”) to use all as-built drawings included at Schedule C (As-Built Drawings for Round 1 PSBN Sites) and other site completion documents for the Round 1 PSBN Sites (collectively, “**Site Documentation**”), for the purposes of undertaking preparations for assuming the LA-RICS PSBN. The LA-RICS Authority will provide to AT&T the Site Documentation in PDF format via portable media following the Effective Date. At Closing, the LA-RICS Authority shall transfer to AT&T all right, title and interest in and to all Site Documentation for those Round 1 PSBN Sites that contain a BTOP Grant funded monopole or disguised monopole (with the exception of Round 1 PSBN Sites LADWP243 and LASDTEM) and the LA-RICS PSBN Assets shall be deemed to include such Site Documentation, and AT&T shall have the unrestricted right to own, exploit, and use the Site Documentation for those Round 1 PSBN Sites that contain a BTOP Grant funded monopole or disguised monopole. The LA-RICS Authority and its Member Agencies, and their consultants, contractors, and agents acting on their behalf, shall also have at Closing, a nonexclusive, perpetual, royalty-free license (the “**LA-RICS Authority Site Documentation License**”) to use all Site Documentation for those Round 1 PSBN

Sites that contain a BTOP Grant funded monopoly or disguised monopoly for their governmental purposes.

- B. The Site Documentation, Site Documentation License, and the LA-RICS Authority Site Documentation License will automatically be expanded to include any as-built drawings and other site completion documents for any Round 2 PSBN Sites that may be built as part of Round 2 of the LA-RICS PSBN Project.
5. Licenses for LA-RICS PSBN Software. To the fullest extent permitted by the LTE Agreement, the LA-RICS PSBN Assets provided for in Section 3 (Assignment of LA-RICS PSBN Assets) shall include all licenses for third party software, including any proprietary operating/vendor software packages or proprietary applications software (as those phrases are used by the Federal government in 45 CFR section 95.617) (collectively, “**LA-RICS PSBN Software**”) that may be embedded in or used with the LA-RICS PSBN Assets by the LA-RICS Authority in its business operations, and which such LA-RICS PSBN Software may be necessary for the LA-RICS PSBN Assets to be useful or functional to AT&T; and the LA-RICS Authority shall assist AT&T with obtaining the appropriate licenses for the LA-RICS PSBN Software by working with Motorola to secure such licenses, as needed, at no additional costs. To the extent that licensing costs for the LA-RICS PSBN Software may be required or need to be maintained following the Operation and Maintenance Date, those costs shall solely be borne by AT&T.
6. Access to Round 1 PSBN Sites and LA-RICS PSBN Assets.
- A. Following the Effective Date, the Parties will work cooperatively to determine what site access is needed for AT&T to maintain and operate the LA-RICS PSBN and LA-RICS PSBN Assets, including to maintain the Round 1 PSBN Sites, and to secure approval with the Owner identified for each Round 1 PSBN Site identified in Schedule D (Site Access Information for Round 1 PSBN Sites) for each SAA.
 - B. The LA-RICS Authority shall seek to secure, in form and substance satisfactory to both parties, all appropriate assignments, amendments or approvals for each Round 1 PSBN Site from the Owner or the LA-RICS Authority (if permitted by the underlying instrument) as identified in Schedule D (Site Access Information for Round 1 PSBN Sites) prior to the Closing Date, as needed, to allow AT&T to operate the LA-RICS PSBN Assets as part of the FirstNet NPSBN at all such Round 1 PSBN Sites consistent with AT&T’s overall strategy for providing services under the FirstNet Contract. Such assignments, amendments or approvals for each Round 1 PSBN Site shall allow AT&T full use of the Round 1 PSBN Sites for the FirstNet NPSBN and be consistent with the existing rights and conditions granted to the LA-RICS Authority and shall not require any payments by AT&T or additional obligations from AT&T, unless AT&T and the Owner agree otherwise. If such amendments, assignments or approvals cannot be obtained for a Round 1 PSBN Site on terms reasonably acceptable to AT&T and the LA-RICS Authority agrees (such agreement cannot be unreasonably withheld, conditioned or delayed) then, following consultation with the LA-RICS Authority and joint efforts to obtain

them, AT&T may decommission such Round 1 PSBN Site and the LA-RICS Authority shall secure access for AT&T to decommission the site. In the event of a dispute regarding this provision, the Parties will follow the dispute resolution process identified in Section 27 (Dispute Resolution).

- C. Should in the future, AT&T determine that it no longer wishes to use any of the Round 1 PSBN Sites and LA-RICS PSBN Assets on Round 1 PSBN Sites, AT&T shall provide ninety (90) days' notice to the LA-RICS Authority in advance of terminating the applicable SAA and decommissioning the LA-RICS PSBN Assets for the Round 1 PSBN Site, so that the LA-RICS Authority may determine if it will seek to take over the applicable SAA and LA-RICS PSBN Equipment in its own name or for a Member Agency, and/or undertake negotiations for the same. If the applicable SAA or LA-RICS PSBN Equipment is to be transferred to the LA-RICS Authority or a Member Agency, the LA-RICS Authority and AT&T shall negotiate and agree to the appropriate terms of transfer or assignment. If such terms of assignment are not agreed upon within a reasonable period of time that in no instance can be less than the ninety (90) days provided herein, unless the Parties agree to a longer period, AT&T may proceed to terminate and decommission the site. Any transfer of LA-RICS PSBN Assets will require NTIA and NOAA Grants Office approval.
- D. In the event that any Round 2 PSBN Sites are approved, deployed or constructed as part of Round 2 to the LA-RICS PSBN Project, the same terms and conditions provided for in this Section 6 (Access to Round 1 PSBN Sites and LA-RICS PSBN Assets) shall be applied to the Round 2 PSBN Sites.
- E. On or promptly following the Effective Date, the LA-RICS Authority will deliver to AT&T copies of all environmental assessments and reports and documentation regarding all environmental remediation relating to the Round 1 PSBN Sites. Between the Effective Date and the Closing Date, AT&T, at its sole cost, will review such environmental documentation for each site and do any further environmental analysis, assessments or diligence that AT&T determines to be advisable. AT&T will notify the LA-RICS Authority if AT&T discovers any environmental conditions or concerns and will consult with the LA-RICS Authority regarding AT&T's assessment of the environmental condition and options to remediate it. If after conducting customary environmental audit (Phase 1 and Phase 2), AT&T discovers an environmental condition that cannot be remediated prior to Closing for \$10,000 or less by AT&T, then AT&T can elect to remove that applicable Round 1 PSBN Site from the transaction and AT&T will have no obligations or responsibilities with respect to such removed site.

7. Operation and Maintenance of the LA-RICS PSBN.

- A. Following the Closing Date and by no later than July 1, 2018 (if the Closing occurs prior to such date), AT&T will commence operating and maintaining the LA-RICS PSBN and the Round 1 PSBN Sites identified in Schedule E (Round 1 PSBN Sites),

other than with respect to any Round 1 PSBN Sites decommissioned pursuant to Section 6 or Section 7.D. AT&T will notify the LA-RICS Authority in writing of the date it will begin operations and maintenance of the LA-RICS PSBN ("**Operation and Maintenance Date**"). AT&T will undertake and complete all actions reasonably necessary to successfully operate the LA-RICS PSBN as of the Operation and Maintenance Date.

- B. Following the Operation and Maintenance Date, AT&T will operate and maintain the LA-RICS PSBN (other than with respect to any sites decommissioned pursuant to Section 6 or Section 7.D) as part of the FirstNet NPSBN at its sole cost and expense, and at minimum, at the same performance levels, requirements, and meet the same key performance indicators, as required by its FirstNet Contract for the FirstNet NPSBN.
- C. If AT&T is delayed in assuming maintenance and operation of the LA-RICS PSBN past July 1, 2018, AT&T will request from FirstNet and support the LA-RICS Authority in its request for, an extension to the SMLA with FirstNet so that the LA-RICS PSBN remains operational at all times. In the event that there is a delay and the delay is caused by the acts or omissions of AT&T, should the LA-RICS Authority incur costs and expenses to extend the LTE Agreement with Motorola and/or to exercise contract options in the LTE Agreement to allow for continued operation and maintenance of the LA-RICS PSBN past July 1, 2018, AT&T shall reimburse the LA-RICS Authority for all such costs and expenses that do not exceed the Year 1 maintenance costs with Motorola in the LTE Agreement which shall be pro-rated on a monthly basis, relating to the operations and maintenance of the LA-RICS PSBN. If a delay is expected for reasons other than AT&T's acts or omissions, LA-RICS shall bear sole responsibility for obtaining the extension of the SMLA with FirstNet.
- D. Except as otherwise contemplated in Section 6, from the Closing Date to the end of the fifth (5th) year following the Closing Date, AT&T will not decommission any such Round 1 PSBN Sites unless such site(s) are replaced with an existing or subsequently built NPSBN site(s) that is substantially similar to the hardened standards for structural integrity as identified in Schedule E (Round 1 PSBN Sites), back-up power and redundant backhaul connections, as the Round 1 PSBN Site being decommissioned. AT&T will notify the LA-RICS Authority sufficiently in advance of the date it will begin work to decommission a Round 1 PSBN Site, which in no event shall be less than ninety (90) days prior to its start of such work at the site, and provide the LA-RICS Authority with the complete documentation demonstrating the above criteria has been met so that the LA-RICS Authority may review and approve the decommissioning of the site, with such approval not being unreasonably withheld, conditioned or delayed. The 90 days referenced herein shall not run until the LA-RICS Authority receives the required documentation called for in this subsection. From the start of the sixth (6th) year to the end of the tenth (10th) year following the Closing Date, AT&T may decommission up to twenty-five (25) percent of any remaining operational Round 1 PSBN Sites without

the LA-RICS Authority's approval, but provided AT&T present an informational only item to the LA-RICS Authority's Board of Directors regarding the reasons for the decommissioning before the work occurs. All other Round 1 PSBN Sites considered for decommissioning over this twenty-five (25%) percent threshold shall continue to be subject to the requirements in this Section 7.D. Further, AT&T will not decommission any Round 1 PSBN Sites or allow any part of the LA-RICS PSBN to become non-operational, until the State of California elects to "opt in" to the AT&T FirstNet solution and AT&T has accordingly made NPSBN regional service available in the Los Angeles County region. The requirements in this Section 7.D shall expire at the end of the tenth (10th) year following the Closing Date. AT&T acknowledges that any decommissioned BTOP Grant funded assets are still subject to the Federal interest and any applicable federal disposition and grant rules. Further, any Round 2 PSBN Sites built will operate in accordance with the BTOP Grant requirements. AT&T will work with LA-RICS on a decommissioning and cut-over strategy and plan ("**Cutover Plan**") to transition users on the LA-RICS PSBN to the FirstNet NPSBN. The Cutover Plan, which shall be released in iterations, must be timely reviewed, feedback provided, if any, and approved in no less than five (5) days, if acceptable (if rejected, cause for rejection will be provided), by the LA-RICS Authority prior to AT&T implementing final efforts to redirect the Round 1 PSBN Sites and LA-RICS PSBN Assets to the AT&T /FirstNet NPSBN core, reprogramming of any SIMs, and transitioning users and user equipment off the LA-RICS PSBN, while recognizing the importance of transitioning users acquiring service from AT&T and AT&T's associated obligations to those users.

- E. Except in the case of any breach of the representations, warranties, or covenants of the LA-RICS Authority in this Agreement or any assignment back to the LA-RICS Authority under Section 6.C, any costs and expenses resulting from site construction, decommissioning, equipment removal, and technical upgrades to the LA-RICS PSBN, Round 1 PSBN Sites, and Round 2 PSBN Sites following any applicable assignment to AT&T, will be the sole responsibility of AT&T.
- F. The LA-RICS Authority shall assist AT&T with obtaining and maintaining backhaul and transport for the LA-RICS PSBN Assets, including taking all actions prescribed below prior to the Closing Date:
 - i. With respect to all Round 1 PSBN Sites and Round 2 PSBN Sites under the ownership and control of the City of Los Angeles, and where sites also rely on the City of Los Angeles' fiber optic network for backhaul connectivity, the LA-RICS Authority will request approval from the City of Los Angeles of an assignment to AT&T of the *Memorandum of Agreement Between the Los Angeles Regional Interoperable Communications System Authority and the City of Los Angeles for City Fiber Optic Network to Provide Connectivity for LA-RICS Data Traffic and Service*.

- ii. With respect to all other Round 1 PSBN Sites or Round 2 PSBN Sites not covered by Section 7.F.i, AT&T will timely evaluate the backhaul connectivity to those sites and determine whether it wants to assume the Motorola agreements for these leased commercial circuits, negotiate its own pricing directly with the commercial leased circuit provider, or use its own facilities for such connectivity. For those Round 1 PSBN Sites that AT&T wishes to continue with the current backhaul connectivity, the LA-RICS Authority will work with Motorola to assign those agreements to AT&T.
8. Round 2 of the LA-RICS PSBN Project.
 - A. Following the Effective Date, the LA-RICS Authority will submit an updated award action request, that AT&T will have the opportunity to review and provide timely comments on prior to submission, to secure approval from NTIA and the NOAA Grants Office to begin Round 2 of the LA-RICS PSBN Project. AT&T will support, in writing, the LA-RICS Authority's proposal with NTIA and the NOAA Grants Office to continue with the PSBN buildout which shall include Objective 1 for coverage augmentation of additional PSBN sites that expand the public safety services implemented in Round 1 of the LA-RICS PSBN Project. AT&T and the LA-RICS Authority will work cooperatively to identify those sites that mutually benefit the LA-RICS Authority and FirstNet's NPSBN offering to improve upon and augment the public safety services available in the Los Angeles County region.
 - B. AT&T will also support as part of Round 2 of the LA-RICS PSBN Project, the following LA-RICS Authority objectives detailed in the Round 2 Plan submitted to the NOAA Grants Office on February 8, 2017:
 - i. Modified Objective 2: Rapid Response Vehicles (COLTS)
 - ii. Objective 3: Applications and NOC Infrastructure
 - iii. Modified Objective 5: Testing and Validation Center

AT&T acknowledges that it has received a copy of the Round 2 Plan referenced in this subsection. AT&T will meet the requirements of this subsection by timely preparing a letter of support for Round 2 of the LA-RICS PSBN Project, which includes these objectives. The LA-RICS Authority will include this letter of support in its updated award action request for Round 2 of the LA-RICS PSBN Project. The LA-RICS Authority shall be responsible for all matching funds required by the BTOP Grant rules.
 - C. If NTIA and the NOAA Grants Office approves Round 2 of the LA-RICS PSBN Project, the LA-RICS Authority and AT&T shall work diligently during the remaining BTOP performance period so that timely construction of the Round 2 PSBN Sites can be completed and grant close-out occurs by no later than September 30, 2020, the expiration of the BTOP Grant performance period extended by the

Continuing Appropriations Act, 2016. AT&T and the LA-RICS Authority shall cooperate and work diligently together on: evaluating proposed Round 2 PSBN Sites; reviewing appropriate site leases for access to Round 2 PSBN Sites; technical requirements for the Round 2 PSBN Sites so that the sites can be built in a manner to be fully absorbed into the FirstNet NPSBN; providing pricing for AT&T equipment at Round 2 PSBN sites so site construction costs can be properly determined prior to the start of construction; providing coverage maps to the LA-RICS Authority to demonstrate enhanced coverage for the Los Angeles County region resulting from proposed Round 2 PSBN Sites; testing of the Round 2 PSBN Sites to the AT&T/FirstNet core(s) for the NPSBN; and any other actions that may be reasonably requested by the LA-RICS Authority or AT&T.

- D. Following the receipt of any approval by NTIA and the NOAA Grants Office of Round 2 of the LA-RICS PSBN Project, the LA-RICS Authority will work to secure site leases in its name with the appropriate land owners for the construction, installation, operation and maintenance of the Round 2 PSBN Sites, with full rights of access, entry, assignment, sublicense, operation and use for AT&T. AT&T acknowledges that any final terms and conditions for any Round 2 PSBN Sites is subject to negotiations with and require the final approval of the appropriate land owners.
- E. Once all sites in Round 2 of the LA-RICS PSBN Project are completed and following grant close-out of the BTOP Grant performance period, the LA-RICS Authority will assign, transfer, grant, convey, and deliver all related LA-RICS PSBN Assets to AT&T as set forth in Section 3 (Assignment of LA-RICS PSBN Assets), subject to NTIA and NOAA Grants Office approval.

9. Conditions.

- A. This Agreement and the obligations contained herein, are conditioned on the following:
 - i. NTIA and the NOAA Grants Office approving the assignment of the LA-RICS PSBN Assets to AT&T in writing and use of the LA-RICS PSBN Assets as part of the FirstNet NPSBN consistent with the FirstNet Contract.
 - ii. NTIA and the NOAA Grants Office approving Round 2 of the LA-RICS PSBN Project.
 - iii. The State of California electing to “opt in” to the AT&T FirstNet NPSBN solution.
 - iv. Execution and delivery of documents and instruments as may be necessary or reasonably requested by AT&T to assign, transfer, convey, grant and deliver, free and clear of all liens and encumbrances, but subject to the eighty (80) percent Federal interest referenced in Section 3.A and an

Owner's right to lease or license space at Round 1 PSBN Sites containing a BTOP Grant funded monopole or disguised monopole as provided for in Section 3.E.iii, all of the LA-RICS Authority's rights, interests and title to all LA-RICS PSBN Assets to AT&T.

- v. Accuracy of all representations and warranties of the LA-RICS Authority as set forth in Section 12 (Representations and Warranties of the Parties) as of the Closing Date as if made on the Closing Date.
- vi. Performance of all covenants of the LA-RICS Authority as set forth in Section 13 (Covenants) to be satisfied and performed prior to the Closing Date.

- B. Should any of the conditions provided for in this Section 9 (Conditions) not be met, the Parties will work cooperatively to determine whether any of the obligations provided for in this Agreement can still be fulfilled or performed, and if the Parties agree to proceed with any such obligations, the Parties will execute a mutually agreed to amendment to this Agreement, as appropriate, to that effect. If no such agreement can be reached, this Agreement may be terminated with no liability or obligation by either Party following thirty (30) days written notice.

10. Pre-Closing Date Obligations.

- A. Between the Effective Date of this Agreement and the Closing Date, each Party shall promptly provide notice to the other Party in writing of any fact or condition that causes or constitutes a breach of any of the obligations, representations and warranties contained herein.
- B. The LA-RICS Authority shall continue using the LA-RICS PSBN Assets to fulfill the intended purpose of its BTOP Grant conditions until the Closing Date. In addition, should the Closing occur prior to the Operations and Maintenance Date, the LA-RICS Authority shall be required to continue operating the LA-RICS PSBN Assets up to the Operations and Maintenance Date.
- C. Until the LA-RICS PSBN Assets are assigned to AT&T on the Closing Date, the LA-RICS Authority shall be responsible for the custody, control and maintenance of the LA-RICS PSBN Assets.

11. Post-Closing Date Obligations.

- A. AT&T will be responsible for any and all transfer, sales, use, and conveyance taxes, as well as any recording or filing fees, and any other similar costs, if any, that result from the transactions provided herein.
- B. On and following the Closing Date, AT&T shall comply with all applicable BTOP Grant conditions, special award conditions, and CFR rules and regulations,

including for use and disposition of grant funded assets, that may be required by NTIA and the NOAA Grants Office.

- C. AT&T acknowledges and agrees that the assignment herein of the LA-RICS PSBN Assets does not constitute a waiver of or removal of the Federal interest in the LA-RICS PSBN Assets. AT&T shall acknowledge the Federal interest in the LA-RICS PSBN Assets, and following the Closing Date, file new documentation as may be required by NTIA and the NOAA Grants Office, to provide notice of the Federal interest in the LA-RICS PSBN Assets held by AT&T. AT&T will file UCC-1 documentation to reflect the Federal interest in the BTOP Grant funded assets and will provide copies of these filings to NTIA and the NOAA Grants Office.
- D. Except as otherwise provided, the Parties each acknowledge and agree that they will execute and deliver any and all further agreements, documents, or instruments necessary to effectuate this Agreement and the transactions referenced herein, contemplated hereby, or reasonably requested by the other Party to perfect or evidence its rights hereunder. Further, should NTIA and the NOAA Grants Office require additional terms and conditions be included in this Agreement as part of its approval, if any, of the transactions provided for herein, and the Parties mutually agree that such terms and conditions should be included, the Parties will execute an amendment to the Agreement, as appropriate, to that effect.
- E. Within ninety (90) days from the Closing Date, unless the Parties agree otherwise in writing to a longer period of time, AT&T shall remove, transport and store, at its sole cost and expense, all Spare Equipment from the locations identified in Schedule B (Spare Equipment for LA-RICS PSBN) to AT&T's own facilities.

12. Representations and Warranties of the Parties.

- A. The LA-RICS Authority and AT&T each represent and warrant that:
 - i. It is fully authorized to sign this Agreement and to fulfill its obligations hereunder. The person executing this Agreement is an authorized agent who has actual authority to bind it to each and every term, condition, and obligation of this Agreement and that all requirements of it have been fulfilled to provide such actual authority.
 - ii. Its signing of this Agreement and performance of any of its obligations hereunder do not violate:
 - a. its joint powers authority agreement, business license, approval certificate, articles of association/incorporation or similar corporate or governance documents;

- b. any applicable laws, or the conditions attached to any authorization or approval granted by any governmental or regulatory authority; and
 - c. any agreement which is binding on the Party.
 - iii. There is no lawsuit, arbitration or other legal or governmental procedure pending or threatened against it which, based on its knowledge, could materially and adversely affect its performance of this Agreement.
 - iv. It is not the subject of any liquidation or dissolution proceedings.
 - v. It has neither been declared bankrupt by a court of competent jurisdiction nor entered into any bankruptcy proceedings.
- B. The LA-RICS Authority further represents and warrants that:
- i. It has no debts or liabilities associated with the LA-RICS PSBN Assets, and that it is not a party to any claim or action associated with the LA-RICS PSBN Assets.
 - ii. The LA-RICS Authority has good and marketable title to all of the LA-RICS PSBN Assets, free and clear of all liens but subject to the eighty (80) percent Federal interest referenced in Section 3.A. and an Owner's right to lease or license space at Round 1 PSBN Sites containing a BTOP Grant funded monopole or disguised monopole as provided for in Section 3.E.iii, and has the right and power to assign, convey, grant and transfer its twenty (20) percent interest to AT&T all LA-RICS PSBN Assets, but subject to NTIA and NOAA Grants Office approval as provided herein.
 - iii. The LA-RICS PSBN Assets include and the LA-RICS Authority owns or has the uncontested right to use, all properties and assets currently used by the LA-RICS Authority in connection with the LA-RICS PSBN. The LA-RICS PSBN Assets are individually and in the aggregate structurally sound and in good condition and state of repair, reasonable wear and tear and normal depreciation excepted, and are adequate for the uses for which they are being put. None of the LA-RICS PSBN Assets are in need of maintenance or repairs except for ordinary, routine maintenance and repairs that are not material in nature or cost.
 - iv. The LA-RICS Authority has complied with all federal, state, local, municipal and foreign statutes, laws, codes, ordinances, regulations, judgments, decrees, orders, rules, directives, technical or other standard requirements adopted or imposed by any governmental authority (collectively, "Laws") which are applicable to the LA-RICS PSBN Assets or to the LA-RICS Authority's ownership, operation and holding thereof.

The LA-RICS Authority has received no notice or communication from any governmental authority of non-compliance with any such Laws which has not been fully cured as of the date of this Agreement. The LA-RICS Authority possesses all approvals, consents, licenses, permits, rights, or similar affirmation necessary for the lawful operation and use of the LA-RICS PSBN Assets and the LA-RICS Authority is in full compliance with all such permits.

- v. Schedule E (Round 1 PSBN Sites) contains a true and correct list of each Round 1 PSBN Site and indicates whether the Round 1 PSBN Site tower or other structures associated therewith is leased or owned.
- vi. All SAAs are valid and binding and in full force and effect. A true and complete copy of each SAA has been made available to AT&T, and (i) the LA-RICS Authority is current with respect to all payments due, if any, under all such SAAs, (ii) the LA-RICS Authority has complied with all obligations under all such SAAs, including obtaining all necessary third person consents, and all such SAAs will remain in full force and effect following the Closing, (iii) there are no defaults under any such SAA that remain uncured and no condition exists which, with the lapse of time or giving of notice, or both, would give rise to a default under any such SAA, and (iv) the LA-RICS Authority has valid and enforceable rights of physical and legal ingress and egress to and from all Round 1 PSBN Sites and a public right-of-way.
- vii. The LA-RICS Authority has no knowledge of any studies or reports which indicate any material defects in the design or construction of any of the Round 1 PSBN Sites.
- viii. No person or entity, other than AT&T and the underlying property owners of each Round 1 PSBN Site, has any right, option, lease, license, right of first refusal or any other contract with respect to the purchase, assignment, possession, use or transfer of all or any portion of any Round 1 PSBN Sites.
- ix. The LA-RICS Authority has not made any commitment to any governmental authority, utility company, school board, church or other religious body, homeowner or homeowner's association or any other person relating to any Round 1 PSBN Site or related real property which would impose an obligation upon the LA-RICS Authority or AT&T or any of their successors or assigns to make contributions or dedications of money or land, or to construct, install or maintain any improvements of a public or private nature as part of any such real property. No governmental authority has imposed any requirement that the LA-RICS Authority pay, directly or indirectly, any special fees or contributions or incur any expenses or obligations in connection with the development or use of any Round 1 PSBN Sites or related real property or any portion thereof, other than any regular and nondiscriminatory local real estate or other taxes assessed

against such real property. As of the date hereof, all due and payable taxes, water charges and sewer charges, if any, affecting the Round 1 PSBN Sites and related real property or any portion thereof, have been paid.

- x. Each Round 1 PSBN Site (including the tower or other antenna structure and all related equipment) has been constructed and maintained in compliance with, and the operations of the LA-RICS Authority with respect to each Round 1 PSBN Site have been conducted in compliance with, the terms and conditions of the applicable Laws of any applicable governmental authority, including Title 47 of the Code of Federal Regulations, as amended, FCC policies and published FCC decisions FCC Rules and any OSHA and FAA rules, regulations and policies and all other Laws governing the construction, marking and lighting of antenna structures and co-location activities, as well as applicable environmental laws, and the LA-RICS Authority has, and will provide to AT&T, all documentation supporting such compliance. The LA-RICS Authority has received all necessary regulatory approvals, made all filings, tower registrations, where appropriate, RF Emission Certifications, SHPO and THPO Certifications or letters and other reports required to be obtained or made by them relating to each such Round 1 PSBN Site, including those necessary to comply with all FAA and FCC Tower Registration filing requirements under FCC Rule Part 17 and the FCC's NEPA regulations (FCC Rule Part 1, Subpart I, including FCC Rule Parts 1.1307-11), and the LA-RICS Authority has, and will provide to AT&T, all documentation supporting such approvals, filings, registrations and certifications. With respect to each Round 1 PSBN Site, the LA-RICS Authority has, and will provide to AT&T, documentation evidencing the following: 1A survey or 2C survey with tape drop height verifications, NEPA checklist showing compliance with NEPA regulations, RF emissions, THPO and SHPO certifications or letters and Phase I environmental assessments. No tower or antenna structure located on any Round 1 PSBN Site that requires an FAA determination has a determination other than of "No Hazard". There are no investigations, inquiries, enforcement proceedings, orders or other actions pending (or, to the knowledge of the LA-RICS Authority, threatened) by the FCC, FAA or any other governmental authority with respect to any Round 1 PSBN Site. No Round 1 PSBN Site (or related improvements) encroaches upon adjoining real estate.
- xi. Except as set forth on Schedule D (Site Access Information for Round 1 PSBN Sites), the transactions contemplated herein (including the transfer of LA-RICS PSBN Assets to AT&T) will not require any consent or permit of any governmental authority or other person with respect to any Round 1 PSBN Sites.
- xii. The LA-RICS Authority is currently in compliance with, and has at all times complied with, all applicable Environmental Laws with respect to the LA-

RICS PSBN Assets. With respect to the LA-RICS PSBN Assets, (i) the LA-RICS Authority has received no notifications and has no knowledge of any pending or threatened liabilities or litigation relating to noncompliance with any Environmental Laws or the handling, generation, use, transportation, recycling, reclamation or disposal of any Hazardous Materials and (ii) the LA-RICS Authority has no knowledge of, nor has the LA-RICS Authority received, any actual or threatened order, notice, or other communication from (A) any governmental authority or private citizen acting in the public interest, or (B) the current or prior owner or operator of any real property related to the LA-RICS PSBN Assets, of any actual or potential violation or failure to comply with any Environmental Law, or of any actual or threatened obligation to undertake or bear the cost of any environmental, health, or safety liabilities.

- xiii. The LA-RICS Authority has no knowledge of any audit or other investigation that has been or will be conducted as to environmental matters with respect to any LA-RICS PSBN Asset or related real property. Schedule F (Environmental Assessments for Round 1 PSBN Sites) contains a true, complete and accurate listing of, and the LA-RICS Authority has delivered, or caused to be delivered, to AT&T true and complete copies of all environmental site assessments, audits, investigations, test results, analytical data, boring logs, and other environmental reports and studies conducted by, at the expense of, or on behalf of the LA-RICS Authority or that are otherwise in the possession of the LA-RICS Authority relating to any LA-RICS PSBN Asset or related real property.
- xiv. There have been no releases, discharges, spillages, dumping, migration, leakage, burial, placement or disposals of Hazardous Material in, on, under, adjacent to, or affecting (or potentially affecting) any Round 1 PSBN Sites by the LA-RICS Authority, or to its knowledge, its Member Agencies. The LA-RICS Authority has not been named a responsible party or potentially responsible party or been notified that it is potentially liable under CERCLA or any other Environmental Law in connection with the release, disposal, transportation or arrangement for the release, disposal or transportation of Hazardous Materials. The LA-RICS Authority has not entered into or received nor is the LA-RICS Authority in default under any consent or order issued by any governmental authority relating to Environmental Laws.
- xv. The LA-RICS Authority has obtained all consents and made all findings required under any Environmental Law in connection with the ownership, use, or lease of the LA-RICS PSBN Assets ("**Environmental Consents**"). Schedule G (Environmental Consents for Round 1 PSBN Sites) contains a true, complete and accurate listing and description of, and the LA-RICS Authority has delivered, or caused to be delivered, to AT&T true and complete copies of each Environmental Consents. The LA-RICS Authority is in compliance with each such Environmental Consents, and no

Environmental Consent restricts the LA-RICS Authority from operating any LA-RICS PSBN Asset covered by such Environmental Consent as currently conducted.

- xvi. All waste containing any Hazardous Materials generated, used, handled, stored, treated or disposed of (directly or indirectly) by the LA-RICS Authority has been released or disposed of in compliance with all applicable Environmental Laws and reporting requirements and there has been no environmental claim with respect to any such release or disposal.

13. Covenants.

- A. At all times prior to Closing, the LA-RICS Authority shall (i) timely comply with all applicable Laws related to the LA-RICS PSBN Assets and their use and (ii) maintain the LA-RICS PSBN Assets in their present order and condition, reasonable wear and use excepted, and deliver the LA-RICS PSBN Assets to AT&T on the Closing Date in such condition, and maintain all policies of insurance covering the LA-RICS PSBN Assets in amounts and on terms substantially equivalent to those in effect on the date hereof.
- B. The LA-RICS Authority shall not, without the prior written consent of AT&T, (i) directly or indirectly sell, lease, license, sublease, sublicense, grant rights with respect to, transfer or otherwise dispose of, mortgage or pledge, or impose or suffer to be imposed any lien on, any of the LA-RICS PSBN Assets or any interest therein, (ii) take, permit to be taken or fail to take any action which action or failure to act could reasonably be expected to result in any loss or impairment of any LA-RICS PSBN Asset, (iii) directly or indirectly waive or relinquish any right or claim with respect to any LA-RICS PSBN Asset, (iv) remove any BTOP Grant funded equipment from any Round 1 PSBN Site, (v) take any other action that would reasonably be expected to cause a breach of any representation, warranty or covenant by the LA-RICS Authority contained in this Agreement, or (vi) materially amend or terminate any SAA.

14. Excluded Liabilities. Except for the assumption of future performance under the assumed SAAs, where applicable, from and after the Closing Date, AT&T shall not assume, or otherwise be responsible for any liabilities or obligations of the LA-RICS Authority or any of its member agencies, whether direct or indirect, liquidated or unliquidated, known or unknown, whether accrued, absolute, contingent, matured, unmatured or otherwise, whether arising out of occurrences prior to, at or after the Closing Date and regardless of whether any such liabilities relate to the LA-RICS PSBN Assets, including (a) any liabilities in connection with, resulting from, or arising out of, directly or indirectly, the ownership, operation or control, as applicable, of the LA-RICS PSBN Assets prior to the Closing Date; (b) any and all taxes that are obligations of the LA-RICS Authority, if any; (c) taxes with respect to taxable periods (or any portion thereof) ending on or prior to the Closing Date that arise out of the LA-RICS PSBN Assets, if any; or (d) any other liability of the LA-RICS Authority not expressly assumed by AT&T in this Agreement.

15. Limitations of Liability. in no event shall AT&T and its Affiliates, and the LA-RICS Authority or its member agencies who are a part of and form the LA-RICS Authority (“**Member Agencies**”), or their board of supervisors, officers, directors, employees or agents, be liable for any consequential, special, or incidental damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business opportunity, loss of business information, or other pecuniary loss) arising out of the obligations contained in this Agreement.
16. Notices. All notices, requests, demands and other communications required or permitted under this Agreement shall be (i) in writing, (ii) sent by facsimile or electronic mail (with a copy sent by registered mail or personal delivery), delivered by personal delivery, or sent by certified mail, return receipt requested, and (iii) deemed to have been given on the date emailed or faxed, the date of personal delivery, or the date set forth on the return receipt. Any party may alter the address to which communications or copies are to be sent by giving notice of such change of address in conformity with the provisions of this section for the giving of notice. All notices shall be sent as set forth below:

To the LA-RICS Authority:

Scott Edson, Executive Director
 2525 Corporate Place, Suite 100
 Monterey Park, CA 91754

17. Applicable Law. This Agreement is governed by and shall be construed in accordance with the substantive and procedural laws of the State of California, without regard to principles of conflicts of laws. The United Nations Convention on Contracts for the International Sale of Goods is specifically excluded from application to this Agreement.
18. No Third Party Beneficiaries. The LA-RICS Authority and AT&T do not in any way intend that any person or entity shall acquire any rights as a third party beneficiary of this Agreement.
19. Entire Agreement. This Agreement between the Parties constitutes the entire agreement and understanding of the Parties with respect to the subject matter hereof and thereof and supersede all prior or contemporaneous agreements of the Parties with respect to that subject matter.
20. Amendments. All changes, modifications, or amendments to this Agreement must be in the form of a written amendment duly executed by authorized agents of both Parties.
21. Severability. If any provision herein is held to be invalid, void or illegal by any court of competent jurisdiction, the Parties intend and agree that the same shall be deemed severable from the remainder of this Agreement, if practicable, and shall in no way affect, impair or invalidate any other provision contained herein. If any such provision shall be deemed invalid in its scope or breadth, such provision shall be deemed valid to the extent of the scope or breadth permitted by law. If any provision of this Agreement is adjudged void or invalid for any reason whatsoever, but would be valid if part of the wording thereof were deleted or changed, then such provision shall apply with such modifications as may be necessary to make it valid and effective.
22. Counterparts. This Agreement may be executed in counterparts which may be delivered by facsimile or electronic mail, each of which shall be considered an original instrument but all of which together constitute but one and the same instrument. Signature and acknowledgment pages, if any, to this Agreement may be detached from any counterpart and re-attached to any other counterpart of this Agreement which is identical in form hereto but having attached to it one or more additional signature and acknowledgment pages.
23. Binding Nature of Agreement; Assignment. This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns. This Agreement may not be assigned without the prior consent of either Party which may not be unreasonably withheld; provided, however, AT&T may, without the consent of the LA-RICS Authority, assign any and all of its rights hereunder to any of its Affiliates who agree to perform AT&T's obligations under this Agreement; and the LA-RICS Authority may, without the consent of AT&T, assign any and all of its rights hereunder to Los Angeles County who agrees to perform the LA-RICS Authority's obligations under this Agreement.

In the event of any assignment, both Parties shall provide sixty (60) days written notice to the other Party prior to the effective date of the assignment. AT&T Corp. agrees that it shall remain responsible for execution of the obligations contained herein, even where AT&T Corp has engaged its Affiliates.

24. Relationship of Parties. Both Parties, in the performance of this Agreement, will be acting in separate capacities and not as employees, partners, joint venturers, associates, or agents of one another. With regard to the performance of this Agreement, each Party acknowledges that it does not have the authority to act for or in the name of the other Party or to commit the other Party in any manner whatsoever. The employees or agents of one Party shall not be deemed or construed to be the employees or agents of the other Party for any purpose whatsoever.
25. Remedies. No remedy conferred by any of the specific provisions of the Agreement is intended to be exclusive of any other remedy, and each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder, now or hereafter existing at law or in equity or by statute or otherwise. The election of any one or more remedies by either party shall not constitute a waiver of the right to pursue other available remedies.
26. Survival. The terms, conditions and warranties contained in the Agreement that by their sense and context are intended to survive the performance hereof by the parties hereunder shall so survive the completion of the performance, cancellation or termination of the Agreement. Moreover, each party hereto covenants and agrees that its representations, warranties and covenants contained in this Agreement and in any document delivered or to be delivered pursuant to this Agreement shall survive termination hereof.
27. Dispute Resolution. In the event of a dispute regarding any terms or provisions in this Agreement, the Parties agree to act with urgency to mutually resolve any such disputes. The Parties agree to submit the disputed matter immediately to the LA-RICS Authority's Executive Director and AT&T Vice President for FirstNet operations, for further consideration and discussion to attempt to resolve the dispute. In the event that these individuals are unable to resolve the dispute within a reasonable time not to exceed ten (10) days from the date of submission of the dispute to them, then the matter shall be immediately submitted to the Chair of the LA-RICS Authority's Board of Directors, or his designee, for resolution within ten (10) days. In the event that there is not a resolution of the dispute acceptable to both Parties following this, then each Party will submit the dispute to a neutral mediator that is mutually agreed to by both Parties, for a non-binding resolution. Both Parties shall share equally in the cost of the neutral mediator. Should either Party not accept the mediator's non-binding resolution, the Parties may assert each of its rights and remedies provided by law.

* * *

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement which shall carry the Effective Date as first hereinabove written.

PSBN LTE SITES									
75	Total Sites (Includes 13 COWs)								

SCHEDULE F – ENVIRONMENTAL ASSESSMENTS FOR ROUND 1 PSBN SITES

The following documents for Round 1 PSBN Sites are provided to AT&T and are incorporated by reference:

1. Finding of No Significant Impact
2. Environmental Assessments, Supplemental Environmental Assessment #1, Supplemental Environmental Assessment #2
3. Route Modifications #1 and #2
4. FCC 620 Forms for Section 106 Compliance
5. SHPO Concurrence Letters
6. NTIA Exemptions from SHPO Review
7. USFWS Concurrence Letters
8. Biological Assessments, Supplemental Biological Assessments
9. NTIA Exemptions from USFWS Review
10. Environmental Site Assessments
11. CEQA Board Actions
12. Notices of Exemptions
13. EME Studies

SCHEDULE G - ENVIRONMENTAL CONSENTS FOR ROUND 1 PSBN

Appendix 7
Motorola Solutions Agreement
No. 007, Maintenance Option –
Appendix D

LMR SYSTEM MAINTENANCE AND WARRANTY

This Exhibit D sets forth the Authority's minimum and general requirements regarding LMR System Maintenance Work and Warranties.

Additionally, it is the intent of the Authority to, at some point during the term of the Agreement, transition performance of all or some portion of Maintenance Work of all or some portion of the LMR System to the Authority and/or Member staff. The scope and timing of Maintenance Work to be transitioned however is, at this time, undeterminable. Accordingly:

- a. The Authority's unilateral options under the resultant Agreement with respect to Maintenance Work extend to (a) each of Phase 5's fifteen (15) one-year Option Terms, and (b) with respect to each Option Term, the scope of work within Phase 5 for such Option Term. By way of example only, the Authority may, in its sole discretion, exercise the unilateral option with respect to one or more individual Option Terms and, within those Option Terms, the Authority may in its sole discretion exercise the unilateral option that the Contractor provide Maintenance Work (i) for the LMR System as a whole, or (ii) only for particular subsystems of the LMR System, or (iii) only for the LMR System Software, or (iv) for the entire LMR System, but only as implemented at specific LMR System Sites or other LA-RICS Sites (see Section 4.1.2.2 (Unilateral Options) of the Base Document); and
- b. The scope of work to be provided as a part of Phase 5 includes the obligation for the resultant Contractor to perform transition services during the term of the resultant Agreement in the event the Authority elects to transition performance of all or some portion of Maintenance Work of all or some portion of the LMR System to the Authority and/or Member staff (see Section 30 (Transition of Services) of the Base Document).

1. General

- 1.1. This Exhibit D sets forth the scope of, and Contractor's service level commitments regarding, the provision of Maintenance Work for the LMR System as described in this Exhibit D. Capitalized terms used in this Exhibit D without definition shall have the meanings given to such terms in the Base Document.
- 1.2. Contractor shall provide Maintenance Work for the LMR System and all Components thereof, as specified in this Agreement, including this Exhibit D. During the Warranty Period, such Work includes all Work described in Section 4.9 (Warranty Plan) of Exhibit B (LMR System Specifications), and following expiration of the Warranty Period, such Work includes all Work described in Section 5 (Phase 5 – LMR System Maintenance) of

Exhibit B (LMR System Specifications). Without limiting the foregoing, Maintenance Work includes Maintenance Services and Support Services.

- 1.3. Maintenance Work shall be provided during such periods as described in Section 4.1.1.2 (Maintenance Work) of the Base Document. Maintenance Services shall be provided by Contractor to the Authority at no cost beyond the applicable Maintenance Fees to be paid by the Authority following expiration of the Warranty Period, except as otherwise agreed to by the parties.
- 1.4. Contractor shall provide Maintenance Work for the LMR System from Contractor's business premises or at the LMR System Sites or other LA-RICS Sites, as necessary to fulfill Contractor's obligations under this Agreement. Maintenance Work provided from Contractor's business premises requiring remote access shall be conducted securely in accordance with Exhibit B (LMR System Specifications), and as may otherwise be required by the Authority from time to time.

2. Maintenance Services

2.1 LMR System Updates

As part of Maintenance Services, Contractor shall provide LMR System Updates to the LMR System Software, including Documentation, as described in, and in accordance with, the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications). Each LMR System Update shall be installed and implemented by Contractor as described in, and in accordance with, the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications), including, but not limited to, with respect to obtaining prior approval by the Authority, scheduling of installation and implementation times, and testing to ensure compatibility with the other LMR System Components, including previously provided LMR System Modifications and LMR System Interfaces, and with Authority-Provided LMR System Hardware and Authority-Provided LMR System Infrastructure.

2.2 Corrective Maintenance

As a part of Maintenance Services, Contractor shall provide such Work as is needed for the LMR System to continue to be fully functional and operation and to perform in accordance with the Specifications and other requirements of this Agreement, including the Work described in the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications). In the event that the LMR System or any Component thereof fails to meet the Specifications or other requirements of this Agreement,

Contractor shall respond to and resolve the Deficiency with the LMR System as described in Section 4 (Correction of Deficiencies) of this Exhibit D and Exhibit B (LMR System Specifications).

2.2.1 Regarding the LMR System Software, Contractor's obligations with respect to responding and resolving Deficiencies include, but are not limited to, the provision of LMR System Updates, as necessary for the LMR System to be fully functional and operational and to perform in accordance with the Specifications and other requirements of this Agreement. Regarding LMR System Hardware, Contractor's obligations with respect to responding and resolving Deficiencies include, but are not limited to, repairing or replacing the LMR System Hardware or any of its Components, including equipment, as necessary for the LMR System to be fully functional and operational and to perform in accordance with the Specifications and other requirements of this Agreement.

2.3 Preventive Maintenance

As a part of Maintenance Services, Contractor shall provide preventive maintenance for the LMR System as described in, and in accordance with, Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications).

3. Support Services

3.1 Operational Support

As part of Support Services, Contractor shall establish and maintain a local Network Operations Centers ("NOC") as described in, and in accordance with, Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications), in order for Contractor and the Authority to monitor and perform Maintenance Work with respect to the LMR System. Additionally, Contractor shall provide operational support for the LMR System 24 hours per day, seven (7) day per week, and 365/366 days per year ("Support Hours"). Such operational support shall include establishing, appropriately staffing, and maintaining the Management and Monitoring Subsystem functions of the LMR System, through which the Authority may report LMR System problems of any Severity Level (as defined in Exhibit B (LMR System Specifications)), and the Contractor may troubleshoot LMR System problems, track problem response and resolution times based upon Severity Levels, and attend to problems, all as required by the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications).

3.2 Disaster/Other Emergency Support

- 3.2.1 As a part of Support Services, Contractor shall provide the Tasks, Deliverables, goods, services and other Work described in, and in accordance with, the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications) during an impending disaster or other emergency, and in the event a disaster or other emergency is declared.
- 3.2.2 The Authority has designated Contractor's provision of Maintenance Work with respect to the LMR System as essential Contractor services. Additionally as part of Support Services, Contractor shall maintain a business continuity plan setting forth Contractor's plan to continue provision of essential Contractor services under this Agreement following the occurrence of a disaster or other emergency until normal operations can be resumed. Contractor shall address such issues in the business continuity plan as are reasonable in light of the nature of the essential Contractor services and Contractor's other business operations. Contractor shall maintain and update the business continuity plan as necessary and adhere to its requirements throughout the Term of this Agreement. Without relieving Contractor of its obligations under this Agreement, in the event that Contractor anticipates not being able to perform any of the essential Contractor services during a disaster or other emergency, Contractor shall notify the Authority Project Director as soon as possible and shall cooperate with the Authority in the Authority's efforts to maintain continuity of operations. Contractor shall require all Subcontractors with respect to the essential Contractor services to comply with this provision.

4 Correction of Deficiencies

4.1 Identification of Deficiencies

- 4.1.1 The Deficiencies under this Agreement may be either identified as a result of Contractor's use of its own LMR System monitoring system or discovered by the Authority, any of its Members or any of its other Users. Upon discovery of a Deficiency by the Authority, its Members, or its other Users, the Authority will report the Deficiency to Contractor for response and resolution.
- 4.1.2 The Severity Level of the Deficiency shall be assigned by Authority in its sole discretion, in accordance with the Severity Levels provided and defined in Exhibit B (LMR System Specifications). Based on Contractor's proposed solution and/or workaround(s) for the Deficiency, the Authority may, in its sole discretion, reevaluate and, if it so chooses, escalate or downgrade the Severity Level of the Deficiency pursuant to Section 4.3 (Severity Level Adjustment) of this Exhibit D.

4.2 Deficiency Resolution

For any Deficiency reported by the Authority or any of its Members or discovered by Contractor, Contractor shall meet the response times for Technical Support and Dispatch Support as provided and defined in Exhibit B (LMR System Specifications) for the Severity Level of the Deficiency. Additionally for each Deficiency, Contractor shall resolve such Deficiency, thereby restoring all affected LMR System Components to full functionality, within the Cure Periods specified in Exhibit B (LMR System Specifications) for the Severity Level of the Deficiency. Without limiting Contractor's obligations to correct Deficiencies within the prescribed Cure Periods, in the event that Contractor fails to correct a Deficiency within the prescribed Cure Period, Contractor shall provide the Authority with a written report that includes a detailed explanation of the status of such Deficiency, preliminary actions taken, detailed mitigation plans and a schedule for correction of such Deficiency; provided that notwithstanding any such schedule, the Authority Project Director, in sole discretion, may modify such schedule and set priorities for correction of such Deficiency and other Deficiencies. Contractor shall comply with such modified schedule and such priorities for correction.

4.3 Severity Level Adjustment

The Authority reserves the right to escalate or downgrade a Severity Level of any Deficiency if the Deficiency meets the definition of the Severity Level as escalated or downgraded, or if the Contractor fails to respond to or resolve a Deficiency as required by this Exhibit D.

4.4 Liquidated Damages for Certain Delay

4.4.1 Regardless of whether during the Warranty Period or during any Option Term elected by the Authority in accordance with Section 4.1.2.2 (Unilateral Options) of the Base Document, for each and every occasion upon which Contractor fails to resolve a Severity Level 1 or Severity Level 2 Deficiency with any Component of the LMR System in accordance with the timeframes set forth in this Exhibit D, as extended by the Authority in accordance with this Agreement, if applicable, the Authority shall be entitled to assess against Contractor in accordance with 11.3.5 (Authority's Right to Demand Payment or Deduct or Offset Liquidated Damages), liquidated damages as provided in this Section 4.4. For each 4 hour or portion thereof that a Deficiency continues beyond the prescribed Cure Period for such Deficiency and where the delay is not caused in whole or in part by acts or omissions of the Authority or a Force Majeure, the Authority will be entitled to assess liquidated damages in the amount of (a) with respect to Severity Level 1 Deficiencies, one-thirtieth (1/30) of the Maintenance Fees allocable to the affected Component, and (b) with respect to Severity Level 2 Deficiencies, one-sixtieth (1/60) of the Maintenance Fees allocable to the affected Component, in each case, as set forth in Exhibit C (Schedule of Payments), but in no event to exceed 20% of the total annual maintenance costs.

- 4.4.2 The parties acknowledge and agree that Section 4.4.1 is intended to be an exclusive remedy for certain levels of delay only. If the 20% liquidated damages cap is reached in any given year, liquidated damages shall no longer apply for any subsequent delay and the parties then have all other rights and remedies available at law or in equity, including but not limited to actual monetary damages for default.
- 4.4.3 Liquidated damages shall not be assessed for any period during which maintenance that has been scheduled in accordance with the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications) is being performed.

4.5 Self-Correction

In the event that the Contractor fails to resolve any Severity Level 1 or Severity Level 2 Deficiency in accordance with this Exhibit D, the Authority shall have the right to take such actions to correct such Deficiency as described in the applicable of Section 4.9 (Warranty Plan) and Section 5 (Phase 5 – LMR System Maintenance) of Exhibit B (LMR System Specifications).

5 LMR System Warranties

In addition to all other representations, warranties, and covenants set forth in this Agreement, Contractor represents, warrants, covenants and agrees that throughout the Term of this Agreement, with respect to the LMR System:

- 5.1. Contractor acknowledges that the Specifications and other requirements of the Agreement reflect the purpose for which the Authority requires the LMR System Components, and that the Authority is relying on the Contractor's skill and judgment to select and furnish suitable hardware, equipment, devices, parts, materials, goods, software, firmware, data, deliverables, and other Work to meet such purpose. Contractor therefore represents, warrants, covenants, and agrees that the LMR System Components are fit for the particular purpose express by the Specifications and otherwise in this Agreement.
- 5.2. Contractor and the LMR System shall comply with the descriptions and representations (including, but not limited to, Deliverable documentation, performance capabilities, accuracy, completeness, characteristics, Specifications, configurations, standards, functions and requirements applicable to professional LMR System design meeting industry standards) set forth in this Agreement, including Exhibit A (Statement of Work) and Exhibit B (LMR System Specifications).

- 5.3. All LMR System Components shall interface and be compatible with each other; and the LMR System Components, and, when taken together, shall be capable of delivering all of the functionality in the Specifications and otherwise in this Agreement. Without limiting the foregoing, provided the Authority-Provided LMR System Hardware and Authority-Provided LMR System Infrastructure meet the requirements specified therefore in Exhibit B (LMR System Specifications), the Authority-Provided LMR System Hardware and Authority-Provided LMR System Infrastructure shall be interface and be compatible with the other LMR System Components, and, when taken together, shall be capable of delivering all of the functionality in the Specifications and otherwise in this Agreement.
- 5.4. Contractor shall support all LMR System Software Components in their respective then-existing architecture and for their respective then-existing version releases and the most recent prior two (2) version releases for the Term of this Agreement
- 5.5. The level of Maintenance Services and Support Services shall not degrade during the Term of the Agreement.
- 5.6. Contractor shall not cause any unplanned interruption of the operations of, or accessibility to, the LMR System or any LMR System Component through any device, method or means including, without limitation, the use of any "virus", "lockup", "time bomb", "key lock", "worm", "back door" or "Trojan Horse" device or program, or any disabling code, which has the potential or capability of compromising the security of the Authority's Confidential Information or of causing any unplanned interruption of the operations of, or accessibility of the LMR System or any LMR System Component to the Authority, or any of its Members, or any User or which could alter, destroy, or inhibit the use of the LMR System, any LMR System Component or the Authority Data contained therein (hereinafter collectively "Disabling Device(s)"), which could block access to or prevent the use of the LMR System or any LMR System Component by the Authority, including any of its Members, or Users. Contractor represents, warrants, covenants, and agrees that it has not placed, nor is it aware of, any Disabling Device on any LMR System Component provided to the Authority under this Agreement, nor shall Contractor permit any subsequently delivered LMR System Component to contain any Disabling Device.
- 5.7. Contractor shall implement practices, procedures, and mechanisms consistent with guidance defined in International Organization for Standardization security standard 27002, section 10.4.1, as in effect from time to time, to prevent Disabling Devices from being incorporated or introduced into any LMR System.

6. Exclusions of Implied Warranties

6.1 These warranties do not apply to:

- (i) defects or damage to the extent resulting from: use of the Equipment or Contractor Software in other than its normal, customary, and authorized manner pursuant to the Documentation under this Agreement; or acts of God; testing, maintenance, disassembly, repair, installation, alteration, modification, or adjustment not provided or authorized by Contractor;
- (ii) breakage of or damage to antennas unless caused directly by defects in material or workmanship;
- (iii) Equipment that has had the serial number removed or intentionally made illegible;
- (iv) batteries (because they carry their own separate limited warranty); and
- (v) Repair of scratches or other cosmetic damage to Equipment surfaces that does not affect the operation of the Equipment.

6.2 Contractor understands, acknowledges, represents, and warrants that:

- 6.2.1 By its analysis of the Specifications it has actual knowledge of the purposes, both ordinary and particular, for which the LMR System, and each of its Components, are required and will be used by the Authority,
- 6.2.2 The Authority is relying solely on the Contractor's knowledge, skill, judgment, and expertise to design, select, furnish, install, and maintain the LMR System, and each of its Components, per the Specifications, and
- 6.2.3 The LMR System, and each of its Components, is fit for the Authority's ordinary and particular purposes as set forth in the Specifications.

6.3 The express warranties in this Agreement, including this Exhibit D, are the complete warranties for the LMR System and are given by Contractor in lieu of any implied warranties; in particular:

CONTRACTOR DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7. **Subscriber Maintenance for Portable Radio Equipment *Included under Amendment No. 12***

With respect to the portable radio equipment as set forth in Attachment A.1 (Portable Radio Equipment Specification) and consolettes and consoles as set forth in Attachment A.2 (Consolette/Console Specifications) to Amendment No. 7, in addition to the portable radio equipment set forth in Attachment A (Radio Equipment Specifications) to Amendment No. 12, Contractor will provide a built-in warranty period of five (5) years that will meet the minimum requirements set forth in Exhibit D.1 (Statement of Work – Service from the Start – LTE) (“SOW”) or the most current version of the SOW, as determined by the Authority. This warranty period shall commence on the date on which the equipment is inventoried and Authority accepts the equipment for payment. Contractor will perform service requests during the five (5) year warranty period as requested by the Authority, unless otherwise directed by the Authority.

Authority and its members may elect to purchase maintenance for this equipment for Years 6, 7, and 8, at the prices set forth in Exhibit C.2 (Schedule of Payments – Phase 1 – System Design). Such maintenance shall be provided by Contractor and will meet the minimum requirements as set forth in Exhibit D.1 (statement of Work – Service from the Start – LTE) or the most current version of the SOW, as determined by the Authority.

8. **~~Bridge Warranty for Network Management Stations (NMS) and Console Equipment Included under Amendment No. 12—Amended and restated under Amendment No. 90~~**

~~With respect to the console, terminal and control stations set forth in Attachment A.3 (Console, Network Management terminal and Control Stations) to Amendment No. 7, in addition to the consoles and control station set forth in Attachment A (Radio Equipment Specifications) to Amendment No. 12, Authority and Contractor agree that this equipment is part of the LMR System and constitutes LMR System Hardware, and is covered by the Warranty provisions in the Agreement, including this Exhibit D (LMR System Maintenance and Warranty). Contractor will also provide a bridge Warranty for this equipment that commences on the date on which the equipment is inventoried and Authority accepts the equipment for payment, and shall continue through the date of Final LMR System Acceptance. The price for this bridge warranty is set forth in Exhibit C.2 (Schedule of Payments—Phase 1—System Design).~~

8. **Repair/Restoration and Other Services**

Contractor will provide the Authority with repair and restoration services on a time and materials basis for all LMR System Sites, provide SUS and RSUS services, and provide an Asset Management license renewal pursuant to Exhibit D.2.1 (Motorola Customer Support Plan), which was amended and restated under Amendment No. 90.

9. **Bridge Warranty for Specified Equipment** *Amendment and Restated under No. 50*

With respect to Specified Equipment (Core 1, Core 2, repeater sites, Site on Wheels, and Station B Equipment) pursuant to Amendment No. 12, Amendment No. 34, Amendment No. 42, and Amendment No. 50, Contractor will provide a built-in warranty that will meet the minimum requirements set forth in Exhibit D.2 (Statement of Work) or the most current version of the SOW, as determined by the Authority. This warranty period shall be renewed and shall commence on January 1, 2021 and continue until December 31, 2021, as set forth in Exhibit D.2.1 (Motorola Customer Support Plan). The Specified Equipment, including the equipment listed in this Section 9, Exhibit D.2.1 (Motorola Customer Support Plan), and Exhibit D.2.2 (Equipment Lists for FCCF and PLM) will be covered by the Warranty provisions of the Agreement, including this Exhibit D (LMR System Maintenance and Warranty). Contractor will perform service requests during the bridge warranty period as requested by the Authority, unless otherwise directed by the Authority. The price for this bridge warranty is set forth in Exhibit C.20 (LMR Bridge Warranty).

SCOTT EDSON
EXECUTIVE DIRECTOR

June 6, 2024

Board of Directors
Los Angeles Regional Interoperable Communications System ("LA-RICS") Authority
(the "Authority")

Dear Directors:

APPROVE THE FISCAL-YEAR 2024-25 RECOMMENDED LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY OPERATING BUDGET

SUBJECT

Staff is requesting your Board adopt the Fiscal-Year 2024-25 Recommended Los Angeles Regional Interoperable Communications System Authority Operating Budget. The Authority's Finance Committee has reviewed the proposed Operating Budget and recommends approval and adoption.

RECOMMENDED ACTION

It is requested that your Board adopt the Enclosed Fiscal-Year 2024-25 Recommended Operating Budget of \$44,547,000 to be utilized for the continued operation of the Authority.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The Enclosed Recommended Operating Budget will allow the Authority to expend funding on, among other things, the County of Los Angeles (County) project team, as well as the balance remaining on executed consultant contracts and projected costs associated with Operations and Maintenance (O&M) contracts, travel and training, services and supplies, equipment, Lease, Liability and Commercial Property Insurance.

AGENDA ITEM I

FISCAL IMPACT/FINANCING

Federal and State revenue will fund \$24,561,000 of grant-funded expenditures. In addition to Federal and State revenue, Year 1 of the LMR System's O&M scheduled to commence in November of 2024, will be offset by grants, subscriber revenue, and Cost Recovery revenue associated with 3rd parties request for co-location on LA-RICS sites/towers.

In addition, this year's recommended budget includes \$424,000 balance in funds to support the router replacement program, identified as AT&T Business Agreement Services (Routers) in your budget summary. This year's recommended budget also includes the balance of funds allocated via the LA-RICS AT&T Business Agreement Amendment No. 4 (\$614,000) for various operational costs associated with the LTE deployment.

As the fiscal year progresses, staff will monitor actual costs and revenues, with any projected shortfalls to be addressed via mitigation strategies, solutions and one-time funding subsidies with the County of Los Angeles and other JPA participants.

FACTS AND PROVISIONS/LEGAL REQUIREMENT

The LA-RICS Fiscal Agent, County of Los Angeles Auditor-Controller reviewed the recommended action. The Finance Committee met on May 29, 2024 and unanimously recommended adoption of the Recommended Operating Budget.

Respectfully submitted,

SCOTT EDSON
EXECUTIVE DIRECTOR

Enclosure

c: Counsel to the Authority

LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM

FISCAL-YEAR 2024-25 RECOMMENDED OPERATING BUDGET EXECUTIVE SUMMARY

PROJECT OVERVIEW

The Los Angeles Regional Interoperable Communication System (LA-RICS) Authority (Authority) is a modern collaborative effort of law enforcement, fire service, and health service professionals with the goal to provide a single, unified voice communication platform for all regional public safety agencies. LA-RICS is deploying a Land Mobile Radio (LMR) System utilizing both digital trunked and analog conventional subsystems as well as deploying state and federal interoperability channels. The LMR System covers over 4,000 miles of diverse terrain and serves as the hub for over 34,000 first responders working across 85 municipalities. The LMR System Acceptance was achieved on November 17, 2023. LA-RICS' LMR System allows interagency coordination and response to routine, emergency, and catastrophic events.

A Joint Powers Authority (JPA) was established in January 2009, to engage in regional and cooperative planning and coordination of governmental services. The Authority Board includes ten (10) members who serve as the Authority's Board of Directors and represent a cross-section of first responder stakeholders who all share in the decision-making process, and have responsibility for setting policies and providing oversight on behalf of the Authority's Members.

The following information details the Recommended Fiscal-Year 2024-25 LA-RICS Operating Budget.

LA-RICS RECOMMENDED OPERATING BUDGET FISCAL-YEAR 2024-25 SOURCES

Federal Grant/State Budget Revenue

- **UASI, SHSP and State Budget Act of 2022 Funds:** Expenditures reimbursable under the Urban Area Securities Initiative (UASI), State Homeland Security (SHSP) Grants and State Budget Act of 2022 Funds awarded to LA-RICS.

LMR Operations & Maintenance

- **Subscriber Agreement Revenue:** The FY 24-25 Budget includes the revenue which will be collected from various Subscribers who are using the LMR System in accordance with Adopted User Agreement terms and conditions on a per device cost.
- **Other Financing Options:** As Fiscal year progresses, LA-RICS will monitor actual costs and revenues and, should LA-RICS project funding shortfalls, LA-RICS will discuss mitigation strategies, solutions and one-time funding subsidies with the County and other JPA participants.

Cost Recovery Fees

The FY 24-25 Budget includes the costs associated with the Authority's collocation and rent fee for third parties who desire to collocate equipment and utilize the Authority's LMR sites and facilities for communication purposes.

AT&T Business Agreement Project

- **AT&T Business Agreement Services:**

The FY 24-25 Budget includes the balance of funds allocated from the LA-RICS AT&T Business Agreement pursuant to Amendment No. 4 for various operational costs associated with the LTE deployment.

- **AT&T Business Agreement Services (Routers):**

The FY 24-25 Budget includes the balance of funds relating to router replacement services in accordance with the executed Business Agreement between the Authority and AT&T paid for with the LA-RICS AT&T Business Agreement Funds.

LA-RICS RECOMMENDED OPERATING BUDGET FISCAL-YEAR 2024-25 USES

Grant Funded Expenditures

LA-RICS Project Team

This section contains costs associated with salaries and employee benefits of project staff from various County of Los Angeles (County) Departments, assigned to the LA-RICS project through a Master Agreement and Memorandum of Understanding (MOU) between the Authority and the County Chief Executive Officer (CEO). Project staff provide support relating to daily operations of the project, including Operations, Technical, and Administrative Support. Costs are projected and will not be incurred unless funds are secured for the same.

Travel and Training

This section contains costs associated with travel and training of project staff and executive management to support the project goals and mission. Projected travel includes public education, outreach meetings, airfare charges, transportation charges, per diem, and related conference fee/meeting registration charges.

Miscellaneous

This section contains cost associated with miscellaneous fees, including utilities, AQMD permit fees, etc. through the completion of the Warranty period.

FCC Licensing

This section contains costs associated with FCC Licensing.

Contractor/Consultants Services

This section contains costs associated with projected contract expenditures for project management, telecommunications contractors, miscellaneous agreements for contracted work with Department of Public Works, Internal Services Department, etc. as well as MSI Interconnections UASI AA and MSI System Upgrade Agreement (SUA).

LMR Operation & Maintenance Expenditures

Project Team

This section contains costs associated with salaries and employee benefits of project staff from various County of Los Angeles (County) Departments, assigned to the LA-RICS project through a Master Agreement and Memorandum of Understanding (MOU) between the Authority and the County Chief Executive Officer (CEO). Project staff provide support relating to daily operations of the project, including Operations, Technical, and Administrative Support. Costs are projected and will not be incurred unless funds are secured for the same.

Executive Director

This section contains costs associated with the professional services agreement between the Authority and LA-RICS Executive Director.

Project Construction Management

This section contains costs associated with projected contract expenditures for project management.

MSI O & M Year 1

This section contains costs associated with Year 1 of the LMR System's O&M scheduled to commence in November of 2024.

MSI System Upgrade Agreement (SUA)

This section contains costs associated with MSI system upgrade agreement (SUA).

Governmental Maintenance Services

This section contains costs associated with projected governmental services for the ongoing operations and maintenance of the LA-RICS sites and facilities.

Other Charges

This section contains costs associated with Authority insurance, commercial property insurance, services and supplies, travel, office lease, IBM Cyber Security Monitoring, ES Chat, Smartsheet license, fiber link between System cores, InforEAM Asset Management, etc.

Cost Recovery Fees

This section contains costs associated with the Authority's collocation and rent fee as approved by your Board, for third parties who desire to collocate equipment and utilize the Authority's LMR sites and facilities. The costs incurred by the Authority for these collocation requests will be offset by the fees paid by third parties.

AT&T Business Agreement Projects

This section contains the balance of funds allocated from the LA-RICS AT&T Business Agreement pursuant to Amendment No. 4 to be used for operational and access costs at AT&T/LA-RICS co-location sites as well as other costs associated with the LTE deployment, and the router replacement program.

CONCLUSION

Total Grant Funded Expenditures – \$24,561,000 projected in Fiscal-Year 2024-25. This includes scheduled activities through June of 2025 capturing completion of the Warranty period and a portion of the Operation and Maintenance of the LMR system.

LMR Operation & Maintenance – \$18,798,000 projected in Fiscal-Year 2024-25. LMR Operation and Maintenance includes projected costs associated with activities supporting management and administration, support operations and maintenance, operations and/or are unallowable under the grant guidance/regulations.

This includes:

- Project Team;
- Executive Director;
- Project Construction Management;
- MSI O&M Year 1;
- MSI System Upgrade Agreement (SUA);
- Governmental maintenance services.
- Authority insurance, commercial property insurance, services and supplies, travel, office lease, IBM Cyber Security Monitoring, ES Chat, Smartsheet License, Fiber Link between System Cores, InforEAM Asset Management, etc.

Cost Recovery Fees – \$150,000 projected in Fiscal-Year 2024-25 includes the cost associated with the Authority's collocation and rent fee for third parties who desire to collocate equipment and utilize the Authority's LMR sites and facilities for communication purposes.

AT&T Business Agreement Funds – \$614,000 projected in Fiscal-Year 2024-25 includes the balance of funds allocated from the LA-RICS AT&T Business Agreement pursuant to Amendment No. 4 for various operational costs associated with the LTE deployment.

AT&T Business Agreement Services (Routers) – \$424,000 captures the projected balance remaining in the Business Agreement Services fund to support the router swap program projected for use in Fiscal-Year 2024-2025.

SCOTT EDSON
EXECUTIVE DIRECTOR

June 6, 2024

Board of Directors
Los Angeles Regional Interoperable Communications System Authority (the "Authority")

Dear Directors:

**DELEGATE AUTHORITY TO THE EXECUTIVE DIRECTOR TO ENTER INTO
NEGOTIATIONS FOR A SOLE SOURCE AGREEMENT WITH THE
COUNTY OF LOS ANGELES INTERNAL SERVICES DEPARTMENT (ISD)
FOR CERTAIN ENGINEERING, MAINTENANCE, AND ANCILLARY SERVICES**

SUBJECT

Board approval is requested to delegate authority to the Executive Director to enter into negotiations for a sole source agreement with the County of Los Angeles Internal Services Department (ISD) for engineering, maintenance, and ancillary services necessary for the continued operation of the LMR System beyond the Warranty Period. Such services will include, but are not limited to, overall facilities, Job Order Contract (JOC), and craft services project management; Network Operations Center (NOC) alarm monitoring; certain telecommunications work/services, such as engineering support, permitting, regulatory compliance, engineering site inspections and assessments, engineering documentation updates, etc.; emergency site restoration services; generator refueling; generator preventative maintenance; generator deployment; pest control; weed abatement; tree trimming; electrical work; fire suppression inspections; heating, ventilation, and air conditioning (HVAC) services; fence repair; rust removal; certain road maintenance services; shelter repairs/weather proofing; building craft support services, etc.

RECOMMENDED ACTION

It is recommended that your Board delegate authority to the Executive Director to enter into negotiations for a sole source agreement with ISD for engineering, maintenance, and ancillary services necessary for the continued operation of the LMR System beyond the Warranty Period. Upon completion of negotiations, Authority staff will return to your Board for consideration of a proposed agreement, corresponding scope, terms and conditions, and costs for engineering, maintenance, and ancillary services.

BACKGROUND

As the Board is aware, the LMR System is currently under the Warranty Period with the LMR System contractor Motorola Solutions, Inc. (MSI). As the Warranty Period will conclude on November 16, 2024, the Authority is working to ensure there will be no gaps in the long-term maintenance services provided. In order to achieve this, Authority staff is working closely with MSI on finalizing the Maintenance Plan in preparation of exercising Year 1 Maintenance as set forth in the LMR Agreement. Additionally, Authority staff is working through scope and cost with MSI on a System Upgrade Agreement (SUA), and certain LMR System maintenance that is not captured in the Year 1 Maintenance Plan. However, there are certain engineering, maintenance, and ancillary services needed that aren't captured in any separately negotiated agreement that are required for the continued operation of the LMR System.

Some of the services that will be needed that aren't covered in any separately negotiated agreements include, but are not limited to, overall facilities, JOC, and craft services project management; NOC alarm monitoring; certain telecommunications work/services, such as engineering support, permitting, regulatory compliance, engineering site inspections and assessments, engineering documentation updates, etc.; emergency site restoration services; generator refueling; generator preventative maintenance; generator deployment; pest control; weed abatement; tree trimming; electrical work; fire suppression inspections; HVAC services; fence repair; rust removal; certain road maintenance services; shelter repairs/weather proofing; building craft support services, etc.

At present, these services have been provided primarily by Jacobs Project Management, MSI and its subcontractors, ISD as well as other County Departments such as the County of Los Angeles Sheriff's Department, County of Los Angeles Fire, Department, the Department of Public Works, etc., via agreements and the authorization your Board delegated to the Executive Director on May 4, 2023, to enlist assistance from the County of Los Angeles and other governmental agencies for various services.

Given the extensive experience and familiarity held by ISD, its support staff, and contractors with the LMR System and its corresponding sites, it is appropriate and within the parameters of the sole source justification to enter into a single sole source Agreement with ISD to provide the necessary engineering, maintenance, and ancillary services in order to ensure the LMR System continues to operate at public safety grade.

It is for these reasons the Authority is seeking your Board's approval to authorize the Executive Director to commence negotiations with ISD to perform engineering, maintenance, and ancillary services necessary for the continued operation of the LMR System.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to authorize the Executive Director to commence negotiations with ISD to perform engineering, maintenance, and ancillary services necessary for the continued operation of the LMR System.

As the Authority has adopted the County of Los Angeles' procurement mode, in accordance with the Board of Supervisor's Policy No. 5.100 (Sole Source Contracts and Amendments), notification is being provided to your Board, as well as a request to delegate to the Executive Director authority to engage in negotiations for a sole source agreement. Enclosed with this Board Letter is a Sole Source Checklist consistent with the Board of Supervisors Policy No. 5.100.

FISCAL IMPACT/FINANCING

At present, there is no fiscal impact. Once negotiations with ISD have completed and an agreement is finalized, Authority staff will return to your Board with a proposed agreement for your consideration that includes corresponding scope, terms and conditions, and cost for engineering, maintenance, and ancillary services. The resulting contract will be funded with Subscription Revenue and/or other Operations and Maintenance Revenue depending on the timing of an agreement award, should your Board approve such award.

FACTS AND PROVISIONS/LEGAL REQUIREMENT

The Authority's counsel has reviewed the recommended actions and approves as to form.

CONCLUSION

Upon your Board's approval of the recommended action, the Executive Director will have delegated authority to proceed in a manner described in the recommended action.

Respectfully submitted,

SCOTT EDSON
EXECUTIVE DIRECTOR

SCOTT EDSON
EXECUTIVE DIRECTOR

June 6, 2024

LA-RICS Board of Directors
Los Angeles Regional Interoperable Communications System Authority (the "Authority")

Dear Directors:

**INCREASE THE NOT-TO-EXCEED AMOUNT CORRESPONDING TO THE
AUTHORITY DELEGATED TO THE EXECUTIVE DIRECTOR
TO ENLIST THE ASSISTANCE OF THE COUNTY OF LOS ANGELES
AND OTHER GOVERNMENTAL AGENCIES FOR VARIOUS SERVICES
AT LAND MOBILE RADIO SYSTEM SITES**

SUBJECT

Board approval is requested to increase the previous Board delegation from \$325,000 to \$882,000, to continue to allow the Executive Director to enlist the assistance of the County of Los Angeles (County) and other governmental agencies through completion of the Warranty period for various services in-house, via competitive bid, or via emergency processes managed by the County or the governmental agency that may be needed by the Authority at Land Mobile Radio (LMR) System sites for an aggregate not-to-exceed amount of \$882,000.

RECOMMENDED ACTIONS

It is recommended that your Board:

1. Increase the budget authority previously delegated to the Executive Director corresponding to services from the County and other governmental agencies to perform various services in-house, via competitive bid, or via emergency processes managed by the County or the governmental agency via issuance of a written request for services that may be needed by the Authority at LMR System sites through completion of the Warranty period from \$325,000 to \$882,000 total aggregate not-to-exceed amount.

2. Require the Executive Director to continue to report quarterly to your Board regarding what costs, if any, were incurred for services required at LMR System sites, and the remaining balance of the total aggregate not-to-exceed budgeted amount of \$882,000.

BACKGROUND

On May 4, 2023, your Board delegated authority to the Executive Director to enlist assistance from the County and other governmental agencies to perform various services in-house, via competitive bid, or via emergency processes managed by the County or the governmental agency via issuance of a written request for services that may be needed by the Authority at LMR System sites. As your Board is aware, the Authority's LMR System contractor, Motorola Solutions, Inc. (MSI) informed the Authority that since it has transitioned to the Warranty Period, it has released its construction subcontractors and MSI continues to decline to perform certain work the Authority requires at certain LMR System sites through completion of the Warranty period. Such was the case with certain road repair work, generator work, conduit installation work, tower removal work, etc.

The Authority is seeking to increase the existing delegated authority your Board previously granted to the Executive Director to continue to enlist the assistance of the County and/or other governmental entities through their established processes to perform work that may be needed at LMR System sites such as, but is not limited to, weed abatement services, rust repair services, road repair services, fuel deliveries, dirty fuel replacement, pest control services, hazmat/chemical cleanup services, and primary power generator maintenance, with such work being performed either through in-house or via competitive bid processes as these agencies have the infrastructure in place to complete services in a timely manner in furtherance of the Authority's goal of achieving interoperability in the region.

The expectation is that ahead of the conclusion of the Warranty Period, currently slated for November 2024, the Authority will have the requisite Agreements in place to cover all the work needed as we transition to the operations and maintenance phase of the LMR System. As such, we request your Board expand the Executive Director's delegated authority by \$557,000, for a total aggregate not-to-exceed amount of \$882,000 to cover services that may be needed until November 2024.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

Approval of the recommended action will increase the budget corresponding to the Executive Director's delegated authority for these services from the County or other governmental agencies to perform various services that may be needed at LMR System sites for an aggregate not-to-exceed amount of \$882,000. Such delegation will allow

work that is needed at LMR System sites to be accomplished either in-house or via competitive bid processes deemed necessary and appropriate by the County or the governmental agency and will be managed by the same through completion of the Warranty period scheduled for November 2024.

FISCAL IMPACT/FINANCING

Any necessary work at LMR System sites will not exceed an aggregate not-to-exceed amount of \$882,000, which includes \$325,000 previously approved by your Board. Should your Board approve these actions, such costs incurred will be payable from the Urban Areas Security Initiative (UASI) Program open and awarded grants and/or by California State Budget Act funds of 2022, in particular from the Contingency line item for unforeseen work and captured in the current LA-RICS Adopted Operating Budget as well as the Recommended budget considered by your Board for FY 24-25. Should costs exceed the aggregate not-to-exceed amount identified herein, the Authority will return to your Board for additional approval.

FACTS AND PROVISIONS/LEGAL REQUIREMENT

The Authority's counsel has reviewed the recommended actions and approved as to form.

CONCLUSION

Upon the Board's approval of the recommended actions, the Executive Director will have delegated authority to proceed in a manner described in the recommended actions.

Respectfully submitted,

SCOTT EDSON
EXECUTIVE DIRECTOR
